Discerning Vocations to the Apostolic Life, the Contemplative Life, and the Eremitic Life Marie Theresa Coombs,Francis Kelly Nemeck OMI,2018-09-25 Throughout the spiritual journey God s love engenders within every Christian

active contemplative and solitary inclinations Consequently each person wants to do some good to have a basic receptivity to God and at times to be alone with God As life unfolds God's love also calls forth within a person an overriding attraction toward one of those three orientations which in due course impels the individual toward a corresponding vocational lifestyle an apostolic life a contemplative life or an eremitic life In this book the authors identify the core features of those three vocational lifestyles In light of each vocational core they then discuss an ensemble of signs and patterns that point to an authentic calling from God This study offers wisdom and insight to those pondering the mystery of their personal vocations to those discerning their vocational direction and to spiritual directors formation personnel ecclesial leadership and Christian educators who accompany them in their quest *Monasticism in Modern Times* Isabelle Jonveaux, Stefania

Palmisano, 2016-10-14 This book presents a broad sociological perspective on the contemporary issues facing Christian monasticism Since the founding work of Max Weber the sociology of monasticism has received little attention However the field is now being revitalized by some new research Focusing on Christian monks and nuns the contributors explore continuity and discontinuity with the past in what superficially might appear a monolithic tradition Contributors speak not only about monasticism in Europe and the United States but also in Africa and Latin America a different landscape where the question of recruitment does not figure among issues considered as problematic **Meditation as Spiritual Therapy**

Matthew McWhorter, Matthew R. McWhorter, 2024 Christian persons today might seek spiritual development and ponder the benefit of mindfulness exercises but also maintain concerns if they perceive such exercises to originate from other religious traditions Such persons may not be aware of a long tradition of meditation practice in Christianity that promotes personal growth This spiritual tradition receives a careful formulation by Christian monastic authors in the twelfth century One such teaching on meditation is found in the treatise *De consideratione* written by St Bernard of Clairvaux d 1153 to Pope Eugene III d 1153 In textual passages where St Bernard exhibits a clear concern for the mental health of the Pope due to numerous ongoing ecclesial political and military problems St Bernard reminds Eugene III of his original monastic vocation and the meditation exercises associated with that vocation The advice that St Bernard gives to Eugene III can be received today in a way that provides a structure for Christian meditation practice which is relevant for personal development spiritual direction and civil psychotherapy that integrates a client's spirituality into the course of treatment St Bernard thus might be interpreted as a teacher of a kind of Christian mindfulness that can benefit both a person's mental health as well as a person's relationship with God *Meditation as Spiritual Therapy* examines the historical context of Bernard's work his purpose for writing it as well as the numerous Christian sources he drew upon to formulate his teaching Bernard's teaching on the course of meditation itself is explored in depth and in dialogue with his other treatises letters and sermons Lastly a contemporary summary of Bernard's teaching is provided with reflections concerning the relationship of this teaching to contemporary spiritual direction and spiritually integrated civil psychotherapy *The Imitation of Christ* William C. Creasy, 2015-09-15 The

Imitation of Christ has appeared in more editions and in more languages than any other book except the Bible Samuel Johnson once remarked to Bowell that it must be a good book as the world has opened its arms to receive it Others have praised it as well including Thomas Carlyle George Eliot Thomas De Quincey and Matthew Arnold Among the religious St Ignatius Loyola translated it and Pope John Paul I was said to have been reading it the night that he died It has been standard fare in religious training and personal devotion for centuries Yet today few people know the Imitation and those who do more often than not think it hopelessly out of date a pre Vatican II relic full of contempt for the world and self loathing It is a curious state of affairs and one that reveals more about a contemporary audience s response to the book than it does about the book itself When a contemporary reader encounters a line such as this is the highest wisdom through contempt of the world to aspire to the kingdom of heaven his response is a very different one from that of a fifteenth or nineteenth century reader For an informed response as Stanley Fish would say to the contemptus mundi theme the reader must draw deeply on a vast complex of literary linguistic historical and theological knowledge Creasy s translation of the Imitation strives to recreate a text that provides an analogous experience to that of the fifteenth century reader Relying heavily on reader response theory he incorporates an informed reader s response into the text itself Where possible the text echoes both the deep structure and the surface structure of the Latin even to the point of replicating sentence structures and rhetorical devices while avoiding any distortion of the reader s experience Although the language and style of his translation has been crafted for modern readers the fervor and power of the original text have not been lost Dr Creasy s work on the Imitation of Christ has become the standard translation of this spiritual classic bringing it to life for a new generation of readers
