## **Overdrive L A Constructs The Future 1940 1990:**

Overdrive Wim de Wit, Christopher James Alexander, 2013 This is a fascinating and intelligently illustrated study of architectural innovation in Los Angeles From 1940 to 1990 Los Angeles rapidly evolved into one of the most populous and influential industrial economic and creative capitals in the world During this era the region was transformed into a laboratory for cutting edge architecture Overdrive examines these experiments and their impacts on modern design reframes the perceptions of Los Angeles dynamic built environment and amplifies the exploration of the city s vibrant architectural legacy The drawings models and images highlighted by Overdrive reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary canonical landmarks and a coveted lifestyle **Federal Register** ,2013-03 *The Routledge Companion to Urban Imaginaries* Christoph Lindner, Miriam Meissner, 2018-09-28 The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies from new visions of smart eco and resilient cities to urban dystopias in popular culture from architectural renderings of starchitecture and luxury living to performative activism for new spatial justice and from speculative experiments in urban planning fiction and photography to augmented urban realities in crowd mapping and mobile apps The volume brings various global perspectives together and into close dialogue to offer a broad interdisciplinary and critical overview of the current state of research on urban imaginaries Questioning the politics of urban imagination the companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies communities and built environments Throughout the companion issues of power resistance and uneven geographical development remain central Adopting a transnational perspective the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies inviting critical reconsiderations of urbanism in its diverse current forms and definitions In the process the companion explores issues of Western centrism in urban research and design and accommodates current attempts to radically rethink urban form and experience This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture art media and cultural studies film visual and literary studies sociology and political science geography and anthropology *Learning in the Anthropocene* Carl A. Maida, 2023-11-13 Learning in the Anthropocene Reimagining Education in the Twenty First Century reimagines the education of future generations in our complex society Carl A Maida argues we are living in an era of transition that has been repeatedly called an age of acceleration and in this time of crisis diverse constituencies will need to coalesce and create place based arenas for critical inquiry and reflection around biodiversity energy and sustainability concerns Education is therefore critical to the public sphere which is polarized by contentious debates over class ethnicity culture and more recently the fate of the planet He posits that two provinces the school and society can join together to afford students greater freedom to produce future knowledge by advancing experiential instructional approaches as

humanity faces profound challenges to its existence      **Planet Utopia** Mark Featherstone, 2017-02-17 It has become clear that utopian thought has returned to the political scene Featherstone traces the history of utopia and also discusses a number of contemporary case studies This examination of the nature of utopian politics in the twenty first century will be essential reading for political scientists and sociologists      **Ed Ruscha and the Great American West** Karin Breuer, D.J. Waldie, Ed Ruscha, 2016-07-12 The renowned artist Ed Ruscha was born in Nebraska grew up in Oklahoma and has lived and worked in Southern California since the late 1950s Beginning in 1956 road trips across the American Southwest furnished a conceptual trove of themes and motifs that he mined throughout his career The everyday landscapes of the West especially as experienced from the automobile gas stations billboards building facades parking lots and long stretches of roadway are the primary motifs of his often deadpan and instantly recognizable paintings and works on paper as well as his influential artist books such as *Twentysix Gasoline Stations* and *All the Buildings on the Sunset Strip* His iconic word images declaring *Adios Rodeo* *Wheels over Indian Trails* and *Honey I Twisted through More Damn Traffic to Get Here* further underscore a contemporary Western sensibility Ruscha's interest in what the real West has become and Hollywood's version of it plays out across his oeuvre The cinematic sources of his subject matter can be seen in his silhouette pictures which often appear to be grainy stills from old Hollywood movies They feature images of the contemporary West such as parking lots and swimming pools but also of its historical past covered wagons buffalo teepees and howling coyotes Featuring essays by Karin Breuer and D J Waldie plus a fascinating interview with the artist conducted by Kerry Brougner this stunning catalogue produced in close collaboration with the Ruscha studio offers the first full exploration of the painter's lifelong fascination with the romantic concept and modern reality of the evolving American West Published in association with the Fine Arts Museums of San Francisco Exhibition dates de Young San Francisco July 16 October 9 2016      **The Speculative City** Susanna Phillips Newbury, 2021-04-20 A forensic examination of the mutual relationship between art and real estate in a transforming Los Angeles Underlying every great city is a rich and vibrant culture that shapes the texture of life within In *The Speculative City* Susanna Phillips Newbury teases out how art and Los Angeles shaped one another's evolution She compellingly articulates how together they transformed the Southland establishing the foundation for its contemporary art infrastructure and explains how artists came to influence Los Angeles's burgeoning definition as the global city of the twenty first century Pairing particular works of art with specific innovations in real estate development *The Speculative City* reveals the connections between real estate and contemporary art as they constructed Los Angeles's present day cityscape From banal parking lots to Frank Gehry's designs for artists studios and museums Newbury examines pivotal interventions by artists and architects city officials and cultural philanthropists concluding with an examination of how in the wake of the 2008 global credit crisis contemporary art emerged as a financial asset to fuel private wealth and urban gentrification Both a history of the transformation of the Southland and a forensic examination of works of art *The Speculative City* is a rich complement to

studies incorporating findings from both historical and theoretical scholarship and design research **J. R. Davidson** Lilian Pfaff, 2019-09-02 Julius Ralph Davidson is widely known as the architect of Thomas Mann's house. Born 1889 in Berlin, Davidson left Germany in 1923 and emigrated to the USA. In Los Angeles, he designed some 150 projects, among them three houses for the experimental Case Study House Program. This long overdue publication is a comprehensive documentation of Davidson's life and work, highlighting J. R.'s contribution to modernism in California in the 1930s and 1940s.

**Infrastructural Optimism** Linda C. Samuels, 2021-09-29 *Infrastructural Optimism* investigates a new kind of twenty-first century infrastructure, one that encourages a broader understanding of the interdependence of resources and agencies, recognizes a rightfully accelerated need for equitable access and distribution, and prioritizes rising environmental diligence across the design disciplines. Bringing together urban history case studies and speculative design propositions, the book explores and defines infrastructure as the basis for a new form of urbanism emerging from the intersection of architecture, landscape architecture, and urban design. In defining this new infrastructure, the book introduces new dynamic and holistic performance metrics focused on measuring what matters over growth for the sake of growth and twelve criteria that define next-generation infrastructure. By shifting the focus of infrastructure, our largest public realm, to environmental symbiosis and quality of life for all, design becomes a catalytic component in creating a more beautiful, productive, and optimistic future with *Infrastructural Urbanism* as its driver. *Infrastructural Optimism* will be invaluable to design, non-profit, and agency professionals and faculty and students in the fields of architecture, landscape architecture, and urban design, working in partnership with engineers, hydrologists, ecologists, urban planners, community members, and others who shape the built environment through the expanded field of infrastructure.
