

The background of the book cover is a painting of two sailors on the deck of a ship. One sailor, wearing a green uniform and a black hat, is in the foreground, looking out towards the horizon. Another sailor, wearing a red uniform, is slightly behind him, also looking out. In the distance, a city with tall buildings is visible on the horizon under a hazy, yellowish sky. The ship's rigging and ropes are visible in the foreground.

have taken on new meaning and significance Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed 21st Century Economics A Reference Handbook is intended to meet the needs of several types of readers Undergraduate students preparing for exams will find summaries of theory and models in key areas of micro and macroeconomics Readers interested in learning about economic analysis of an issue as well students embarking on research projects will find introductions to relevant theory and empirical evidence And economists seeking to learn about extensions of analysis into new areas or about new approaches will benefit from chapters that introduce cutting edge topics To make the book accessible to undergraduate students models have been presented only in graphical format minimal calculus and empirical evidence has been summarized in ways that do not require much background in statistics or econometrics It is thereby hoped that chapters will provide both crucial information and inspiration in a non threatening highly readable format
