Journal of the parliaments of the Commonwealth ,2006 **Global Equity in Administration** Susan Gooden, 2020-07-14 Governments around the world face the challenge of espousing principles of fairness but practicing inequity in their administration Issues of equity and justice are fundamental concerns of government and thus to public administrators who constantly struggle to evaluate a country s social climate and ensure equity in governance Such evaluation is unlikely to occur in a serious way however if government actors are fundamentally too uncomfortable to directly engage the topic The result this book argues is a context of nervousness which unless squarely acknowledged and addressed can become debilitating and thwart progress toward achieving social equity This volume explores and expands our understanding of the concept of nervousness in the administration of government services around the world demonstrating the ways in which such an emotional and physical reaction can debilitate government actions that are needed to promote social equity and justice Each of the chapters in this edited volume focuses on a single country and examines a specific nervous area of government highlighting important historical and political considerations as well as specific evidence of promising progress It considers the complexity of nervous areas of governments around the world while identifying encouraging approaches and initiatives **Global Equity in Administration** is required reading for all practicing and aspiring public servants concerned with fair and equitable provision of public services around the world **Responding to Globalization** Selvaraj Velayutham, 2007 Investigates the Singapore Government s approach to the construction of national identity This book focuses on the global national nexus the tensions between the necessity to embrace the global to ensure economic survival yet needing a committed population to support the perpetuation of the nation state and its economic success *Parliamentary Practices* ,2011 **Globalization, Development and The State** Jørgen Dige Pedersen, 2008-08-01 In its comparison of two major emerging nations India and Brazil this book approaches the subject

through an innovative theoretical combination of developmental states theory and theories of the changing nature of global capitalism

Globalisation, Poverty and Conflict Max Spoor, 2005-12-29 Is development pass Is it merely a by product or a trickle down effect of economic growth spurred by globalisation Will poverty simply diminish with increased global markets This state of the art critical development reader deals with these and related questions Globalisation Poverty and Conflict examines the inter relationships between globalisation poverty and conflict It complements current debates in the field of development studies and in an era in which development fatigue seems to have become more profound than ever before it brings the importance of development once again to the forefront Achieving the Millennium Development Goals by 2015 is a concrete target which many governments have agreed to work towards Whether these goals can be realised is another issue Nonetheless the Millennium Development Goals have brought more focused attention to development in the past few years and renewed debate about the relationships between the process of globalisation and widespread poverty and the emergence of violent conflicts The authors in this edited volume discuss these inter related and highly controversial topical elements of development in a number of chapters organised around three sets of issues 1 globalisation inequality and poverty 2 governance civil society and poverty and 3 resource degradation institutions and conflict The contributions represent current thinking on and practice of development policy poverty reduction the need for multi level democratic institutions and the containing and prevention of conflicts The authors confront the predominant mainstream ideas on development and propose alternatives The chapters written by a select group of scholars and development practitioners will be of direct interest to those involved in this field of social sciences and in development practice but they are composed in such a way as to remain accessible for the generally interested reader
