Missoula Rape And The Justice System In A College Town:

Missoula Jon Krakauer, 2015-04-21 From bestselling author Jon Krakauer a stark powerful meticulously reported narrative about a series of sexual assaults at the University of Montana stories that illuminate the human drama behind the national plague of campus rape Missoula Montana is a typical college town with a highly regarded state university bucolic surroundings a lively social scene and an excellent football team the Grizzlies with a rabid fan base The Department of Justice investigated 350 sexual assaults reported to the Missoula police between January 2008 and May 2012 Few of these assaults were properly handled by either the university or local authorities In this Missoula is also typical A DOJ report released in December of 2014 estimates 110 000 women between the ages of eighteen and twenty four are raped each year Krakauer s devastating narrative of what happened in Missoula makes clear why rape is so prevalent on American campuses and why rape victims are so reluctant to report assault Acquaintance rape is a crime like no other Unlike burglary or embezzlement or any other felony the victim often comes under more suspicion than the alleged perpetrator This is especially true if the victim is sexually active if she had been drinking prior to the assault and if the man she accuses plays on a popular sports team The vanishingly small but highly publicized incidents of false accusations are often used to dismiss her claims in the press If the case goes to trial the woman s entire personal life becomes fair game for defense attorneys This brutal reality goes a long way towards explaining why acquaintance rape is the most underreported crime in America In addition to physical trauma its victims often suffer devastating psychological damage that leads to feelings of shame emotional paralysis and stigmatization PTSD rates for rape victims are estimated to be 50% higher than soldiers returning from war In Missoula Krakauer chronicles the searing experiences of several women in Missoula the nights when they were raped their fear and self doubt in the aftermath the way they were treated by the police prosecutors defense attorneys the public vilification and private anguish their bravery in pushing forward and what it cost them Some of them went to the police Some declined to go to the police or to press charges but sought redress from the university which has its own non criminal judicial process when a student is accused of rape In two cases the police agreed to press charges and the district attorney agreed to prosecute One case led to a conviction one to an acquittal Those women courageous enough to press charges or to speak publicly about their experiences were attacked in the media on Grizzly football fan sites and or to their faces The university expelled three of the accused rapists but one was reinstated by state officials in a secret proceeding One district attorney testified for an alleged rapist at his university hearing She later left the prosecutor s office and successfully defended the Grizzlies star quarterback in his rape trial The horror of being raped in each woman s case was magnified by the mechanics of the justice system and the reaction of the community Krakauer s dispassionate carefully documented account of what these women endured cuts through the abstract ideological debate about campus rape College age women are not raped because they are promiscuous or drunk or send mixed signals or feel guilty about casual sex or seek attention

They are the victims of a terrible crime and deserving of compassion from society and fairness from a justice system that is clearly broken

Beyond the Rapist Kate Lockwood Harris,2019-03-04 In the United States approximately one in five women experiences rape during college and LGBTQ students experience sexual violence at even higher rates An increasing number of interested parties from activists and students to legislators and university administrators are re evaluating the role that universities and colleges play in the incidence of sexual violence on their campuses To this end the number of U S universities under investigation for mishandling sexual assaults has recently grown to the highest count to date Many more universities guided by federal laws such as Title IX and the Clery Act are working to better prevent and address various forms of assault on their campuses by implementing new policies reporting procedures and investigative processes Now that such measures have been implemented for several years however the question arises of whether these institutional changes are actually combatting the issue of campus sexual assault or whether they might in practice be reproducing that violence in other forms In Beyond the Rapist Kate Lockwood Harris considers this question and how the relationships among organization communication and violence inform how we understand the ways in which universities talk about and respond to sexual violence Drawing upon theoretical insights from feminist new materialism Harris explores how complex physical and symbolic components of violence are embedded in organizations and applies this thinking to the policies and practices of a university known for its Title IX processes In doing so she suggests that combatting the epidemic of sexual violence on college campus involves both recognizing that sexual violence is part of larger systems of injustice and refining our definition of violence to encompass far more than individual moments of physical injury **Me Too, Feminist Theory, and Surviving Sexual Violence in the Academy** Laura A.
