describes and analyzes the changes that have profoundly altered the character of Sinhala religion in both areas      The Self Possessed Frederick M. Smith, 2006-12-05 The Self Possessed is a multifaceted diachronic study reconsidering the very nature of religion in South Asia the culmination of years of intensive research Frederick M Smith proposes that positive oracular or ecstatic possession is the most common form of spiritual expression in India and that it has been linguistically distinguished from negative disease producing possession for thousands of years In South Asia possession has always been broader and more diverse than in the West where it has been almost entirely characterized as demonic At best spirit possession has been regarded as a medically treatable psychological ailment and at worst as a condition that requires exorcism or punishment In South and East Asia ecstatic or oracular possession has been widely practiced throughout history occupying a position of respect in early and recent Hinduism and in certain forms of Buddhism Smith analyzes Indic literature from all ages the earliest Vedic texts the Mahabharata Buddhist Jain Yogic Ayurvedic and Tantric texts Hindu devotional literature Sanskrit drama and narrative literature and more than a hundred ethnographies He identifies several forms of possession including festival initiatory oracular and devotional and demonstrates their multivocality within a wide range of sects and religious identities Possession is common among both men and women and is practiced by members of all social and caste strata Smith theorizes on notions of embodiment disembodiment selfhood personal identity and other key issues through the prism of possession redefining the relationship between Sanskrit and vernacular culture and between elite and popular religion Smith's study is also comparative introducing considerable material from Tibet classical China modern America and elsewhere Brilliant and persuasive The Self Possessed provides careful new translations of rare material and is the most comprehensive study in any language on this subject      Historical Dictionary of Hinduism Jeffery D. Urban, 2006-10-04 Sexuality and the occult arts have long been associated in the western imagination but it was not until the nineteenth century that a large and sophisticated body of literature on sexual magic the use of sex as a source of magical power emerged This book the first history of western sexual magic as a modern spiritual tradition places these practices in the context of the larger discourse surrounding sexuality in American and European society over the last 150 years to discover how sexual magic was transformed from a terrifying medieval nightmare of heresy and social subversion into a modern ideal of personal empowerment and social liberation Focusing on a series of key figures including American spiritualist Paschal Beverly Randolph Aleister Crowley Julius Evola Gerald Gardner and Anton LaVey Hugh Urban traces the emergence of sexual magic out of older western esoteric traditions including Gnosticism and Kabbalah which were progressively fused with recently discovered eastern traditions such as Hindu and Buddhist Tantra His study gives remarkable new insight into sexuality in the modern era specifically on issues such as the politics of birth control the classification of sexual deviance debates over homosexuality and feminism and the role of sexuality in our own new world of post modern spirituality consumer capitalism and the Internet *Encyclopaedia of Buddhism* M.
