students and for teachers of secondary education who wish to introduce their students to the great books of Western civilization the best that has been thought and said in Matthew Arnold's famous phrase The choice of great books is appropriate balanced and coherent each book illuminating an important facet of Roman thought and culture and embodying the moral wisdom of the Greek mind The course covers Livy's Early History of Rome and War with Hannibal Sallust's Conspiracy of Catiline Cicero's Attack on an Enemy of Freedom and Attack on Misgovernment Tacitus The Annals of Imperial Rome Virgil's The Aeneid Ovid's Metamorphoses Marcus Aurelius Meditations Early Christian Writings St Augustine's Confessions and City of God Plautus The Brothers Menaechmi Terence's The Brothers a rich banquet for the mind that integrates history literature and philosophy for a beginning humanities student Comprised of brief but substantive introductions to the authors and to the works the book then poses simple but penetrating questions about each chapter or major part of the book It also presents probing questions for further reflection and discussion For example the questions at the end of a chapter test simple reading comprehension What virtue did Scipio pride himself in What did Scipio do the day after taking New Carthage The Questions for Further Thought are contemplative and thought provoking What was the significance of the names Trebia Trasimene and Cannae and Do modern people have the staying power to remain at war for such protracted periods as we saw in the study of Ancient Rome Why The Teacher's Guide of course offers the answers to the factual questions but it provides special insights to address the Questions for Further Thought Why did Turnus lament his escape from death To these ancient warriors death in battle was a guarantee that their memory would be honored They were concerned about that legacy and preferred that to an escape from death which carried no respect The questions and answers are always lucid straightforward and penetrating The other features of the book that make it a valuable resource are the maps illustrations vocabulary and explanation of technical terms The map of Hannibal's route a diagram of the Roman theater and the Words to Know at the end of each chapter e.g. pillory scruples desultory cognomen all broaden the mind and provide breadth and depth to the course In short these two volumes provide a bone fide traditional classical liberal arts education that introduces students to the reality of philosophical or universal truth to the unchanging natural moral law that explains the nature of tragedy and the events of history and to the Romans' passionate love of knowledge and desire for glory It transmits to students the patrimony of Roman civilization the culture that discerned the difference between living and living well between being civilized and being barbaric For students to know these perennial truths about human nature and the human condition is the beginning of wisdom the goal of all true education

The Story of the Romans H. A. Guerber,2020-05-30 From the earliest hill tribes to the cultural peak of the Pax Romana and finally to the Western Empire s chaotic decline H A Guerber s history of Rome is superb for young readers The legends that accompanied the founding of the Roman Republic were part of the popular consciousness the twin boys Romulus and Remus raised by a wolf going on to found Rome First ruled by kings Rome transitioned to a republic with a ruling Senate and offices The author mixes legend with the known facts of the era that Italy was divided into tribes such as the Etruscans and the Latins The feuds between these groups were gradually consigned to the past as all of Italy united under a single Roman culture Yet there were threats to the young nation to the South across the Meditteranean Sea was the prosperous Carthage To the north were the Gallic tribes Overcoming these established Rome as the strongest power of Europe However political infighting led to the end of the Republic s government beginning with Augustus Rome was an Empire with very much political power concentrated in the hands of the Emperor In this illustrated and well written history H A Guerber successfully summarizes the feats and accomplishments of classical Rome

Stories From the History of Rome (Classic Reprint) Mrs. Beesly,2015-08-08 Excerpt from Stories From the History of Rome The writer of this little book was not satisfied that her children should hear nothing but fairy tales and the stories of nursery life now so popular But she could find nothing else fit to read to them There are indeed plenty of story books drawing their materials from history and professing to be intended for children But they are not suited to very young children They abound in words and ideas which a child of four or six years old

not only does not understand but cannot be made to understand The writer however believed that it was quite possible to put portions of Livy and Plutarch into language which should need little or no explanation even to children of that age She accordingly made the experiment One story after another was written and read to her little boys Whenever she discovered that a word or idea was unintelligible to them she took pains to simplify it She found that they thoroughly enjoyed these old tales from Roman history and liked to hear them repeated again and again About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The City of the Seven Hills Caroline Hirst Harding, 2015-06-15 Excerpt from The City of the Seven Hills A Book of Stories From the History of Ancient Rome In this volume the attempt has been made to give a picture of the life and history of the Roman people So far as it has been feasible this has been done by means of biographical sketches selected so as to be illustrative of the Roman character its virtues and its faults In this way it has also been possible to weave into the narrative a more vivid description of the daily life and customs of the men women and children of Rome than would have been the case under any other method of treatment In the last chapter an attempt is made to relate the old Rome to modern life through a description of some existing remains and to point out in a few words the way in which the ancient city was merged in the Rome of to day In a work designed for young children as is this one it seems desirable that the brutal element of Roman character and history should be eliminated so far as is possible and to this end much has been omitted from the narrative which might properly find a place in a history of Rome for High School use About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
