America's Greatest "Light Six" is also AMERICA'S GREATEST HILL CLIMBER. It will go anywhere.

Not only will it climb the steepest and most terrifying hills, but it will pull you out of the ditch, out of sand and mud—and give you the satisfaction of lending a hand to the less fortunate fellow who doesn't drive a Haynes.

No car will do as much for you as the Haynes. It's the car for owners. See it. Observe its beautiful lines, its fine finish. Compare its performance on the hills, in the get-away, in flexibility—one-to-sixty-miles-per-hour-on-high. Compare upkeep figures—and Haynes superiority will stand out so strongly, that it will win your decision by a big margin.

Why this wonderful hill climbing prowess? Because the Haynes has more than the average amount of power combined with less than the average weight.

In addition to its wonderful performance on the hills, the Haynes gets the jump on other cars in the get-away—it throttles down to less than a mile per hour on "high gear"—speeds up to 60 or 65 miles per hour and holds the road yet perfect balance and light weight hold upkeep down to a record-breaking minimum.
