Partition Of Palestine World Focus:

World Focus ,2005 *Partitioning Palestine* Penny Sinanoglou,2019-11-22 Partitioning Palestine is the first history of the ideological and political forces that led to the idea of partition that is a division of territory and sovereignty in British mandate Palestine in the first half of the twentieth century Inverting the spate of narratives that focus on how the idea contributed to or hindered the development of future Israeli and Palestinian states Penny Sinanoglou asks instead what drove and constrained British policymaking around partition and why partition was simultaneously so appealing to British policymakers yet ultimately proved so difficult for them to enact Taking a broad view not only of local and regional factors but also of Palestine s place in the British empire and its status as a League of Nations mandate Sinanoglou deftly recasts the story of partition in Palestine as a struggle to maintain imperial control After all British partition plans imagined space both for a Zionist state indebted to Britain and for continued British control over key geostrategic assets depending in large part on the forced movement of Arab populations With her detailed look at the development of the idea of partition from its origins in the 1920s Sinanoglou makes a bold contribution to our understanding of the complex interplay between internationalism and imperialism at the end of the British empire and reveals the legacies of British partitionist thinking in the broader history of decolonization in the modern Middle East *Partitions and Their Afterlives* Radhika

Mohanram,Anindya Raychaudhuri,2019-06-28 How can we theorise partitions differently How are new identities moralities politics and life constructed post partition How are gender and sexuality recalibrated after partition How can violence be theorised What is the relationship between identity in the diaspora and identity after partition What is the relationship between the movement of capital and national borders that is the mark of partition Partitions and their Afterlives engages with political partitions and how their aftermath affects the contemporary life of nations and their citizens Using a comparative perspective the essays seek to stretch our understanding of these conflicts and to show how elements of our day to day lives have been shaped by them In juxtaposing the various partitions in a single volume the book contributes to debates on citizenship collective memory nation building and borders and boundaries Such a focus also reveals how local communities as well as nations use their knowledge of the past and history This ground breaking multi disciplinary and multi region volume will analyse the various convergences and departures between the different partitions and draw out lessons for the present In so doing this work will also examine methodological challenges and the imperatives for scholars working on individual countries **The Case for Zionism** Thomas Ice,2017-02-20 The modern state of Israel has been a nation for almost 70 years When she was formed and fought her early wars of existence most Bible believing Christians believed there was a real connection with what was going on in the Middle East and Bible prophecy that predicts an end time return of the Jews to their land While support for Israel remains high in most evangelical communities we are seeing the beginning of a decline especially among younger evangelicals who question whether modern Israel really relates to end time Bible prophecy

The Case for Zionism attempts to bring together biblical historical and legal arguments for the legitimacy of the startup nation known as Israel as it Explains controversies such as antisemitism and Replacement Theology Details the biblical and legal rights of Modern Israel Explores the prophetic nature and future of Israel In this presentation Thomas Ice answers many of the contemporary arguments being used by both secular and religious communities to undermine what he believes is the hand of God at work in our own day Partitioning Palestine John Strawson,2010-04-09 Law lies at the roots of the Palestinian Israeli conflict Jews sought a national home by Public Law while Palestinians reject the project as illegal Britain the League of Nations and the United Nations all mobilised international law to justify their interventions After the 1967 war Israel organised an occupation with excessive legalism that most of the world viewed in fact as illegal Partitioning Palestine focuses on three key moments in the Palestinian Israeli conflict the League of Nations Mandate the United Nations partition plan and the Oslo agreements None of these documents are neutral but rather encode a variety of meanings The book traces the way in which these legal narratives have both shaped national identity and sharpened the conflict In this pioneering text John Strawson argues that a committed attachment to the belief in legal justice has hampered the search for a settlement Law far from offering conflict resolution has reinforced the trenches from which Palestinians and Israelis confront one another **Global Compassion** Rachel M. McCleary,2009-07-02 Aid organizations like Oxfam CARE World Vision and Catholic Relief Services are known the world over However little is known about the relationship between these private voluntary organizations PVOs and the federal government and how truly influential these organizations can be in the realm of foreign policy Indeed since the end of the Second World War humanitarian aid has become a key component of U S foreign policy and has grown steadily ever since This history of interaction deflates the common claim that PVOs have been independent from the federal government and that this independence has only recently been threatened Global Compassion is the first truly comprehensive study of PVOs and their complex often fraught interaction with the federal government Rachel McCleary provides an ambitious analysis of the relationship between the two from 1939 to 2005 The book focuses on the work of PVOs from a foreign policy perspective revealing how federal political pressures shape the field of international relief McCleary draws on a new and one of a kind data set on the revenue of private voluntary agencies employing annual reports State Department documents and I R S records to assess the extent to which international relief and development work is becoming a commercial activity She outlines the increasing financial dependence of these organizations on the federal government and the consequences of that dependency for various types of agencies as well as the often competing goals of the federal government and religious PVOs As a result there is a continuing trend of decreasing federal funds to PVOs and of simultaneously increasing awards to commercial enterprises Focusing on the interplay between public and private revenue the discussion ends with the commercialization of foreign aid and the factors most likely to influence the future of PVOs in international relief and development In this thought provoking and rigorously researched work Rachel

McCleary offers a unique substantive look at an understudied area of U S foreign policy and international development and provides a crucial analysis of what this relationship holds for the future *The Musharraf Factor* Abid Ullah Jan,2005

scholars of Middle East politics and international relations present comprehensive coverage of the international politics of the Middle East a region at the forefront of international attention **Mapping Partition** Hannah Fitzpatrick,2024-03-26 MAPPING PARTITION A hugely productive partnership between geography and history Mapping Partition does a great service to the field of Partition studies it leaves us in no doubt about both the long term cartographical processes that contributed to how South Asia was divided in 1947 and the importance of bringing a geographer s insights to bear on this complex history of boundary making Professor Sarah Ansari Professor of History South Asia Royal Holloway University of

London Fitzpatrick produces spatial readings of partition's knowledge formations geopolitical imaginaries administrative cartography and legal geographical expertise These enrich the histories and geographies of partition through painstaking archival textual and visual analysis which will resonate far beyond historical geography and South Asian studies Professor Stephen Legg Professor of Historical Geography University of Nottingham Mapping Partition delivers the first in depth geographical account of the partition of India and Pakistan in 1947 The book explores the impact of colonial geography and geographers on the boundary both during the partition process and in the period preceding it Drawing on extensive archival research Hannah Fitzpatrick argues that colonial geographical knowledge underpinned the partition process in heretofore unacknowledged ways The author also discusses the consequences of placing different ethnic communal and linguistic groups onto the colonial map and the growing importance of majority and minority populations in representative democratic politics Mapping Partition Politics Territory and the End of Empire in India and Pakistan is required reading for students and researchers studying geography colonial and imperial history South Asian studies and interdisciplinary border studies

The Middle East In Global Perspective Judith Kipper, Harold Saunders, 2019-06-19 Well before events in the Soviet Union and Eastern Europe dramatized the rapidity with which a new political world is evolving and before the Gulf War sharpened the focus on the Middle East agenda scholars and policymakers alike were searching for different concepts for addressing the intractable problems facing the Middle East Even though the re *Geographies of Liberation* Alex Lubin, 2014-02-01 In this absorbing transnational history Alex Lubin reveals the vital connections between African American political thought and the people and nations of the Middle East Spanning the 1850s through the present and set against a backdrop of major political and cultural shifts around the world the book demonstrates how international geopolitics including the ascendance of liberal internationalism established the conditions within which blacks imagined their freedom and conversely the ways in which various Middle Eastern groups have understood and used the African American freedom struggle to shape their own political movements Lubin extends the framework of the black freedom struggle beyond the familiar geographies of the Atlantic world and sheds new light on the linked political social and intellectual imaginings of African Americans Palestinians Arabs and Israeli Jews This history of intellectual exchange Lubin argues has forged political connections that extend beyond national and racial boundaries

The breakup of India and Palestine Victor Kattan, Amit Ranjan, 2023-08-15 This book is the first study of political and legal thinking about the partitions of India and Palestine in 1947 The chapters in the volume authored by leading scholars of partition draw attention to the pathways of peoples geographic spaces colonial policies laws and institutions that connect them from the vantage point of those most engaged by the process political actors party activists jurists diplomats philosophers and international representatives from the Middle East South Asia and beyond Additionally the volume investigates some of the underlying causes of partition in both places such as the hardening of religious fault lines majoritarian politics and the failure to construct viable forms of government in
