power Each factor is explored in a separate chapter detailing its impact on the development of the modern Cartesian self The authors draw on the theories of Goffman Bauman and Baudrillard to illustrate the changing nature of the self viewing it as a performer a fluid entity and a simulacrum While Goffman is not strictly a postmodern author his ideas foreshadow postmodernism particularly regarding the transformation of the self Bauman and Baudrillard as key figures in postmodern thought provide valuable insights into this transformation of the self in contemporary times The book uniquely connects two time periods in which the self evolves arguing that social factors influence its changing characteristics As these social factors shift over time so does the self Key aspects of the self and its evolution are examined through an original multidimensional approach that spans a longer time interval

**Making Ireland Modern** Enda Delaney, 2025-10-02 A provocative and original reinterpretation of modern Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland's encounter with modernity that corrects these stereotypes By situating the island's history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland's pathway to modernity was not inevitable belated or uni directional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from Ireland's complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain America Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress Changes in values consciousness and beliefs interacted with broader social political and cultural revolutions to create a distinctive experience of becoming modern The result is a bold and wide ranging new history of modern Ireland that restores agency to those who lived and made its history raising important and timely questions about modernity globalisation modern history and post colonialism

Jupp, 2016-07-27 This topical collection of eleven commissioned essays by well established contributors from sociology religious studies and theology is one of the first treatments of the relationship between postmodernity and religion from a sociological perspective The essays cover a diversity of interests but treat postmodernity in terms of its implications for the self the New Age and theology particularly Catholicism and Judaism Two of the essays are original

appraisals of two important French writers on religion Jean Luc Marion and Daniele Hervieu Leger      The Worship Mall  
Bryan Spinks, 2010-07-15 Religion is in competition with the leisure and entertainment industries The postmodern generation is open to spirituality but young adults have not been born into faith communities that embrace them fully and command their allegiance over a lifetime Studies suggest that for the young belief in God is an optional matter a consumer choice and different trends in contemporary worship and worship styles are offered by churches to suit personal taste What is in these trends that might appeal to Gen Y Are they worship or something other than worship Bryan Spinks invites you to walk through The Worship Mall and see what is on offer in the postmodern culture      **Religion, Education and**

**Post-Modernity** Andrew Wright, 2003-12-16 This book the first to explore religious education and post modernity in depth sets out to provide a much needed examination of the problems and possibilities post modernity raises for religious education At once a general introduction to this topic and a distinctive contribution to the debate in its own right Religion Education and Post modernity explores and illuminates the problems and possibilities opened up for religious education by postmodern thought and culture The book describes the emergence of post modernity considers the impact of post modernity on religion addresses its impact on the philosophy of religion and considers the nature of religious education in the post modern world Andrew Wright argues that although post modernity has much to offer the religious educator there are also many pitfalls and dangers to be avoided Steering clear of the extreme of post modern hyper realism he constructs a religious pedagogy sensitive to post modern concerns for alterity difference and the voice of the Other whilst insisting on the importance of reasons in cultivating religious literacy      *Ethical Politics and Modern Society* James Jia-Hau Liu, 2019-09-19 Ethical Politics and Modern Society introduces and critically examines British idealist philosopher Thomas Hill Green his practical philosophy and its reception in China between the late nineteenth century and the early twentieth century As a response to the modernity issue in Great Britain Green s philosophy in particular his ethical politics anticipated a practical solution to the individual alienation issue in modern society Witnessing the resemblance between Green s ethical politics and classical Chinese ethical and political thought some Chinese scholars became inclined to take Green s thought as an intellectual approach to assimilate Western modernity While Green and the Chinese scholars both intended to articulate an ethical conception of modern politics in response to the issue of modernity their results were very different In this book James Jia Hau Liu analyses why modern Chinese scholars introduced Green s philosophy to China and why the studies of Green s philosophy in China have since faded away Modern Chinese scholars such as Gao Yi Han Chin Yueh Lin Tang Jun Yi Chang Fo Chuan and Yin Hai Guang are explored in greater detail The contradictory standings towards modernity between Green and Chinese scholars illustrate how to understand the difference forms of modernity that can be embodied therein Ethical Politics and Modern Society is a valuable resource to scholars of political philosophy political theory history of social and political thought British idealism and the work of Thomas Hill Green      **The Paradoxes of Modernity** Zachary Simpson, 2022-05-10

A paradox lies at the heart of modernity the simultaneous demand to create ideas to make us better humans and communities along with the contrary imperative that we criticize all ideals especially the ones we have created In philosophy we see this paradox most acutely in figures like Immanuel Kant who states that we cannot know the essence of things and yet we must retain old ideas God freedom and the soul in order to become better and more ethical humans Or in Friedrich Nietzsche whose eternal recurrence a self created myth whose sole purpose is to get us to see the value in the everyday This basic scheme belief and un belief is one of the fundamental elements of modernity manifesting itself in the philosophies of Herbert Marcuse and Michel Foucault along with the theologies of Blaise Pascal C S Lewis William James Sallie McFague and Philip Clayton How do we live out the values we know to be constructions This question holds captive our ability to solve public goods problems and make our lives more meaningful Instead of seeing this paradox of modernity as self deception or bad faith Zachary Simpson employs cognitive and social scientific research to explain how best to realize values that we know to be false through art community and ritual In Simpson s account the values we construct must conform to narrative be reinforced through community and habituated through ritual And yet modernity has also undermined collectivity and ritual Thus arises the second paradox of modernity the best tools we have for realizing values are those which devalue the individual modern subject The last part of the book attempts to make three normative points regarding modernity First the modern individualist subject is insufficient to realize the very values and aspirations of modernity We must recognize that humans are collective and communal Second we cannot simply create values they must arise in communities and be realized through narrative and ritual And third if we are to live meaningful lives as contemporary meta ethicists and positive psychologists argue then such lives must include art community and ritual as a way to affirm and reinforce one s values Let s Pretend is a statement about one of the dilemmas of the contemporary western world and how that dilemma is and might be resolved How do we believe in the values that we know will make a better world even if they are of our own making We must do so in part by becoming less modern by engaging with one another and imagining more The book should serve as both an essay in the history of Western thought as well as a constructive argument about the nature of the modern epoch and what resources we have to realize the central aspirations of modernity It aims to fill a critical lacuna in theoretical and philosophical approaches to modernity While most texts focus on either the need for created values or the need to remedy modern subjectivity few if any link the two problems together Moreover they do not ground their analyses in the social sciences and contemporary findings regarding the efficacy of narrative communal action and rituals The book is unique then because it asks a central question how do we believe in what we know to be false and because it answers this question using interdisciplinary methods that allow us to see the faultlines and paradoxes of our age

**Adult Education and the Postmodern Challenge** Ian Bryant, Rennie Johnston, Robin Usher, 2004-08-02 This book offers some suggestions as to ways forward from this dilemma Drawing on the new intellectual frameworks of critical pedagogy feminism and postmodernism

and their impact upon educational theory practice and research the book focuses on the changing contexts of adult education By building on the notion of going beyond the limits of certain current adult education orthodoxies the authors try to provide alternatives for practice The final three chapters deal with research focusing on a critical macro analysis of mainstream paradigms a review of alternative approaches and a more micro analysis centering on the role of the socially located self in the research process

*Postmodernism and Its Critics* John McGowan,1991 John McGowan brings a fresh perspective to ongoing debates about the political implications of postmodernist thought and the relationship of intellectuals to contemporary culture In addition to providing a comprehensive overview of the philosophical context of postmodernism he considers the kinds of freedom and oppositional politics that are possible under postmodern conditions

Christology From Within and Ahead Mark Chan,2021-10-01 Troeltsch's struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer's philosophical hermeneutics and Schleiermacher's experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg's notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality

**HOW AMERICA BECAME ANTI-CHRISTIAN AND SELF-DESTRUCTIVE** Dr. George Joseph K PhD,2015-12-10 The American dream of a free world will be defeated if Christianity will be defeated in USA USA cannot survive unless the current perceptions of freedom and secularism undergo a drastic change There is freedom to promote almost everything except the Christian truth Ten Commandments are banned But yoga is promoted at all levels This kind of selective discrimination against the truth will destroy the very foundations of any society Strange motivations of the anti supernatural secularist lobby in the governmental institutions and their complicity in side lining Christian faith cannot be ruled out Thus ironically the undefeatable America tends to defeat itself In its rejection of Christian truth and values USA made truth a lie and the lie a truth If the current trends of self hatred of Christian faith by higher criticism and liberal theology and destruction of churches continue in 20 years USA will be overrun by the values and culture of Hinduism and Islam And USA will go down in history as the most powerful empire which had the best values in its custody since the days of its foundation but subjected itself to a silent death executed by its experts and enjoyed by its people who went after thrillers fantasies romances and other vain imaginations neglecting the truth Remember it was the hatred to Christian values that instigated the anti supernatural liberal theology from within and without the church which ultimately resulted in the Nazi Holocaust Beware when the Christian faith and values are suppressed the very survival of the societies at large is

**Kemalism in Turkish Politics** Sinan Ciddi, 2009-01-13 This book is concerned with Turkey's political evolution, the role of Kemalism and why a social democratic alternative has never fully developed. Concentrating on the electoral weaknesses of the Turkish centre-left represented by the Republican People's Party (CHP), Sinan Ciddi examines the roles of nationalism and the political establishment and the role of Kemalist ideology. Established by Kemal Atatürk, the CHP is seen to be the founding party of modern Turkey. Kemalism sought to create a secular and democratic society based on the principles of republicanism, populism, secularism, nationalism, and revolutionism. Although this leftist ideology became an integral part of Turkish politics by the early 1960s, it has remained a comparatively weak representative movement. Its strong ideological stance advocates an authoritarian and exclusionary position, particularly in relation to matters such as multiculturalism and democratisation, fuelling many debates concerning the role of religion and nationalism within Turkey and perpetuating elements of xenophobia and intolerance. This book will be of interest to students of politics, history, and current affairs, and of Turkish politics in particular.

Equipped to Tell the Next Generation Donna R. Ryan, 2020-04-15 Equipped to Tell the Next Generation bridges the gap between knowing and sharing our faith in Jesus by revealing areas of our beliefs and practices which have been syncretized with twenty-first century American culture: relative truth, consumerism, pleasure, an independent spirit, the victim mentality, and the culture of doubt. These go to the heart of who we are and keep Christians from telling people about Jesus in winsome ways. This book provides the solution: recover the holiness of God, his ultimate characteristic which holds all his characteristics in perfect unity. Rather than legalism, genuine holiness is the highest beauty which produces wholeness because it balances holy love, holy righteousness, repentance of sin, peace, and respect for all people and all of God's creation. When we meet a holy God, we want to worship and to serve him because the beauty of holiness touches the very essence of our being. It becomes our greatest desire to please him because of the deep love we find there: a holy love unlike what the world offers. This book will take you on a journey to recover the things compromised to culture and will equip you to tell the next generation about Jesus.
