Child Rights Clark Butler, 2012-06-15 Over twenty years after the 1989 UN General Assembly vote to open the Convention on the Rights of the Child CRC for signature and ratification by UN member states the United States remains one of only two UN members not to have ratified it The other is Somalia Child Rights The Movement International Law and Opposition explores the reasons for this resistance It details the objections that have arisen to accepting this legally binding international instrument which presupposes indivisible universal civil political economic social and cultural rights and gives children special protection due to their vulnerability The resistance ranges from isolationist attitudes toward international law and concerns over the fiscal impact of implementation to the value attached to education in a faith tradition and fears about the academic deterioration of public education The contributors to the book reveal the significant positive influence that the CRC has had despite not being ratified on subjects such as educational research child psychology development ethics normative ethics and anthropology The book also explores the growing homeschooling trend which is often evangelically led in the US but which is at loggerheads with an equally growing social science based movement of experts and ethicists pressing for greater autonomy and freedom of expression for children Looking beyond the US the book also addresses some of the practical obstacles that have emerged to implementing the CRC in both developed countries for example Canada and the United Kingdom and in poorer nations This book polemical and yet balanced helps the reader evaluate both positive and the negative implications of this influential piece of international legislation from a variety of ethical legal and social science perspectives

Terror in the Land of the Holy Spirit Virginia Garrard-Burnett, Virginia Garrard, 2010-01-15 Between 1982 and 1983 in the name of anti communism the military government of Guatemala prosecuted a scorched earth campaign of terror against largely Mayan rural communities Under the leadership of General Efraín Ríos Montt tens of thousands of people perished in what is now known as la violencia or the Mayan holocaust Ríos Montt Guatemala's president by coup was and is an outspokenly born again Pentecostal Christian a fact that would seem to be at odds with the atrocities that took place on his watch Virginia Garrard Burnett's book is the first in English to view the Ríos Montt era through the lens of history Drawing on newly available primary sources such as guerrilla documents evangelical pamphlets speech transcripts and declassified US government records she is able to provide a fine grained picture of what happened during Ríos Montt's rule Looking back over Guatemalan history between 1954 and the late 1970s she finds that three decades of war engendered an ideology of violence that cut across class cultures communities religions and even families Many Guatemalans converted to Pentecostalism during this period she says because of the affinity between these churches apocalyptic message and the violence of their everyday reality Examining the role of outside players and observers The US government evangelical groups and the media she contends that self interest willful

ignorance and distraction permitted the human rights tragedies within Guatemala to take place without challenge from the outside world

What War? Laurie E. Levinger, 2011-08-05 In 2004 Laurie Levinger left her home in Vermont for Guatemala where she planned to teach English to Maya university students But on the first day of class Levinger became the student instead of the teacher when a young man named Fernando introduced himself by saying My father was killed when I was four months old I am a survivor of the Guatemala civil war Shocked Levinger's first thought was What war Beginning in 1960 fighting between the Guatemalan military and guerrilla fighters raged across this Central American country By 1980 this violence which began with a CIA backed coup and efforts by the United Fruit Company to protect its financial interests turned into the massacre of Maya people in every corner of Guatemala By the time peace accords were signed in 1996 over two hundred thousand Maya people had been murdered disappeared or forced into exile by their own government Levinger's students had been young children when these atrocities were committed Many lost their parents Many had relatives who disappeared All had suffered the loss of their culture their family ties their sense of safety their personal identities As a clinical social worker Levinger believes in the importance of bearing witness of speaking the unspeakable out loud After her initial trip she returned to Guatemala this time with a tape recorder and a mission to record the testimonies of her students to document their enduring love for their Maya culture and to honor their unflagging search for truth In *What War* Levinger brings us stories told in the spare and eloquent language of truth tellers reminding us all that the true cost of war is borne by the survivors And so is the hope for peace
