Oversight Representing The Interests Of Blacks And Latinos In Congress:

Oversight Michael D. Minta, 2011-08-08 Oversight answers the question of whether black and Latino legislators better represent minority interests in Congress than white legislators and it is the first book on the subject to focus on congressional oversight rather than roll call voting In this important book Michael Minta demonstrates that minority lawmakers provide qualitatively better representation of black and Latino interests than their white counterparts They are more likely to intervene in decision making by federal agencies by testifying in support of minority interests at congressional oversight hearings Minority legislators write more letters urging agency officials to enforce civil rights policies and spend significant time and effort advocating for solutions to problems that affect all racial and ethnic groups such as poverty inadequate health care fair housing and community development In Oversight Minta argues that minority members of Congress act on behalf of broad minority interests inside and outside their districts because of a shared bond of experience and a sense of linked fate He shows how the presence of black and Latino legislators in the committee room increases the chances that minority perspectives and concerns will be addressed in committee deliberations and also how minority lawmakers are effective at countering negative stereotypes about minorities in policy debates on issues like affirmative action and affordable housing

Latino Politics en Ciencia Política Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014 More than 53 million Latinos now constitute the largest fastest growing and most diverse minority group in the United States and the nation's political future may well be shaped by Latinos continuing political incorporation In the 2012 election Latinos proved to be a critical voting bloc in both Presidential and Congressional races this demographic will only become more important in future American elections Using new evidence from the largest ever scientific survey addressed exclusively to Latino Hispanic respondents a Latino Politics a en Ciencia Política explores political diversity within the Latino community considering how intra community differences influence political behavior and policy preferences The editors and contributors all noted scholars of race and politics examine key issues of Latino politics in the contemporary United States Latino identities latinidad transnationalism acculturation political community and racial consciousness The book contextualizes today's research within the history of Latino political studies from the field's beginnings to the present explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science a Latino Politics a en Ciencia Política is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes

Black-Latino Relations in U.S. National Politics Rodney E. Hero, Robert R. Preuhs, 2013-01-21 Social science research has frequently found conflict between Latinos and African Americans in urban politics and governance as well as in the groups attitudes toward one another Rodney E Hero and Robert R Preuhs analyze whether conflict between these two groups is also found in national politics Based on extensive evidence on the activities of minority advocacy groups in national politics and the behavior of minority members of Congress the authors find the

relationship between the groups is characterized mainly by non conflict and a considerable degree of independence The question of why there appears to be little minority intergroup conflict at the national level of government is also addressed This is the first systematic study of Black Latino intergroup relations at the national level of United States politics

Congress Reconsidered Lawrence C. Dodd, Bruce I. Oppenheimer, C. Lawrence Evans, 2020-12-22 Since its first edition Congress Reconsidered was designed to make available the best contemporary work from leading congressional scholars in a form that is both challenging and accessible to undergraduates With their Twelfth Edition Lawrence C Dodd Bruce I Oppenheimer and C Lawrence Evans continue this tradition as their contributors focus on how various aspects of Congress have changed over time C Lawrence Evans partners with Wendy Schiller to discuss the U S Senate and the meaning of dysfunction Molly E Reynolds analyzes the politics of the budget and appropriations process in a polarized Congress and Danielle M Thomsen looks at the role of women and voter preferences in the 2018 elections With a strong new focus on political polarization this bestselling volume remains on the cutting edge with key insights into the workings of Congress

Gender, Race, and Office Holding in the United States Becki Scola, 2013-12-04 Over the past several decades the number of women elected to higher office in the United States has grown substantially However when the electoral gains of women are considered on a state by state basis there are observable variations in the rate by state at which women are elected to state legislative office Scholars have noted an additional variation in women office holders that women of color serve at higher rates than white women Becki Scola's book provides an explanation for these two interrelated puzzles on electoral gender gaps She examines the factors surrounding the uneven proportional distribution of female legislators and then explores why gender appears to be an advantage for women of color office holders Through an examination of the divergent state level institutional and environmental conditions Scola maps out the factors that contribute to more or less female legislative service and how race ethnicity intersects with these conditions She reveals that the common conceptions and theories that help us understand women's office holding in general do not equally apply to both white women and women of color's legislative service The first book length study to analyze how race informs gender in terms of patterns of office holding Gender Race and Office Holding in the United States provides insight into both underrepresentation in general as well as the underlying dynamics of representation within specific groups of women

Strategic Responsiveness Scott H Ainsworth, Brian M Harward, Kenneth W Moffett, 2025-05-21 Because the constitutional separation of powers often leads to delay or obstruction rather than coordinated policymaking U S presidents are increasingly acting unilaterally to move policy With the issuance of executive orders signing statements and policy memoranda unilateralism has become a defining feature of the American presidency Can Congress effectively use checks and balances to counter presidential unilateralism Strategic Responsiveness takes a theoretically developed and empirically oriented approach situated within legal and historical contexts to explore the system of separated powers The authors find that Congress is not as weak as many perceive it to be

and show how members of Congress often anticipate individualized policy loss and choose to respond. These policy struggles shape the constitutional order as surely as broad statutory constraints might. While the aggrandizement of the presidency and the usurpation of congressional control are not countered, ordinary policy losses are. For members and senators, presidential overreach is fine as long as the policy wins, continue, but policy losses may motivate members to reassert congressional prerogatives in policymaking through increased oversight. Strategic Responsiveness reveals how profoundly important policy level disputes are in the politics of maintaining a particular constitutional order. **Power to the Partners** Maraam A.

Dwidar, 2025-06-06 A vital examination of how social and economic justice organizations overcome resource disadvantages and build political power. Why do some coalitions triumph while others fall short? In *Power to the Partners*, Maraam A. Dwidar documents the vital role of social and economic justice organizations in American politics and explores the process by which they strategically build partnerships to advance more effective and equitable advocacy. Using original data tracking the collaboration patterns of more than twenty thousand nationally active advocacy organizations, Dwidar evaluates the micro and macro level conditions surrounding these groups' successful efforts to collectively shape public policy. *Power to the Partners* reveals that while organizational advocates for social and economic justice are at a disadvantage in the American lobbying landscape, financially, tactically, and politically, coalition work can help ameliorate these disparities. By building and sustaining coalitions with structures and memberships that facilitate clarity, learning, and diverse perspectives, these advocates can successfully and uniquely make their mark on American public policy. Dwidar's work offers critical insights for scholars and practitioners alike, from groundbreaking academic findings to evidence-based lessons for political organizers.

The Oxford Handbook of Political Representation in Liberal Democracies Robert Rohrschneider, Jacques Thomassen, 2020-07-28 The *Handbook of Political Representation in Liberal Democracies* offers a state-of-the-art assessment of the functioning of political representation in liberal democracies. In 34 chapters, the world's leading scholars on the various aspects of political representation address eight broad themes: The concept and theories of political representation; its history and the main requisites for its development; elite orientations and behavior; descriptive representation; party government and representation; non-electoral forms of political participation and how they relate to political representation; the challenges to representative democracy originating from the growing importance of non-majoritarian institutions and social media; the rise of populism and its consequences for the functioning of representative democracy; the challenge caused by economic and political globalization; what does it mean for the functioning of political representation at the national level and is it possible to develop institutions of representative democracy at a level above the state that meet the normative criteria of representative democracy and are supported by the people. The various chapters offer a comprehensive review of the literature on the various aspects of political representation. The main organizing principle of the *Handbook* is the chain of political representation: the chain connecting the interests and policy preferences of the people to public policy via political parties.

parliament and government Most of the chapters assessing the functioning of the chain of political representation and its various links are based on original comparative political research Comparative research on political representation and its various subfields has developed dramatically over the last decades so that even ten years ago a Handbook like this would have looked totally different

Backdoor Lawmaking Melinda N. Ritchie, 2023 Civics textbooks focus on how Congress makes policy through the legislative process but the reality is that members of Congress have limited opportunities to advance their policy priorities In fact less than five percent of the bills that are introduced in Congress become law Even the most tenacious legislators are confronted by bicameralism partisan gridlock chamber procedures leadership s control of the agenda and the diverse interests of 534 other members of Congress What strategies do lawmakers have for navigating these challenges In this book Melinda N Ritchie reveals how members of Congress use the federal bureaucracy as a backdoor for policymaking Today more law in the United States is made by unelected bureaucrats through federal agency regulations than with congressional statute Ritchie argues that the bureaucracy s growing role in policymaking offers lawmakers a discreet way to represent controversial interests outside of the formal constraints of Congress Lawmakers overcome obstacles in the legislative process by substituting agency regulations for legislation and pressuring agencies to make policy changes that would not pass Congress Drawing on an original dataset constructed from records obtained under the Freedom of Information Act Ritchie traces the interactions between members of Congress and federal agencies to illustrate how these communications function as part of a lawmaker s overarching strategy for policymaking Original and timely *Backdoor Lawmaking* explains how members of Congress exploit the separation of powers and evade the lawmaking process established in the US Constitution

Race, Organizations, and the Organizing Process Melissa E. Wooten, 2019-05-20 This volume shifts the analytic attention of research on race as a people based theoretical or empirical category to organizations Chapters investigate how race shapes organizations and an organization s ability to get the cultural political and material resources it needs to survive i e the organizing process

Representing the Advantaged Daniel M. Butler, 2014-07-14 This book argues that a significant amount of bias in representation traces its roots to the information opinions and attitudes that politicians bring to office It suggests that even if all voters participated equally there would still be significant levels of bias in American politics because of differences in elite participation

Gaining Voice Christopher J. Clark, 2019-02-25 Scholars studying the causes and consequences of political representation particularly in terms of gender and race often turn to a concept called descriptive representation Descriptive representation tells us the degree to which elected officials resemble their constituents and whether such a resemblance has a bearing on the way they legislate In other words do people vote for candidates of their same racial ethnic background or gender If they do does this affect the type of policies an elected official pursues Further if citizens see people who look like them in office does it have an effect on their political attitudes and participation In this book Christopher J Clark argues that descriptive representation is a more multi faceted

phenomenon than previously shown particularly when observed at the state level He contends that black political involvement political attitudes and public opinion are contingent on more than being represented by a single black elected official Rather they hinge on the proportion of African Americans making up a state legislature what Clark terms black seat share as well as the degree to which that proportion reflects the demographic makeup of the state As well Clark pinpoints the critical mass of African American legislators necessary to initiate the creation of black caucuses an important institution for minority representation Clark bases his study on an examination of black representation in state legislatures between 1966 and 2010 looking particularly at black political opinion and involvement in the development of welfare and education policy Congress Reconsidered, 10th Edition Lawrence C. Dodd, 2013 Always a classic Dodd and Oppenheimer's Congress Reconsidered is the recognized source for in depth cutting edge scholarship on Congress geared to undergraduates Thoroughly updated for the 112th Congress **Latinos in the American Political System** Jessica L. Lavariega Monforti, 2019-03-14 This encyclopedia provides a comprehensive overview of the evolution of Hispanic Americans engaged in U S politics from increased visibility as governors and other lawmakers at the local state and federal levels to their growing importance as a voting constituency This encyclopedia comprehensively surveys the evolution of Latina o engagement in US politics as voters candidates lawmakers and public officials It is an authoritative resource for public library patrons high school students and undergraduates in a variety of curricular studies including political science civics American history and Latino studies The set's A Z entries were carefully selected and crafted to ensure thorough coverage of all of the individuals organizations cultural forces political issues and legal decisions that have combined to elevate the role of Latinos at the polls on the campaign trail in Washington and in mayors offices city councils school boards and statehouses all across the country In depth essays on the rising prominence of Latino Americans as voters candidates public officials lawmakers and opinion leaders will provide further context for understanding their impact on modern U S political processes and institutions from the perspective of liberals and conservatives alike Contesting the Last Frontier Pei-te Lien, Nicole Filler, 2022 Women of color including Asian Pacific American APA women have made considerable inroads into elective office in the United States in recent years in fact their numbers have grown more rapidly than those of white women Nonetheless focusing only on success stories gives the false impression that racism sexism and other forms of oppression are not barriers for APA candidates to public office It also detracts attention from the persistent and severe under representation of all women and nonwhite men in elective office in the United States In Contesting the Last Frontier Pei te Lien and Nicole Filler examine the scope and significance of the rise of Asian Pacific Americans in US elective office over the past half century To help interpret the complex experiences of these political women and men situated at the intersection of race gender and other dimensions of marginalization Lien and Filler adopt an intersectionality framework that puts women of color at the center of their analysis They also draw on their own original dataset of APA electoral participation over the past 70 years as

well as in depth interviews with elected officials They examine APA candidates trajectories to office their divergent patterns of political socialization the barriers and opportunities they face on the campaign trail and how these elected officials enact their roles as representatives at local state and federal levels of government In turn they counter various tropes including the model minority myth that suggests that Asian Americans have attained a level of success in education work and politics that precludes attention to racial discrimination Importantly the book also provides a look into how APA elected officials of various origins strive to serve the interests of the rapidly expanding and majority immigrant population especially those disadvantaged by the intersections of gender ethnicity and nativity Ambitious and comprehensive Contesting the Last Frontier fills an important gap in American electoral history and uncovers the lived experiences of APA women and men on the campaign trail and in elective office

Women in the Club Michele L. Swers, 2024-05-31 In the run up to the 2012 presidential election Democrats and Republicans were locked in a fierce battle for the female vote Democrats charged Republicans with waging a war on women while Republicans countered that Democratic policies actually undermined women's rights The women of the Senate wielded particular power planning press conferences appearing on political programs and taking to the Senate floor over gender related issues such as workplace equality and reproductive rights The first book to examine the impact of gender differences in the Senate Women in the Club is an eye opening exploration of how women are influencing policy and politics in this erstwhile male bastion of power Gender Michele L Swers shows is a fundamental factor for women in the Senate interacting with both party affiliation and individual ideology to shape priorities on policy Women for example are more active proponents of social welfare and women's rights But the effects of gender extend beyond mere policy preferences Senators also develop their priorities with an eye to managing voter expectations about their expertise and advancing their party's position on a given issue The election of women in increasing numbers has also coincided with the evolution of the Senate as a highly partisan institution The stark differences between the parties on issues pertaining to gender have meant that Democratic and Republican senators often assume very different roles as they reconcile their policy views on gender issues with the desire to act as members of partisan teams championing or defending their party's record in an effort to reach various groups of voters

Race, Gender, and Political Representation Beth Reingold, Kerry Lee Haynie, Kirsten Widner, 2021 It is well established that the race and gender of elected representatives influence the ways in which they legislate but surprisingly little research exists on how race and gender interact to affect who is elected and how they behave once in office This book takes up the call to think about representation in the United States as intersectional and it measures the extent to which political representation is simultaneously gendered and raced Drawing on original data on the presence policy leadership and policy impact of Black women and men Latinas and Latinos and White women and men in state legislative office in the late twentieth and early twenty first centuries this book demonstrates what an intersectional approach to identity politics can reveal

Women Representatives in Britain, France, and the United States Harriet B.

Dangerously Divided Zoltan L. Hajnal,2020-01-02 As America has become more racially diverse and economic inequality has increased American politics has also become more clearly divided by race and less clearly divided by class In this landmark book Zoltan L Hajnal draws on sweeping data to assess the political impact of the two most significant demographic trends of last fifty years Examining federal and local elections over many decades as well as policy Hajnal shows that race more than class or any other demographic factor shapes not only how Americans vote but also who wins and who loses when the votes are counted and policies are enacted America has become a racial democracy with non Whites and especially African Americans regularly on the losing side A close look at trends over time shows that these divisions are worsening yet also reveals that electing Democrats to office can make democracy more even and ultimately reduce inequality in well being
