## **Pakistan Terrorism Ground Zero:**

**Pakistan** Rohan Gunaratna, Khuram Iqbal, 2012-01-01 As made abundantly clear in the classified documents recently made public by WikiLeaks Pakistan is the keystone in the international fight against terrorism today After the US led coalition targeted terrorist groups operating in Afghanistan these groups including al Qaeda and the Taliban relocated to the Federally Administered Tribal Area of Pakistan From its base in this remote inhospitable region of Pakistan al Qaeda and its associated cells have planned prepared and executed numerous terrorist attacks around the world in addition to supporting and waging insurgencies in Iraq Afghanistan Yemen Somalia and elsewhere This book is the first detailed analysis of the myriad insurgent groups working in Pakistan Written by well known expert on global terrorism Rohan Gunaratna and Khuram Iqbal a leading scholar in Pakistan the book examines and reviews the nature structure and agendas of the groups their links to activists in other countries such as India and Iran and the difficulties of defeating terrorism in this part of the world Drawing on extensive field research and interviews with government officials and former terrorists the authors argue that Pakistan faces grave and continuing pressures from within and that without steadfast international goodwill and support the threats of extremism terrorism and insurgency will continue to grow This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world then Pakistan should be in the vanguard of the fight Pakistan, 2019 **The Rise and Decline of the Insurgency in**

**Pakistan's FATA** Shahzad Akhtar, 2022-12-16 This book analyzes the emergence rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region also known as Federally Administered Tribal Areas FATA It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency Offering an in depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co optation of local elites In the following years the insurgency became so powerful that most of the FATA region fell under the control of the insurgents The book further argues that a weak counterinsurgency strategy by the Pakistani government characterised by the overzealous use of force and a failure to win the support of local communities led the insurgency to become stronger and expand its control Furthermore the analysis reveals that a more robust counterinsurgency strategy relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years led to the collapse of the insurgency In short this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines In addition this book sheds light on recent development in FATA including the merger of FATA with the mainstream Pakistan the rise of the Pashtun Tahafuz Movement a non violent protest movement and the resurgence of the Pakistani Taliban especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan This book is a timely addition to the

literature on South Asian Politics and Security Studies      **Pakistan's War on Terrorism** Samir Puri, 2012-02-20 This book examines Pakistan's strategies in the war against Islamist armed groups that began late 2001 following the 9/11 attacks. The significance of the war inside Pakistan can hardly be understated. Starting in the tribal territories adjacent to Afghanistan, Pakistan's war has come to engulf the majority of the country through a brutal campaign of suicide bombings. Thousands of Pakistani lives have been lost and the geostrategic balance of the region has been thrown into deep uncertainty. Pakistan's War on Terrorism is an account of a decade-long war following the 9/11 attacks that is yet to be chronicled in systematic fashion as a campaign of military manoeuvre and terrorist reprisal. It is also an analytic account of Pakistan's strategic calculus during this time both in military and political terms and how these factors have been filtered by Pakistan's unique strategic culture. This text will be of great interest to students of Asian Politics, Terrorism and Political Violence and Security Studies in general.

*Handbook Of Terrorism In The Asia-Pacific* Rohan Gunaratna, Stefanie Li Yee Kam, 2016-06-22 The Handbook of Terrorism in the Asia Pacific provides a historical overview of terrorism in the Asia Pacific, the evolution of threat and the present threat faced by countries with the rise of the Islamic State (IS). This is a concise and readable handbook which examines the origins of the current wave of terrorism across countries in Southeast Asia, South Asia, Northeast Asia and the Pacific and identifies emerging trends and new forms of terror that have altered the landscape and rendered the region increasingly vulnerable to asymmetric attacks. Comprising of more than 20 chapters, this handbook will be a useful source of reference for undergraduate and graduate students focused on understanding the causes of terrorism and insurgency in the Asia Pacific.

*Global Security Watch—Pakistan* Syed Farooq Hasnat, 2011-05-26 This book details the domestic security concerns of Pakistan encompassing the dangers of insurgencies, the effects of religious extremism and terrorism and the malfunction of its political institutions. In recent years, Pakistan has emerged as a major security concern for the United States. The acts of terrorism that originate in Pakistan and its culture of extremism cause serious apprehension for the international community as well. Pakistan's ability to combat extremism within its borders and its policy towards Afghanistan will also play a large role in determining the success of U.S. military actions in Afghanistan. This volume will be the first to deal with a variety of emerging security issues of the country and their regional and international implications. This volume examines the issues of utmost importance for Pakistan's stability and strategic balance and explains their significance from the global perspective. Each chapter in this book addresses specific security challenges of Pakistan both domestic and international.

*Terrorism and Insurgency in Asia* Benjamin Schreer, Andrew T. H. Tan, 2019-04-01 The rise of the Islamic State since 2014 has led to the re-emergence of terrorism as a serious security threat in Asia. Coupled with the ongoing terrorism and insurgency challenges from both radical religious extremists and also ethno-nationalist insurgencies, it is clear that some parts of Asia remain mired in armed rebellion despite decades of nation building. While the situation in Afghanistan and Pakistan has obviously deteriorated, there is also a growing terrorist challenge on top of armed insurgencies.

in other parts of Asia A common theme in armed rebellions in the region has been the lack of legitimacy of the state and the presence of fundamental causes stemming from political economic or social grievances Addressing rebellion in the region thus requires a comprehensive approach involving transnational co operation addressing fundamental grievances and also the use of more innovative approaches such as religious rehabilitation and reconciliation programmes *Terror and War* Kieran Jackel,2021-06-01 *Terror and War* provides the reader with contemporary insights into military strategy radicalisation and the challenges associated with countering the rising influence of terrorism Twenty Essays is a cautionary and timely collection of works given the current intra state and domestic tensions present within the world The author has seen operational service on several occasions through Southern Asia the Middle East and domestically all of which centred on countering terrorism This lived experience provides the reader with unique perspectives that complement the analysis of counter terrorism theory and military thinking The outcome is an immersive and sobering reflection on the challenges facing policy makers and society more broadly **The Making of Pakistani Human Bombs** , Khuram Iqbal,2015-10-30 A multi level analysis of Pakistani human bombs reveals that suicide terrorism is caused by multiple factors with perceived effectiveness vengeance poverty and religious fundamentalism playing a varying role at the individual organizational and environmental levels Nationalism and resistance to foreign occupation appear as the least relevant factors behind suicide terrorism in Pakistan The findings of this research are based on a multi level analysis of suicide bombings incorporating both primary and secondary data In this study the author also decodes personal demographic economic and marital characteristics of Pakistani human bombs On average Pakistani suicide bombers are the youngest but the deadliest in the world and more than 71 percent of their victims are civilians Earlier concepts of a weak link linking terrorism with poverty and illiteracy do not hold up against the recent data gathered on the post 9 11 generation of fighters in Pakistan in suicidal and non suicidal categories as the majority of fighters from a variety of terrorist organizations are economically deprived and semi literate The majority of Pakistani human bombs come from rural backgrounds with very few from major urban centres Suicide bombings in Pakistan remain a male dominated phenomenon with most bombers being single men Demographic profiling of Pakistani suicide bombers based on a random sample of 80 failed and successful attackers dents the notion that American drone strikes play a primary role in promoting terrorism in all its manifestations The study concludes that previous scholarly attempts to explain suicide bombings are largely based on Middle Eastern data thus their application in the case of Pakistan can be misleading The Pakistani case study of suicide terrorism demonstrates unique characteristics hence it needs to be understood and countered through a context specific and multi level approach *Unconventional Warfare in South Asia* Scott Gates,Kaushik Roy,2016-02-17 India is the world s tenth largest economy and possesses the world s fourth largest military The subcontinent houses about one fifth of the world s population and its inhabitants are divided into various tribes clans and ethnic groups following four great religions Buddhism Christianity Hinduism and Islam Framing the debate using

case studies from across the region as well as China Afghanistan and Burma and using a wealth of primary and secondary sources this incisive volume takes a closer look at the organization and doctrines of the shadow armies and the government forces which fight the former Arranged in a thematic manner each chapter critically asks Why stateless marginal groups rebel How do states attempt to suppress them What are the consequences in the aftermath of the conflict especially in relation to conflict resolution and peace building Unconventional Warfare in South Asia is a welcomed addition to the growing field of interest on civil wars and insurgencies in South Asia An indispensable read which will allow us to better understand whether South Asia is witnessing a New War and whether the twenty first century belongs to the insurgents
