Grossman, Steven Walfish, PhD, 2013-11-15 It is refreshing to see both a researcher's and a clinician's viewpoint. The case examples in the clinician sections are great learning tools. This is a wonderful reference for both new therapists and seasoned veterans. Researchers also will learn how clinicians use theories in the real world. Score 92 4 Stars Doody's Medical Reviews. The format whereby the evidence for efficacy of psychological interventions for the problem in question is reviewed by an expert followed by a clinician presenting a case where these treatments were actually utilized and the real life problems one runs up against in the course of treatment is innovative enough. But then to repeat this for 65 different problems in a manageable and succinct format represents a true integration of science and practice in a way that will move us forward.
