literature of the era under scrutiny was not simply reacting to new theories of time in some cases it is actually inspiring and anticipating them Thus Literature and Modern Time promises to offer a genuine dialogue between literature and time theory and in doing so will uncover and examine influences and connections sometimes unexpected between philosophers and writers of the era It will examine literary attempts to transcend and escape time and also challenge rupture based accounts of modernist time by demonstrating that literary texts commonly associated with brokenness decline or stasis also at the same time maintain faith in healing renewal and mobility This collection contains interdisciplinary research of the quite highest kind to see so many different kinds of time narrative historical mechanical subjective non linear time myth and nostalgia as well as time space discussed here is very stimulating indeed Professor Simon James
