People of the Bear Mother T. D. Austin, 2012-08 The most powerful shaman of the People of the Bear Mother invites a young woman to take her soul's great adventure by painting a new piece of animal art on the walls in the deepest chambers of the awesome Great Cave The time has come for Little Bear to make the life altering choice to overcome her fear of the terrifying old shaman and in doing so unalterably change all the lives her soul will subsequently experience even as her lion eye reappears in each lifetime to identify her avatar But before she may embark on her hero's journey she must be initiated as hunter and then as Seer through trials ordeals and the revelations of her people's mythology expressed in the art of the Cave The tale builds to an unexpected climax as one soul experiences many lifetimes in a hunting culture where being born female or male homosexual or heterosexual young or old are equally valid ways of being human Inspired by the work of Joseph Campbell and the artwork of France's 35 000 yearold Chauvet Cave the novel takes a fresh look at and is a new take on the life ways and religion of our earliest ancestors through Little Bear's encounters with shamans hunters avatars and painted caves This story reveals that the spiritual messages hidden within this magnificent incredibly ancient art are the same metaphysical beliefs of the New Age and the same universal human truths at the heart of every world religion and mystical philosophy 2011 Book Competition Finalist Awards USA Best Book Awards for New Age Fiction IBA for Chick Lit Women's Fiction IBA for Gay Lesbian Fiction

Phenomenology in a Co-creative Workplace Emiko Tsuyuki, Ichiro Yamaguchi, 2024-05-29 This book introduces phenomenology to reveal how the atmosphere and relationships in the workplace are generated and how this affects creativity In their daily work people sometimes feel that today's meeting was more exciting than expected or that everyone's motivation is down This unspoken workplace atmosphere has a significant impact on their work But has enough thought been given to how this workplace atmosphere is created Phenomenology reveals the basic structure of human relationships in the workplace Are there any general rules that govern human interaction and the nature of relationships in that workplace If these unspoken rules can be made explicit clearly felt and spoken people can work together to bring about a creative workplace in which individuals can maximize their abilities The main point of the book is that human relationships are based on a two layered structure emotional communication which is rooted in human sensitivity and centers on sensation and emotion and verbal communication which is based on shared intelligence and relies upon language and thought The invisible layer of emotional communication is always at work as the foundation of verbal communication creating what can be described as the workplace atmosphere This book offers a new perspective on promoting creativity in the workplace by unraveling the principles behind the structure of workplace atmospheres
