New Media And Public Relations New Media And Public Relations:

Journalism and PR John Lloyd, Laura Toogood, 2014-11-18 Public relations and journalism have had a difficult relationship for over a century characterised by mutual dependence and often mutual distrust. The two professions have vied with each other for primacy: journalists could open or close the gates but PR had the stories, the contacts and often the budgets for extravagant campaigns. The arrival of the internet and especially of social media has changed much of that. These new technologies have turned the audience into players who play an important part in making the reputation and the brand of everyone from heads of state to new car models vulnerable to viral tweets and social media attacks. Companies, parties and governments are seeking more protection especially since individuals within these organisations can themselves damage even destroy their brand or reputation with an ill-chosen remark or an appearance of arrogance. The pressures and the possibilities of the digital age have given public figures and institutions both a necessity to protect themselves and channels to promote themselves free of news media gatekeepers. Political and corporate communications professionals have become more essential and more influential within the top echelons of business, politics and other institutions. Companies and governments can now must now become media themselves putting out a message 24/7, establishing channels of their own, creating content to attract audiences and reaching out to their networks to involve them in their strategies. Journalism is being brought into these new more influential and fast-growing communications strategies. And as newspapers struggle to stay alive, journalists must adapt to a world where old barriers are being smashed and new relationships built. This time with public relations in the driving seat. The world being created is at once more protected and more transparent: the communicators are at once more influential and more fragile. This unique study illuminates a new media age. *Putting the Public Back in Public Relations* Brian Solis, Deirdre K. Breakenridge, 2009-02-19 Forget the pitch. Yesterday's PR techniques just don't work anymore. That's the bad news. Here's the great news: Social Media and Web 2.0 offer you an unprecedented opportunity to make PR work better than ever before. This book shows how to reinvent PR around two-way conversations, bring the public back into public relations and get results that traditional PR people can only dream about. You'll learn powerful new ways to build the relationships that matter and reach a new generation of influencers, leverage platforms ranging from Twitter to Facebook, truly embed yourself in the communities that are shaping the future. Best of all, you won't just learn how to add value in the Web 2.0 world; you'll learn how to prove how new, intelligent and socially rooted PR will transform your organization into a proactive, participatory communication powerhouse that is in touch and informed with its community of stakeholders. *Social Media and Public Relations* Deirdre Breakenridge, 2012 This title by social marketing pioneer Deirdre Breakenridge teaches and demonstrates the eight new skills and mindsets PR marketing pros need to build brands and

New Media and Public Relations Sandra C. Duhé, 2012 The second edition of New Media and Public Relations captures

how the extraordinary global adoption of social media in recent years has changed the way organizations and the public relate to one another. Scholars from around the world provide intriguing insights into how constantly emerging technologies require organizations to be interactive and authentic in virtual environments where control and creation of messages is a shared process. New theoretical perspectives are offered along with case studies and practical suggestions for using online venues in corporate, charitable, political, cause, advocacy, religious, health, university, and crisis settings. Publisher: *The Social Media Communication Matrix*, Kenneth D. Plowman, Beki Winchel, 2015-09-10. Sophisticated problem solving in strategic communication or public relations. PR is done through planning strategic communication planning. The focus of this book is to meld current trends in social media to strategic communications planning in the field of PR. The definition of social media used here is channels delivering web-based information created by people to improve communication. This work used the strategic communication plan based on Wilson and Ogden's 2014 work for basic structure and an operational definition of strategic communication developed by one of the authors. The steps in a typical strategic communication campaign that will be affected include goals, measurable objectives, the big idea, key public's message, design strategies and tactics, and evaluation or return on investment. This book covers the major social media platforms and addresses branding, crisis communications, entertainment, and sports, citizen journalism, and analytics. The contribution to the body of knowledge should be highly significant, affecting the way PR professionals go about devising and conducting strategic communication campaigns in light of the effect of social media as well as how academics teach the process in their classrooms.

Social Media and Public Relations Judy Motion, Robert L. Heath, Shirley Leitch, 2015-11-19. Social media is having a profound but not yet fully understood impact on public relations. In the 24/7 world of perpetually connected publics, will public relations function as a dark art that spins or tweets self-interested variations of the truth for credulous audiences? Or does the full glare of the internet and the increasing expectations of powerful publics motivate it to more honestly engage to serve the public interest? The purpose of this book is to examine the role of PR by exploring the myriad ways that social media is reshaping its conceptualization, strategies, and tactics. In particular, it explores the dichotomies of fake and authentic, powerless and powerful, meaningless and meaningful. It exposes transgressions committed by practitioners, the paucity of digital literacy, the lack of understanding of the norms of social media, naivety about corporate identity risks, and the overarching emphasis on spin over authentic engagement. But it also shows the power that closely networked social media users have to insert information and opinion into discussions and force false PR friends to be less so. This timely, challenging, and fascinating book will be of interest to all students, researchers, and practitioners in Public Relations, Media, and Communication Studies. Winner of the 2016 NCA PRIDE Award for best book.
