Handbook of Product and Service Development in Communication and Information Technology Timo O. Korhonen, Antti Ainamo, 2007-05-08. Have you ever considered how to efficiently organize and manage the multiple parallel development projects of ICT? How to systematically channel your team's creativity to high quality products and services? How your company can best benefit from university research? What are the meaning and realization of quality systems in modern ICT organizations and processes? How to design user interfaces to maximize product usability and market value? How to maximize the benefits of Internet in your product development and marketing? What are the roles and important practices of patenting and licensing in the US and Europe? This book aims to give you a top-down treatment in these and many other important topics of ICT product and service development. Our primary objective is to provide you with an eagle-eye view both in theory and in practice and to trace the state-of-the-art development. Book authors come both from universities and industry, giving thus a theory and practice balancing touch for the material.

Digital Material Ann-Sophie Lehmann, Joost Raessens, Mirko Tobias Schäfer, Marianne Boomen, 2025-10-01. Three decades of societal and cultural alignment of new media have yielded a host of innovations, trials, and problems accompanied by versatile popular and academic discourse. New Media Studies crystallized internationally into an established academic discipline, and this begs the question: where do we stand now? Which new questions are emerging now that new media are being taken for granted and which riddles are still unsolved? Is contemporary digital culture indeed all about you, the

participating user or do we still not really understand the digital machinery and how this constitutes us as you The contributors to the present book all employed in teaching and researching new media and digital culture assembled their digital material into an anthology covering issues ranging from desktop metaphors to Web 2.0 ecosystems from touch screens to blogging and e learning from role playing games and cybergothic music to wireless dreams Together the contributions provide a showcase of current research in the field from what may be called a digital materialist perspective A compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society
