

A photograph of a dirt road winding through a forest. The trees on either side have autumn-colored foliage in shades of orange, yellow, and brown. The road leads towards a bright light at the end of the path, creating a strong perspective. The overall mood is contemplative and serene.

Para Bellum Prepare For War

Dario Battistella

Para Bellum Prepare For War:

Para Bellum Paul Simanaukas, 2009-12-08 Mankind has waged war throughout the ages Gary Bronski loathes war as much as he loathes himself As the end draws near choices must be made which will impact every living soul on the planet Gary must face his fears face his enemies and prepare for war The Gospel of War, If You Want Peace Prepare for War. From Ambassadors of Conflict to Messengers Aware of Peace Davide Appi, 2023-02-17 The Gospel of War if you want Peace prepare for war From ambassadors of conflict to messengers aware of peace True Peace is not only the absence of war but also of all the emotional negativity of the human being Harmony and serenity already dwell in us as well as truth and positive qualities it is only necessary to hear again to listen in silence and all the most precious inner treasures will blossom in unison The actual armed confrontation is only the visible tip of the iceberg a striking aspect of the war the one that moves the minds that suddenly rise from the sofa and say Putin is a criminal it is not acceptable to invade a foreign country and make massacres of innocent women and children But these people need to understand that the tanks that invade a country is just the final act of something that is being prepared day by day starting from our consciousnesses the war is a social structure a way by which we have organized the entire society because education itself is separating and teaches conflict So the war has become a philosophical spiritual psychological social cultural and economic structure born of our own consciousness of our false self that feels separated from itself from others and this is the feeling of division that is the source of war To be pacifist does not mean to go to the streets to protest against the war or to be indignant before the television for the criminal invasion perpetrated by the despotic of the moment but to work on ourselves to dissolve that nature of conflict that we already have inside that we express in our daily lives when we clash with the people around us and show aggression towards those who attack us True Peace is first of all a journey within us in search of all those stimuli in most cases unconscious that make us react aggressively when we feel attacked It s a huge but essential work we should base a new education on this key of inner pacification that further on will transmits outside as well Can we change the fate of our destiny Currently the world we live in seems to be addicted to violence and like the worst addict it requires stupidly unconsciously and automatically its dose of cruelty of arrogance of malevolence and the drug system itself is not interested in the destructive consequences of these behaviors for him the priority is to appease his addiction But war is a self destructive choice born from a sick conscience incapable of understanding itself and its own models of functioning Faced with this situation the pacifists seem to be silenced unable to respond to the completely rational and logical discourses of those who preach let us take up arms to defend ourselves or If you want peace prepare the war It seems more than ever to be back in fashion the famous Let s arm ourselves and go while the patriotic heroism regains strength as in the good times But now let s ask ourselves carefully It s truly like this Must we convert to the logic of violence brush up from the museum of prehistory the eye for an eye tooth for a tooth of Mosaic memory Can we ever live in a peaceful world What can we do against the war **Banzai! by Parabellum** Ferdinand

Heinrich Grautoff,2022-09-16 In *Banzai* by Parabellum Ferdinand Heinrich Grautoff expertly navigates the tumultuous landscapes of war and human resilience through an evocative narrative that blends vivid imagery with a stream of consciousness style Set against the backdrop of World War II the book juxtaposes the chaos of combat with intimate depictions of soldiers inner lives allowing readers to immerse themselves in both external conflict and internal turmoil Grautoff s use of fragmented prose reflects the disorientation of war while his keen historical insight offers a poignant commentary on the moral complexities faced by individuals in dire circumstances Ferdinand Heinrich Grautoff a seasoned historian and war veteran draws upon his own experiences and extensive research to infuse authentic emotional depth into this narrative His background provides a unique perspective that informs the multifaceted characters in the book showcasing humanity s capacity for courage and folly amidst devastating strife Grautoff s literary influences drawn from existentialist thought and postmodernism enrich the text with philosophical layers that provoke reflection on the nature of conflict and identity Readers seeking a profound exploration of the human experience during wartime will find *Banzai* by Parabellum a compelling addition to contemporary literature Grautoff s masterful storytelling and historical authenticity invite audiences to grapple with the weight of history making it a must read for those interested in the blurred lines between heroism and survival

Why War Simon Stander,2015-08-27 This groundbreaking survey explains why war remains predominant in today s world by showing how the spread of nationalism and capitalism has brought about modern warfare It argues that the key explanation for modern conflict which is characterized by violent conflicts between nation states civil war and wars over resources rests in the dialectical relationship between nation states and capitalist modes of production where nations have finite boundaries that capitalism seek to transcend in search of increased profits Discussing issues such as globalization global capitalism North and Latin American continental policies the nature of democracy decolonization and technology and military industrial complexes this unique work challenges common approaches to international relations and peace studies This innovative accessible work provides new insights into the causes and nature of modern war that will appeal to any student concerned with peace and violent conflict within the various fields of international relations political economy peace studies and more

Reflections on war and death Sigmund Freud,1918

American Resolve and the Art of War John Proctor,2012-09-28 Since the end of World War II Americans realized that the only way to keep America out of war is to keep the world out of war Americans also realize that today their country is the leader of the Western World if not the whole world The leadership role was thrust upon the United States when its traditional allies are weak Thus all decisions made by the United States must also be implemented by the United States A Chinese general said Ultimate excellence lies not in winning every battle but defeating the enemy without ever fighting This should be Americas goal but it seems that this can only be achieved with a large standing army However there is an alternative This goal can be achieved with a strong disciplined reserve force which will cost only a fraction of a large standing army The reserve force should be trained to implement skillful and innovative tactics Excellent training will also accomplish another significant goal minimize American casualties

Operation Desert Storm The two wars were radically different Whereas Operation Desert Storm had been launched with the hope that a new world order might emerge Operation Iraqi Freedom signified the return of an imperial America unilaterally resorting to preventive warfare representative of a Hobbesian conception of international politics Why did the promise of a privileged resort to peaceful inter state conflict resolution implied during the first Gulf War give way to the explicit triumph of the might is right principle during the second Gulf War Is the shift in America s foreign behaviour but a mere parenthesis or potentially the first stage of a long term process likely to undermine the currently prevailing Lockean anarchy This book aims to answer some of these questions *The War-method and the Peace-method* William Isaac Hull,1929 Documents of Russian History, 1914-1917 Frank Alfred Golder,1927 Conversations on War and General Culture Sir Arthur Helps,1871 **Conversations on war and general culture** By the author of "Friends in council",2023-02-21 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost *Conversation on War and General Culture* Anonymous,2022-12-05 Reprint of the original first published in 1871 Conversations on War and General Culture Anonymous,2022-11-10 Reprint of the original first published in 1871
