Resources in Education ,2001-10 Teacher Induction Policy in Global Contexts Jian Wang, 2024-07-01 Teacher induction is becoming increasingly important focus of education policy developed to help beginning teachers develop professionally and stay in teaching work force as a way to meet the needs of global economy and social transformation for teaching quality and student learning in many countries Policy borrowing is a common practice in teacher induction across different countries Such a policy borrowing allow policymakers in particular countries to access different options and choices in their policy development instead of trial and error However it is often done without a careful policy analysis as its base especially the analysis that focuses on the problems the borrowed policy intends to solve social political and educational contexts in which it develops explicit and implicit conceptual assumptions underlying it its implementation and associated challenges and its intended and unintended impacts Without such an analysis as its base the implementations of policy

borrowed from other countries can cause unnecessary financial human resource and emotional costs in its context even if the policy proves to be successful in the other place. This book serves for such needs of policy analysis in the field of teacher induction. It starts with the book editor's overview of the book and its intention. Then there are 16 chapters, each is written by a distinguished scholar or a policy analyst from a particular country that analyzes the focuses, contexts, assumptions, implementation challenges, and consequences of a specific teacher induction policy developed in their home country and then raise important research questions emerging from their analysis. The book is expected to attract readers including scholars, policy makers, practitioners, and graduate students in different countries who have interests in teacher induction research policy and practice. **The Wiley Handbook of Action Research in Education** Craig A. Mertler, 2019-03-26

Comprehensive overview of the theoretical, conceptual, and applied practical presentations of action research as it is found and conducted solely in educational settings. The Wiley Handbook of Action Research in Education is the first book to offer theoretical, conceptual, and applied practical presentations of action research as it is found and conducted solely in educational settings. Covering primarily PK-12 educational settings, the book utilizes a cross section of international authors and presentations to provide global perspectives on action research in education. Part I of The Wiley Handbook of Action Research in Education focuses on various foundational aspects and issues related to action research. Part II is centered on chapters that present theories and principles that help to guide the use of action research in educational contexts. Part III focuses on specific applications of educational action research in practice. Part IV provides an outlet for seven educational practitioners to share their experiences in conducting action research. Each of these authors also discusses the importance and value that action research has had on him or her both professionally and personally. Discuss action research in PK-12 as well as in higher education settings. The first book to focus on the importance and application of action research exclusively in educational settings. Offers world perspectives on action research in education. Written by a team of international scholars. The Wiley Handbook of Action Research in Education is an excellent book for advanced undergraduate students, graduate students, and scholars studying and/or researching educational action research. Conducting Behavioral and Social-Emotional Assessments in MTSS Nathaniel von der Embse, Katie Eklund, Stephen Kilgus, 2022-01-31. Conducting Behavioral and Social-Emotional Assessments in MTSS. Screen to Intervene offers effective assessment strategies for improving mental and behavioral health decision making within multi-tiered systems of support. Accessible to school psychologists, behavior analysts, PBIS team leaders, and other school-based professionals, this applied book features evidence-based practices and case study examples to show how assessment data can drive prevention and intervention services, particularly at Tiers 1 and 2. Specific tools and recommendations for universal screening, problem analysis, and progress monitoring procedures offer a fresh, real-world approach to data-driven implementation of supports across schools.
