The Cursing Mommy's Book of Days Ian Frazier,2025-08-22 Based on his widely read columns for The New Yorker Ian Frazier s uproarious first novel The Cursing Mommy s Book of Days centers on a profoundly memorable character sprung from an impressively fertile imagination Structured as a daybook of sorts the book follows the Cursing Mommy beleaguered wife of Larry and mother of two boys twelve and eight as she tries more or less valiantly to offer tips on how to do various tasks around the home only to end up on the ground cursing surrounded by broken glass Her voice is somewhere between Phyllis Diller s and Sylvia Plath s a hilariously desperate housewife with a taste for swearing and large glasses of red wine who speaks to the frustrations of everyday life Frazier has demonstrated an astonishing ability to operate with ease in a variety of registers from On the Rez an investigation into the lives of modern day Oglala Sioux written with a mix of humor compassion and imagination to Dating Your Mom a sidesplitting collection of humorous essays that imagines among other things how and why you might begin a romance with your mother Here Frazier tackles another genre with his usual grace and aplomb as well as an extra helping of his trademark wicked wit The Cursing Mommy s failures and weaknesses are our own and Frazier gives them a loving satirical spin that is uniquely his own

Beginning Writers in the Zone of Proximal Development Elizabeth Petrick-Steward,2012-10-12 How do young children bridge the gap between writing a story with pictures and writing with words How children learn to use written words to tell a story is a topic important to both cognitive development and early literacy instruction Using the theoretical framework developed by Vygotsky the behavior of a group of prekindergarten children as they author two consecutive pieces of writing is analyzed The children tell their stories at first with spoken words and pictures As they discuss their work in progress in public conferences they discover how to build on and combine existing skills to produce a new skill telling stories with written words Current descriptive and theoretical perspectives on beginning writing are presented in this volume with a particular focus on Vygotsky s concept of the zone of proximal development a period of sensitivity in which learning advances The proposed mechanism of change is verbal mediation talk among peers and teachers as they discuss work in progress which moves the children through the zone of proximal development An open whole language approach to literacy instruction makes the classroom in this book an ideal arena in which to observe verbal mediation in operation Children are free to question criticize and argue and in the process they collectively advance their developing ability to use written

language The work is unique in that the rich and comprehensive data record is reproduced in its entirety More than 400 illustrations of the children's products two books apiece pictured before and after the children's revisions are included along with transcripts of the conferences about each of the pages permitting direct observation of the effects of verbal mediation This dynamic study documents change during a period of time when specific learning is occurring and provides strong support for the value and power of Vygotsky's theoretical framework

Lifebooks: Creating a Treasure for the Adopted Child Beth O'Malley, 2003 [The Valley of the Shadow](#) Christopher Gilpin, 2016-02-16 The title of this book reflects a time in my life when I was surrounded by death and the possibility of not making the return journey home from combat in Iraq in 2005 2006 I felt a deep obligation to tell my two and a half year old daughter Chrisraine about the boy that I was and the soldier that I became should I not make it back home to tell her in person This book chronicles my childhood beginning with my first indelible memory at age four describing the people places and events that molded me into the man and soldier that I became until my son Christophe turned four years old Valley of the Shadow was an easy choice as the title for me because of the biblical and literal connection to me as I experienced combat and lived in a space and time defined by death and the will to overcome that fear That shadow was ever present and I fought hard and willed myself not to be engulfed by it I was much more to my family than a soldier and I wanted my daughter to know the boy that I was and what made me into the soldier that I became This journey was filled with periods of joy and great happiness as well as uncertainty and sadness as a boy and much the same as a soldier I excelled at the things that I applied myself to but was always challenged to perform in order to continue receiving the pleasures of everyday life or to survive a day in combat So both my childhood and my profession were valleys oftentimes reflecting low points and high points with a sense of duty to survive and overcome the day at hand

Creating Your Children's Book Thrive Living Library,2015-05-30 Maybe you re one of those lucky writers whose head is bursting with ideas Or perhaps you have one idea that s been nagging you for weeks always at the edge of your thoughts Either way you re itching to begin writing A lot of writers especially when they re beginners get ideas for fiction from their own lives This can be useful for several reasons you re emotionally invested in the topic you can relate directly to the main character and if the situation actually happened to you you re less likely to be unconsciously basing the story on a book you ve read When writers stick too closely to what really happened they fail to develop the elements necessary for a good story a believable main character who is faced with a problem or conflict mounting tension as that character tries to solve her problem and experiences setbacks and a tension filled climax followed by a resolution that s satisfying to the character and the reader *A to Zoo* Rebecca L.
