Palm Springs Weekend The Architecture And Design Of A Midcentury Oasis:

Palm Springs Weekend Andrew Danish, Alan Hess, 2001-02-01 This is the first book to reveal the eccentric treasure trove of commercial civic and domestic architecture that makes Palm Springs a true oasis of progressive design Not merely regarded as a Hollywood playground golf enclave or retirement mecca Palm Springs is also a bastion of idiosyncratic modernism that is unparalleled in the world Creating stunning homes and an impressive array of other buildings in the middle of the desert such masters as Albert Frey Richard Neutra John Lautner R M Schindler Donald Wexler and Lloyd Wright exercised their creative potential there Palm Springs Weekend explores everything from the grandiose such as Neutra's Kaufmann house to the more humble features of the city motels trailer homes and the ubiquitous metal and concrete sunscreens that shade them Filled with hundreds of archival and contemporary photographs elevations and vintage ephemera Palm Springs Weekend reveals an inimitable city where modern design Hollywood glamour and the desolate drama of the desert coalesce

The Palm Springs School: Desert Modernism 1934-1975 Alan Hess, 2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town's small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to reflect a region's culture economy and distinctive atmosphere Architects here responded to nature's climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography
