Paintings from England Beatrijs Brenninkmeyer-De Rooij, Mauritshuis (Hague, Netherlands), 1988      *Paintings from England* Beatrijs Brenninkmeyer-de Rooij, 1988      Paintings from England Mauritshuis Koninklijk Kabinet van Schilderijen, 1988      **Leonardo's Salvator Mundi and the Collecting of Leonardo in the Stuart Courts** Martin Kemp, Robert B. Simon, Margaret Dalivalle, 2019-11-19 The Salvator Mundi is the first Leonardo painting to be discovered for over a century Following its re emergence it played a leading role in the landmark Leonardo exhibition at the National Gallery in London in 2011 after which it was purchased by a Russian oligarch In 2017 it was auctioned by Christie's in New York fetching the world record price of 450m and now forms part of the collection of Louvre Abu Dhabi The Salvator Mundi may be seen as the devotional counterpart to the Mona Lisa having an extraordinary communicative presence The artist has reformed the very traditional subject matter in a number of ways The elusiveness of Christ's expression suggests his spiritual origins beyond the world of the senses The traditional sphere of the earth has been transformed into a rock crystal orb and signifies a crystalline sphere of the heavens In addition to its spiritual dimension the image exploits Leonardo's optical knowledge and his growing sense of the illusiveness of seeing Only the blessing hand is in reasonably sharp focus with his features softly veiled The scintillating curls of his hair are characterised in line with his theory that the physics of the curling of hair is analogous to vortex motion in water This book looks at evidence of Leonardo's Salvator Mundi in the collections of Charles I and Charles II It explores the appraisal of works by Leonardo at the Stuart courts and proposes that how works attributed to Leonardo were first encountered and understood in seventeenth century Britain would shape the wider evolution of Leonardo as a cultural icon This volume gives a dramatic first hand account of the modern day discovery of the painting from its purchase in a minor New Orleans auction house to the cleaning of the picture that would disclose it as Leonardo's startling original and the research processes that would uncover illustrious and obscure former owners The book presents the definitive study of the new masterpiece      **Anecdotes of Painting in England; with some Account of the Principal Artists** Horace Walpole, 1888      *Redefining William III* David Onnekink, Esther Mijers, 2016-04-08 William III 1650-1702 was Stadholder in the United Provinces and King of England Scotland and Ireland His reign has always intrigued historians as it encompassed such defining events as the Dutch year of Disaster 1672 the Glorious Revolution 1688 and the ensuing wars against France Although William has played a pivotal role in the political and religious history of his countries the significance and international impact of his reign is still not very well understood This volume contains a number of innovative essays from specialists in the field which have evolved from papers delivered to an international conference held at the University of Utrecht in December 2002 By focusing on the entire period 1650-1702 from an international perspective the volume moves historical discussion away from the traditional analysis of single events to encompass William's entire reign from a variety of political religious intellectual and cultural positions In so doing it offers a new perspective on the

British and Dutch reigns of William III as well as the wider European milieu      The Amsterdam Town Hall in Words and Images Stijn Bussels, Caroline Van Eck, Bram Van Oostveldt, 2021-05-20 The most famous monument of the Dutch Golden Age is undoubtedly the Amsterdam Town Hall by architect Jacob van Campen inaugurated in 1655 Today we stand in awe confronted with the grand Classicist facade the delightful horror of the sculptures in the Tribunal and the magnificence of the huge Citizens Hall In the period of its construction many artists and writers tried to capture the overwhelming impact of the building by among other comparisons relating it to the ancient Wonders of the World and by stressing its splendour riches and impressive scale In doing so they constructed the Town Hall as the ultimate wonder thus offering a silent but very powerful testimony to the power and position of the City of Amsterdam and its rulers as equals of the other European regimes To fully understand these mechanisms of power this book relates the Town Hall to other impressive buildings of the same period the palace of the Louvre Saint Peter's Basilica and Banqueting House and their visual and textual representations Thus this book gives a broad audience of readers new insights into the agency of magnificent buildings The Amsterdam Town Hall in Words and Images does not restrict itself to a national scope or a purely architectural analysis but clarifies how artists and writers all over Europe presented buildings as wonders of the world This book is pioneering in its analysis of seventeenth and eighteenth century paintings prints drawings poems and travel accounts and offers a new understanding of how the wondrous character of these grand buildings was constructed      *The Cornhill Magazine* William Makepeace Thackeray, 1907      **Anecdotes of Painting in England** Horace Walpole, 1876      **Notes on Pictures in the Royal Collections** Lionel Cust, 1911      **Anecdotes of painting in England, with some account of the principal artists, and notes on other arts; collected by G.
