Constructions of Space IV Mark K. George, 2013-04-11 Critical studies and analyses of space are becoming increasingly common in scholarship although it is not always clear how such studies proceed what theoretical works inform them or what are their potential benefits for biblical studies This volume helps address those questions by including the work of biblical scholars working in a range of historical periods and locations from Deuteronomy's idealized spaces to the Qumran community on the shores of the Dead Sea Each of the scholars in this volume is actively involved in the critical study of space having presented work on this topic in regional national or international meetings of the Society of Biblical Literature The essays included in this volume combine theoretical and interpretive concerns in the analysis of texts from the Hebrew Bible and the Dead Sea Scrolls Scholars in Biblical Studies Archaeology Religious Studies and Anthropology will find this to be a valuable resource for gaining new understandings of the critical study of space in antiquity **Tragedy in Ovid** Dan

Curley, 2013-07-18 Ovid is today best known for his grand epic *Metamorphoses* and elegiac works like the *Ars Amatoria* and *Heroides* Yet he also wrote a *Medea* now unfortunately lost This play kindled in him a lifelong interest in the genre of tragedy which informed his later poetry and enabled him to continue his career as a tragedian if only on the page instead of the stage This book surveys tragic characters motifs and modalities in the *Heroides* and the *Metamorphoses* In writing love letters Ovid's heroines and heroes display their suffering in an epistolary theater In telling transformation stories Ovid offers an exploded view of the traditional theater although his characters never stray too far from their dramatic origins Both works constitute an intratextual network of tragic stories that anticipate the theatrical excesses of Seneca and reflect the all encompassing spirit of Roman imperium **The Ancient Greek Hero in 24 Hours** Gregory Nagy, 2020-01-07 What does it

mean to be a hero The ancient Greeks who gave us Achilles and Odysseus had a very different understanding of the term than we do today Based on the legendary Harvard course that Gregory Nagy has taught for well over thirty years *The Ancient Greek Hero in 24 Hours* explores the roots of Western civilization and offers a masterclass in classical Greek literature We meet the epic heroes of Homer's *Iliad* and *Odyssey* but Nagy also considers the tragedies of Aeschylus Sophocles and Euripides the songs of Sappho and Pindar and the dialogues of Plato Herodotus once said that to read Homer was to be a civilized person To discover Nagy's Homer is to be twice civilized Fascinating often ingenious A valuable synthesis of research finessed over thirty years *Times Literary Supplement* Nagy exuberantly reminds his readers that heroes mortal strivers against fate against monsters and against death itself form the heart of Greek literature He brings in every variation on the Greek hero from the wily Theseus to the brawny Hercules to the monolithic Achilles to the valiantly conflicted Oedipus Steve Donoghue *Open Letters Monthly* [Picturing Experience in the Early Printed Book](#) Elizabeth Ross, 2015-06-10 Bernhard von Breydenbach's *Peregrinatio in terram sanctam* Journey to the Holy Land first published in 1486 is one of the seminal books of early printing and is especially renowned for the originality of its woodcuts In *Picturing*

Experience in the Early Printed Book Elizabeth Ross considers the Peregrinatio from a variety of perspectives to explain its value for the cultural history of the period Breydenbach a high ranking cleric in Mainz recruited the painter Erhard Reuwich of Utrecht for a religious and artistic adventure in a political hot spot a pilgrimage to research the peoples places plants and animals of the Levant The book they published after their return ambitiously engaged with the potential of the new print medium to give an account of their experience The Peregrinatio also aspired to rouse readers to a new crusade against Islam by depicting a contest in the Mediterranean between the Christian bastion of the city of Venice and the region s Muslim empires This crusading rhetoric fit neatly with the state of the printing industry in Mainz which largely subsisted as a tool for bishops consolidation of authority including selling the pope s plans to combat the Ottoman Empire Taking an artist on such an enterprise was unprecedented Reuwich set a new benchmark for technical achievement with his woodcuts notably a panorama of Venice that folds out to 1 62 meters in length and a foldout map that stretches from Damascus to Sudan around the first topographically accurate view of Jerusalem The conception and execution of the Peregrinatio show how and why early printed books constructed new means of visual representation from existing ones and how the form of a printed book emerged out of the interaction of eyewitness experience and medieval scholarship real travel and spiritual pilgrimage curiosity and fixed belief texts and images

Xenophon's Socratic Rhetoric Dustin A. Gish, 2022-11-28 In one of the most charming works to survive from classical antiquity Xenophon s Symposium depicts an amiable evening of wine entertainment and conversation shared by Socrates and a few of his associates with certain Athenian gentlemen who are gathered to honor a young man for his recent victory in the Panathenaic games The subtle playfulness which characterizes the animated discussions conceals a light hearted yet surprisingly philosophical inquiry regarding the rival claims of virtue articulated and defended by the Socratics and gentlemen to establish the praiseworthiness and excellence of their competing ways of life Gentlemanliness taken as an admired political virtue and philosophy as pursuit of wisdom and self sufficiency emerge as contested ideas about what constitutes the path to human happiness especially in response to the beautiful and its compelling arousal of erotic desire in the body and soul Offering a comprehensive account and interpretation of the Symposium this book follows the speeches and action of the dialogue through its many twists and turns from beginning to end with particular attention to the place of rhetoric in the argument of the work as a whole Thus Xenophon s Socratic

Rhetoric examines foundational aspects of the philosophic life manifest in the words as well as deeds of Socrates in this dialogue starting from an original reading of the opening scene as a harbinger of the competition in wisdom that occurs over the course of the symposium and concluding with a provocative consideration of conjugal erotics as the continuation and completion of the Socratic logos about the role of love in guiding human beings toward virtue and happiness

The Conflict of Faith and Experience in the Psalms Craig C. Broyles, 1989-03-01 In a penetrating analysis Broyles breaks open the category of the psalms of lament arguing that this conventional grouping encloses two quite different kinds of psalms Not only are there the psalms of plea which affirm the praise of God and belong theologically on the side of faith but there are a darker group the psalms of protest or complaint which depict God as absent or hostile These psalms portray the conflict between the traditions of faith and the religious experience of the psalmist The study a revision of the author's Sheffield PhD thesis thus proposes a realignment of the form critical categories in the Psalms and at the same time engages with a much neglected element in Hebrew piety the charge against God
