**Chinese Art and Dynastic Time** Wu Hung,2022-05-03 A sweeping look at Chinese art across the millennia that upends traditional perspectives and offers new pathways for art history Throughout Chinese history dynastic time the organization of history through the lens of successive dynasties has been the dominant mode of narrating the story of Chinese art even though there has been little examination of this concept in discourse and practice until now *Chinese Art and Dynastic Time* uncovers how the development of Chinese art was described in its original cultural sociopolitical and artistic contexts and how these narratives were interwoven with contemporaneous artistic creation In doing so leading art historian Wu Hung opens up new pathways for the consideration of not only Chinese art but also the whole of art history Wu Hung brings together ten case studies ranging from the third millennium BCE to the early twentieth century CE and spanning ritual and religious art painting sculpture the built environment and popular art in order to examine the deep rooted patterns in the

historical conceptualization of Chinese art Elucidating the changing notions of dynastic time in various contexts he also challenges the preoccupation with this concept as the default mode in art historical writing This critical investigation of dynastic time thus constitutes an essential foundation to pursue new narrative and interpretative frameworks in thinking about art history Remarkable for the sweep and scope of its arguments and lucid style Chinese Art and Dynastic Time probes the roots of the collective imagination in Chinese art and frees us from long held perspectives on how this art should be understood Published in association with the Center for Advanced Study in the Visual Arts National Gallery of Art Washington DC *Photography*, 1893 *Wilson's Photographic Magazine*, 1899 **Singular Images, Failed Copies** Vered Maimon, 2015-10-25 Focusing on early nineteenth century England and on the works and texts of the inventor of paper photography William Henry Fox Talbot *Singular Images Failed Copies* historicizes the conceptualization of photography in that era as part of a major historical change Treating photography not merely as a medium or a system of representation but also as an epistemology Vered Maimon challenges today's prevalent association of the early photograph with the camera obscura Instead she points to material formal and conceptual differences between those two types of images by considering the philosophical and aesthetic premises linked with early photography Through this analysis she argues that the emphasis in Talbot's accounts on the removal of the artist's hand in favor of the pencil of nature did not mark a shift from manual to mechanical and more accurate or objective systems of representation In *Singular Images Failed Copies* Maimon shows that the perception of the photographic image in the 1830s and 1840s was in fact symptomatic of a crisis in the epistemological framework that had informed philosophical scientific and aesthetic thought for two centuries *American Photography*, 1926 **The Photographic News: A Weekly Record of the Progress of Photography.
