Palestinian Refugee Repatriation Palestinian Refugee Repatriation:

Palestinian Refugee Repatriation Michael Dumper, 2006 This book provides a comparative examination of a number of different refugee return situations in order to identify pre requisites for an effective and durable Palestinian repatriation programme It contains contributions from members of the UN and other NGOs as well as academics **Palestinian Refugees** Rex Brynen, Roula El-Rifai, 2007 The Palestinian refugee issue remains a central component of the Arab Israeli conflict This book explores the demographic and developmental challenges which the return of refugees to a future Palestinian state would generate **The Palestinian Refugee Problem** Rex Brynen, Roula El-Rifai, 2013-12-06 In this unique volume leading analysts from the Red Cross Middle East Institute and Refugee Affairs many of whom have been actively involved in past negotiations on this issue provide an overview of the key dimensions of the Palestinian refugee problem Mindful of the sensitive and contested nature of the subject none offers a single solution Instead each contribution summarises and synthesises the existing scholarly and governmental work on the topic Each paper develops an array of policy options for resolving various aspects of the refugee issue From moral acknowledgements of the plight of refugees to host countries repatriation and reparations each policy analysis is written to provide a broad menu of choices rather than a single narrow set of recommendations No other work on the Palestinian refugee issue has undertaken such a task **The Palestinian Refugee Problem The Search for a Resolution** is likely to be a pre eminent reference and analytical work on the topic for many years to come **Palestinian Refugees in International Law** Francesca Albanese, Lex Takkenberg, 2020 The Palestinian conflict has produced one of the most tragic refugee crises since World War II with the number of refugees caused by the violence associated with the creation of the State of Israel numbering around 11 million in 2011 The much lauded first edition in 1998 of *The Status of Palestinian Refugees in International Law* was the first book to comprehensively analyse the legal aspects of the Palestinian refugee crisis yet the last two decades have seen multiple developments New waves of conflict and displacement have affected Palestinian refugees in the Middle East and there has been Israeli encroachment on Palestinian territory Hamas has grown and a schism has formed within the first Palestinian government The so called Arab Spring has impacted the life fate and legal status of thousands of Palestinian refugees In international legal jurisprudence change has been similarly rapid In 2004 the International Court of Justice delivered a crucial advisory opinion on the Separation Wall authoritatively elucidating the international legal framework applicable to the Israeli occupation Numerous international human rights bodies and UN fact finding missions have added their analysis to the mix The possibility of the State of Palestine joining the International Criminal Court has spurred discussion relating to the applicability of international criminal law to Palestinian refugees Clear compelling and authoritative Lex Takkenberg and Francesca Albanese discuss the status quo both on the ground and in the courts and pose future scenarios to come Mapping Exile and Return Alain Epp Weaver, 2014 One of the most persistent if vexing issues facing not just theology but

also political theory sociology and other disciplines is the ongoing Palestinian Israeli conflict For theology the problem is especially nettlesome on account of the church s shared history and tradition with Israel Palestinians including Palestinian Christians bear the brunt of suffering and dispossession in the current situation yet are burdened even more by Christian political appropriation of Zionism Through an analysis of Palestinian refugee mapping practices for returning to their homeland Alain Epp Weaver takes up the troubled issue of Palestinian dispossession and argues against the political theology embedded in Zionist cartographic practices that refuse and seek to eliminate evidence of co existence Instead Alain Epp Weaver offers a political theology of redrawing the territory compatible with a bi national vision for a shared Palestinian Israeli future

Palestinian Refugees Naseer Aruri, 2001-07-20 With contributions from a range of international experts including Edward W Said Noam Chomsky Ilan Pappé Alain Gresh and Norman Finkelstein this collection examines the Palestinians right of return Chapters cover the historical roots of the Palestinian refugee question the rights of the refugees under international law the special case of Lebanon Israeli perceptions of the refugee question the practical feasibility of the return the role of the United States and the European Union and the Refugee Question the value of the refugee property the principles of compensation and a programme for an Independent Rights Campaign

Palestinian Refugees Rex Brynen, Roula El-Rifai, 2007 The Palestinian refugee issue remains a central component of the Arab Israeli conflict In this timely book bringing together the most cutting edge research from various disciplines Rex Brynen and Roula El Rifai explore the demographic and developmental challenges which the return of refugees to a future Palestinian state would generate As well as outlining the social conditions of Palestinian refugee populations the book addresses key practical questions such as how the repatriation of refugees would affect the Palestinian economy and how the international community can effectively support the repatriation of refugees In doing so the authors examine and draw lessons from repatriation experiences in other parts of the world The book provides a collection of world class research and analysis into this complicated problem at a critical moment in the Arab Israeli peace process and should form the foundation of any informed policies on the subject

Refugees Into Citizens Donna E. Arzt, 1997 Refugees into Citizens Palestinians and the End of the Arab Israeli Conflict a provocative and timely new book by Syracuse University international law professor Donna E Arzt offers an unprecedented blueprint for resolving what is often called the last taboo in the Arab Israeli peace negotiations a just and permanent solution to the problem of over three million Palestinian refugees This book represents the first comprehensive effort to place the inclusion and dignity of Palestinian refugees at the core of creating viable and lasting peace in the region Arzt blends traditional academic scholarship with a practical policy prescription the end of the Middle East conflict can only be achieved when all Palestinian refugees are offered dual citizenship compensation for lost property and or voluntary absorption options in either a future state of Palestine other Arab states in the region the broader international community or on family reunification grounds repatriation in Israel Arzt argues that compensation should be

based on a no fault assumption and that all involved parties share equal responsibility for refugee absorption *The Palestinian Refugees* Joseph Ginat, Edward Joseph Perkins, 2001 There has been little progress on the refugee problem because of official Palestinian public positions other Arab countries approach to the right of return of all Palestinian refugees and the contrasting Israeli public policy of not allowing any refugees to return to Israel Such polar opposite approaches can never resolve this difficult and longstanding humanitarian problem By working collectively the world s leading experts from Arab countries the Palestinian Authority Israel Europe and the United States have developed a chessboard of proposed solutions The volume in part reflects the polarization that exists on the issue and in part moves away from the political slogans of both sides toward concrete proposals for negotiating a comprehensive agreement **Palestinian Refugee**
