Handing Down the Faith Christian Smith, Amy Adamczyk, 2021 This book is about how American religious parents approach the handing on of their religious practices and beliefs to their children We know a lot about the importance of parents in faith transmission and factors that influence its effectiveness But we know much less about the actual beliefs feelings and activities of the parents themselves when it comes to the intergenerational transmission of religious faith and practice

A Manual for Creating Atheists Peter Boghossian, 2014-07-01 For thousands of years the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another Indeed the faithful often view converting others as an obligation of their faith and are trained from an early age to spread their unique brand of religion The result is a world broken in large part by unquestioned faith As an urgently needed counter to this tried and true tradition of religious evangelism *A Manual for Creating Atheists* offers the first ever guide not for talking people into faith but for talking them out of it Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality cast doubt on their religious beliefs mistrust their faith abandon superstition and irrationality and ultimately embrace reason

The Rise and Fall of Faith Drew Bekius, 2017-07-01 The story of religion in the twenty first century West has been defined in part by the stories of once zealous pastors moving beyond their faith to embrace a life of reason But too often and too quickly ardent believers dismiss such accounts as aberrations and fail to consider the real life implications for those who make this transition Atheists and other skeptics meanwhile struggle to understand what took these individuals so long to make such a journey and why others aren't lining up more quickly to do the same As a result the questions posed by one side inevitably mirror those asked by the other Why do believers trust in God the way they do But what factors lead atheists to dismiss religious beliefs so easily How can believers have faith in the face of known science and history But what

allows anyone to be so sure their beliefs are based in reality What would it take for believers to stop believing in God But what would it take for nonbelievers to start to believe Drawing on the author s own story as a former evangelical pastor powerless to stop his turn to atheism *The Rise and Fall of Faith* touches on these and other questions inviting readers into a long overdue conversation between Christians and atheists While the aim of the book is to initiate this much needed discussion the author encourages all who care about the future of humanity to carry the dialogue forward whether in the evaluation of our own inner thoughts in the assumptions we make about the other side or in how we work together in the pursuit of understanding and common ground as we navigate the world s ever changing and increasingly challenging religious and cultural landscape
