Democracy Owner's Manual Kerry Power,1995-09 *Extreme Wakeboarding* Bobbie Kalman,2006 Extreme wakeboarding is a spectacular water sport that combines elements of skateboarding surfing and snowboarding The explosive popularity of the sport lies in the thrill of watching talented wakeboarding pros fly behind speedboats and use waves just as skateboarders use the concrete walls of a halfpipe to perform challenging flips and tricks Fascinating text and huge images in Extreme Wakeboarding cover The newest wakeboarding competitions The basics of wakeboards and other equipment The latest tricks developed by the pros Profiles of today s wakeboarding stars *Sonic Warfare* Steve Goodman,2012-08-17 An exploration of the production transmission and mutation of affective tonality when sound helps produce a bad vibe Sound can be deployed to produce discomfort express a threat or create an ambience of fear or dread to produce a bad vibe Sonic weapons of this sort include the psychoacoustic correction aimed at Panama strongman Manuel Noriega by the U S Army and at the Branch Davidians in Waco by the FBI sonic booms or sound bombs over the Gaza Strip and high frequency rat repellants used against teenagers in malls At the same time artists and musicians generate intense frequencies in the search for new aesthetic experiences and new ways of mobilizing bodies in rhythm In Sonic Warfare Steve Goodman explores these uses of acoustic force and how they affect populations Traversing philosophy science fiction aesthetics and popular culture he maps a dis continuum of vibrational force encompassing police and military research into acoustic means of crowd control the corporate deployment of sonic branding and the intense sonic encounters of sound art and music culture Goodman concludes with speculations on the not yet heard the concept of unsound which relates to both the peripheries of auditory perception and the unactualized nexus of rhythms and frequencies within audible bandwidths **The Demography of Corporations and Industries** Glenn R. Carroll,Michael T. Hannan,2018-06-05 Most analysts of corporations and industries adopt the focal perspective of a single prototypical organization Many analysts also study corporations primarily in terms of

their internal organizational structures or as complex systems of financial contracts Glenn Carroll and Michael Hannan bring fresh insight to our understanding of corporations and the industries they comprise by looking beyond prototypical structures to focus on the range and diversity of organizations in their social and economic setting The result is a rich rendering of analysis that portrays whole populations and communities of corporations The Demography of Corporations and Industries is the first book to present the demographic approach to organizational studies in its entirety It examines the theory models methods and data used in corporate demographic research Carroll and Hannan explore the processes by which corporate populations change over time including organizational founding growth decline structural transformation and mortality They review and synthesize the major theoretical mechanisms of corporate demography ranging from aging and size dependence to population segregation and density dependence The book also explores some selected implications of corporate demography for public policy including employment and regulation In this path breaking book Carroll and Hannan demonstrate why demographic research on corporations is important describe how to conduct demographic research specify fruitful areas of future research and suggest how the demographic perspective can enrich the public discussion of issues surrounding the corporation in our constantly evolving industrial society All researchers and analysts with an interest in this topic will find The Demography of Corporations and Industries an invaluable resource

Computational Fluid Dynamics in Industrial Combustion Jr., Charles E. Baukal, Vladimir Gershtein, Xianming Jimmy Li, 2000-10-26 Although many books have been written on computational fluid dynamics CFD and many written on combustion most contain very limited coverage of the combination of CFD and industrial combustion Furthermore most of these books are written at an advanced academic level emphasize theory over practice and provide little help to engineers who need

Photovoltaics in Cold Climates Michael Ross, Jimmy Royer, 2020-10-12 Providing electric power to remote cold regions at high latitude or altitude can be an expensive and technically challenging task Photovoltaics PV provide a reliable and cost effective solution yet their potential is underdeveloped in part because of a lack of knowledge about their effectiveness in cold climates This book illustrates the potential and the techniques for using PV in cold climates The book starts with a general section illustrating how PV can be applied in cold climates with a succinct overview of the main considerations and chapters covering both the solar resource and the economics It then covers the effects of cold climates on PV systems looking at the issues around the array and electronics the battery and energy management The third section covers design considerations and possible configurations stand alone battery systems hybrid systems seasonal storage and system simulation The next part covers installation and operation and the book concludes with several case studies The book will be invaluable both for all managers charged with

providing power to cold climates whether for dwellings other buildings or technical installations and for all technicians engineers installers and researchers working on such installations It will also be of great interest to those working with PV in any form or interested to see PV technology reach its full potential *Juvenile Suicide in Confinement* Lindsay M. Hayes,2009-12 Although youth suicide in the community has been identified as a major public health problem juvenile suicide in confinement has received scant attention This is a report on the first national survey on juvenile suicide in confinement The primary goal was to determine the extent and distribution of juvenile suicides in confinement i e juvenile detention centers reception centers training schools ranches camps and farms The survey gathered descriptive data on the demographic characteristics of each victim the characteristics of the incident and the characteristics of the juvenile facility in which the suicide took place The study identified 110 juvenile suicides occurring between 1995 and 1999 Charts and tables

Nobody's Perfect Anthony Lane,2009-08-19 Anthony Lane on Con Air Advance word on Con Air said that it was all about an airplane with an unusually dangerous and potentially lethal load Big deal You should try the lunches they serve out of Newark Compared with the chicken napalm I ate on my last flight the men in Con Air are about as dangerous as balloons Anthony Lane on The Bridges of Madison County I got my copy at the airport behind a guy who was buying Playboy s Book of Lingerie and I think he had the better deal He certainly looked happy with his purchase whereas I had to ask for a paper bag Anthony Lane on Martha Stewart Super skilled free of fear the last word in human efficiency Martha Stewart is the woman who convinced a million Americans that they have the time the means the right and damn it the duty to pipe a little squirt of soft cheese into the middle of a snow pea and to continue piping until there are fifty to sixty stuffed peas raring to go For ten years Anthony Lane has delighted New Yorker readers with his film reviews book reviews and profiles that range from Buster Keaton to Vladimir Nabokov to Ernest Shackleton Nobody s Perfect is an unforgettable collection of Lane s trademark wit satire and insight that will satisfy both the long addicted and the not so familiar *The New Internet Navigator* Paul Gilster,1995-09-20 The completely new and updated third edition of this popular reference book integrates coverage of the Web and SLIP PPP with traditional UNIX platforms and includes even more local service providers that offer low cost access to individuals It s easy to read and perfect for people whose feet are wet on the Net and who want to dive in Internet World

Words on Cassette, 2002 R R Bowker Publishing,2002 *The Architecture of Error* Francesca Hughes,2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline s needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In *The Architecture of Error* Francesca Hughes argues that behind the architect s acute fetishization of redundant precision lies a special fear of physical error What if we

were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament to digitalized fabrication that produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes s analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable
