For all readers interested in Web design: **Online Teaching in the Digital Age**, Pat Swenson, Nancy A. Taylor, 2012-01-18. The essential guide to teaching in a virtual environment. Online Teaching in the Digital Age provides educators with the essential knowledge needed to successfully develop and teach an online course. Throughout this practical hands-on guide, the authors offer 15 years of personal online teaching experience in language accessible to both the novice and advanced online educator. Developed through theory and practice, the text shows educators how to take the materials used in a traditional classroom and transfer them to a new virtual environment. Additionally, it gives educators the confidence and skills needed to run real-time synchronous and time-arranged asynchronous online discussions. Most reassuring of all, this book shows that few traditional course elements need to change in order to start teaching online. **New Perspectives on HTML, XHTML, and Dynamic HTML**, Patrick Carey, 2009-02-17. The latest book from Cengage Learning on New Perspectives on HTML, XHTML, and Dynamic HTML. International Edition. *Digital Healthcare Empowering Europeans*, R. Cornet, L. Stoicu-Tivadar, A. Hörbst, 2015-05-08. The digitization of healthcare has become almost ubiquitous in recent years, spreading from healthcare organizations into the homes and personal appliances of practically every citizen. Thanks to the collective efforts of health professionals, patients, and care providers, as well as systems developers and researchers, the entire population of Europe is able to participate in and enjoy the benefits of digitized health information. This book presents the proceedings of the 26th Medical Informatics in Europe Conference (MIE2015) held in Madrid, Spain, in May 2015. The conference brings together participants who share their latest achievements in biomedical and health Informatics, including the role of the user in digital healthcare, and provides a forum for discussion of the inherent challenges to design and adequately deploy ICT tools, the assessment of health IT interventions, the training of users, and the exploitation of available information and knowledge to further the continuous and

ubiquitous availability and interoperability of medical information systems Contributions address methodologies and applications success stories and lessons learned as well as an overview of on going projects and directions for the future The book will be of interest to all those involved in the development delivery and consumption of health and care information
