Off The Grid Gourmet:

Off the Grid Phillip Vannini, Jonathan Taggart, 2014-10-30 Off grid isn't a state of mind. It isn't about someone being out of touch about a place that is hard to get to or about a weekend spent offline. Off grid is the property of a building, generally a home, but sometimes even a whole town that is disconnected from the electricity and the natural gas grid. To live off grid therefore means having to radically re-invent domestic life as we know it, and this is what this book is about: individuals and families who have chosen to live in that dramatically innovative but also quite old way of life. This ethnography explores the day-to-day lives of people in each of Canada's provinces and territories living off the grid. Vannini and Taggart demonstrate how a variety of people, all with different environmental constraints, live away from contemporary civilization. The authors also raise important questions about our social future and whether off-grid living creates an environmentally and culturally sustainable lifestyle practice. These homes are experimental labs for our collective future: an intimate look into unusual contemporary domestic lives and a call to the rest of us leading ordinary lives to examine what we take for granted. This book is ideal for courses on the environment and sustainability as well as introduction to sociology and introduction to cultural anthropology courses.

Mobilizing Food Vending Ginette Wessel, 2024-12-17 Mobilizing Food Vending investigates the gourmet food truck movement in the United States and provides a clearer understanding of the social and economic factors that shape vendor autonomy and industry growth. The book features case studies in a variety of American cities and uses top-down and bottom-up urban theory to frame a discussion of food trucks, rights, displacement, and resiliency. Using ethnographic and archival research collected from industry experts, the book examines vendors' operational strategies, their regulatory challenges when navigating the city, and their economic, cultural, and political roles in shaping urban space. Mobilizing Food Vending argues that food truck vendors are critical actors that support local economies and contribute to the public realm while shaping regulatory policy from the bottom up. This book will appeal to urban scholars studying the contemporary neoliberal city, the public realm, and communication technology and mobility, as well as to urban planners seeking to understand how vendors shape city plans and policies.

Dirty Gourmet Plant Power Aimee Trudeau, Emily Nielson, Mai-Yan Katherine Kwan, 2023-06-01 Beautiful and practical guide for outdoor cooking with modern healthy plant-based recipes.
