Over Het Westers Marxisme:

Historical Materialism and Globalisation Mark Rupert, Hazel Smith, 2016-04-29 Now that Soviet style socialism has collapsed upon itself and liberal capitalism offers itself as the natural necessary and absolute condition of human social life on a worldwide scale this book insists that the potentially emancipatory resources of a renewed and perhaps reconstructed historical materialism are more relevant in today's world than ever before Rather than viewing global capitalism as an eluctable natural force these essays seek to show how a dialectic of power and resistance is at work in the contemporary global political economy producing and contesting new realities and creating conditions in which new forms of collective self determination become thinkable and materially possible It will be vital topical reading for anyone interested in international relations international political economy sociology and political theory

Theoretical Engagements in Geopolitical Economy Radhika Desai, 2015-09-22 This two part volume paves the way advancing Geopolitical Economy as a new approach to the study of international relations and international political economy They expose the theoretical limitations of the latter in Part I and the analytical limitations in Part II

Ernest Mandel Jan Willem Stutje, 2020-05-05 Ernest Mandel 1923 1995 was one of the most prominent anti Stalinist Marxist intellectuals of his time A political theorist and economist his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp Mandel's faith in human nature and in the working classes survived Nazi oppression and the murder of much of his family in the concentration camps He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of the Second World War and have been published in over forty languages His last major work Late Capitalism had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel's archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel's arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel's interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man's sometimes tragic private life

The Story of Work Jan Lucassen, 2021-07-27 The first truly global history of work an upbeat assessment from the age of the hunter gatherer to the present day We work because we have to but also because we like it from hunting gathering over 700 000 years ago to the present era of zoom meetings humans have always worked to make the world around them serve their needs Jan Lucassen provides an inclusive history of humanity's busy labor throughout the ages Spanning China India Africa the Americas and Europe Lucassen looks at the ways

in which humanity organizes work in the household the tribe the city and the state He examines how labor is split between men women and children the watershed moment of the invention of money the collective action of workers and at the impact of migration slavery and the idea of leisure From peasant farmers in the first agrarian societies to the precarious existence of today's gig workers this surprising account of both cooperation and subordination at work throws essential light on the opportunities we face today

Western Marxism and the Soviet Union Marcel van der Linden, 2007-06-30 The Russian Question was an absolutely central problem for Marxism in the twentieth century Numerous attempts were made to understand the nature of Soviet society The present book tries to portray the development of these theoretical contributions since 1917 in a coherent comprehensive appraisal It aims to present the development of the Western Marxist critique of the Soviet Union across a rather long period in history from 1917 to the present and in a large region Western Europe and North America Within this demarcation of limits in time and space an effort has been made to ensure completeness by paying attention to all Marxist analyses which in some way significantly deviated from or added to the older theories

On the Road to Global Labour History, 2017-09-18 Global Labour History is a latecomer to historical science It has only developed in the last three decades This anthology provides a comprehensive overview of the state of the art Prominent representatives of the discipline discuss its fundamental methodological and conceptual aspects In addition the volume contains field and case studies from Africa and Latin America as well as from the Middle East and China In these studies the local regional and continental constitutive processes of the working class are discussed from a global historical perspective The anthology has been composed as a Festschrift dedicated to Marcel van der Linden the leading theoretician of and networker for Global Labour History

Marxist Historical Cultures and Social Movements during the Cold War Stefan Berger, Christoph Cornelissen, 2019-08-21 This book explores the relationship between diverse social movements and Marxist historical cultures during the second half of the twentieth century in Western Europe with special emphasis on the Federal Republic of Germany and Italy During the Cold War Marxist ideas and understandings of history informed not only the traditional Communist Parties in Western Europe but also influenced a range of new social movements that emerged in the 1970s in the wake of the 1968 student rebellions The generation of 1968 was strongly influenced by neo Marxist ideas that they subsequently carried into the new social movements The volume asks how Marxist historical cultures influenced third world movements anti fascist movements the peace movement and a whole host of other new social movements that signaled a new vibrancy of civil society in Western Europe from the 1970s onwards

Power and Money Ernest Mandel, 1992 Analyses of bureaucratic power and privilege have an academic pedigree but have also long preoccupied socialists The collapse of communist rule in the Soviet Union and Eastern Europe puts to a new test the classical theories concerning the relationship between bureaucracy and class Power and Money is a timely contribution to this renewal of theory exploring the social and historical roots of bureaucracy both within the capitalist state and in workers mass

organizations Ernest Mandel draws on archival and contemporary accounts in an analysis of both capitalist administration and the ideology and practice of bureaucratic dictatorship in the communist bloc He measures the actual performance of western and eastern societies against the forecasts of Lenin and Trotsky Ludwig von Mises and Roberto Michels or the more recent reflections of Amitai Etzioni and Alvin Gouldner This lucid study challenges those theories Stalinist Weberian or social democratic which claim that an autonomous officialdom is a necessary feature of modern societies It also furnishes a perceptive account of the specific dynamics of communist and post communist society *The Formation of Labour Movements 1870-1914* Marcel van der Linden, Jurgen Rojahn, 2024-01-15 The print edition is available as a set of two volumes 9789004092761 *A Usable Collection* Jan Lucassen, Aad Blok, Huub Sanders, 2025-10-01 Established in 1935 the International Institute of Social History IISH is one of the world s leading research institutes focused on social history and holds one of the richest collections in the field This volume brings together thirty five essays in honor of the IISH s longtime director Jaap Kloosterman who built the institute into a world leader in the field **Directory of European political scientists** European Consortium for Political Research, University of Essex. Compiled and ed. by the Central Services of the ECPR, 2016-11-07 No detailed description available for Directory of European political scientists De tijd, de waarheid en de geschiedenis Piet de Rooy, 2025-05-20 Vanaf de vroegste tijden proberen mensen te begrijpen hoe hun wereld in elkaar steekt Ze ervaren de werkelijkheid in het verloop van de tijd in de afwisseling van dag en nacht in de opeenvolging van de seizoenen Maar toch is er steeds het vermoeden dat dit niet alles is dat er achter die werkelijkheid een diepere waarheid verborgen ligt En vervolgens gaan we daarnaar op zoek we bedrijven historie zoals de vader van de geschiedschrijving Herodotus het noemde Geïnspireerd door een schilderij van Francisco Goya is dit boek een zinderende zoektocht naar deze drie pijlers onder de interpretatie van onze wereld Hoe we de tijd onderwierpen aan klok en kalender om daar vervolgens onszelf aan te onderwerpen Hoe we eeuwenlang de Bijbel als de ultieme waarheid beschouwden met kettervervolging en heksenwaan als schaduwzijden daarvan Hoe we ons van de Bijbelse waarheid hebben losgemaakt en de vrijheid gebruikten om nieuwe verhalen te maken over complotten bijvoorbeeld en over spirituele krachten En ten slotte is er de geschiedenis waarin we onze collectieve herinneringen vastleggen maar ook bepalen wat we beter kunnen vergeten Gesteund door inzichten uit de evolutietheorie en de neuropsychologie wordt in *De tijd, de waarheid en de geschiedenis* een kleurrijk panorama gepresenteerd met tal van wonderlijke anekdotes en merkwaardige inzichten *Frank van der Goes, 1859-1939* Ron Blom, 2012 *Krisis en konfessie, ideologie in katholiek Nederland 1917-1933* Theodorus Albertus Maria Salemink, 1980 Geloof Slavoj Zizek, 2003-08-27 In Geloof dat van cyberspace denken tot de paradox van het westerse boeddhisme gaat legt Zizek de vooronderstellingen bloot achter de manier waarop we gewoonlijk over geloof denken met name in judaïsme en christendom **Marxism, Communism, and Western Society: Absolutism** Claus Dieter Kernig, 1972 **Marxism, Christianity, and Islam** Julian Roche, 2024-02-20 Roger Garaudy was for many years at the centre of the French Communist

Party but was eventually expelled for his liberal views In the Seventies he strove to bring Marxism and Christianity together to include all humanity in a project to set all people free What emerges from Garaudy s project is a very modern Marxism with its emphasis on the individual its ecological politics and in its insistence on religion as central to human emancipation Although Garaudy himself became frustrated by the failure of Marxism and converted to Islam eventually resulting in his work being discredited in the West it is certainly possible that Garaudy s project represents a good perhaps even the best starting point for Marxism in today s world
