*Criminal Prosperity* Guilhem Fabre,2013-01-11 Drug trafficking is the most visible part of the profits of organized crime which have grown considerably since the end of the cold war The mirror of history shows us the impact of the drug trade in the colonization of Asia The post cold war geopolitical context reproduces elements of the past with new opportunities for drug trafficking in the globalization process as can be seen in the example of China and the lasting impunity in terms of money laundering With the growing role of offshore locations in the global financial system criminal prosperity has even affected the economic stability of some countries This book presents a new and heterodox interpretation of the post cold war financial crisis by focusing on the unexplored dimension of illicit actors The Mexican crisis of 1994 and its tequila effect is analyzed as a model of a cocaine effect from the local laundering of profits from the sale of drugs in the US The Japanese crisis of the 1990s is put in relation to the economic influence of the Yakuza on the real estate bubble which had the effect of postponing necessary market adjustments And the Thai crisis of 1997 is analyzed in the light of massive money laundering of institutional and criminal networks whose undeclared profits represent about 10% of GDP     *L'Amérique latine et l'histoire des sensibilités* ,2006     *Bibliographic Guide to Latin American Studies* Benson Latin American Collection,1981

**Caravelle: Cahiers du Monde Hispanique et Luso-Bresilien**, *Waiting Territories in the Americas*

Alain Musset, Laurent Vidal, 2016-09-23. Mobility and displacement are major characteristics of contemporary societies. These population shifts are far from fluid, homogeneous or linear, but are instead interspersed with a range of longer or shorter periods of waiting. Whether these intervals are technically, administratively or politically motivated, they are often understood in spatial terms. Waiting societies have a territorial dimension. This volume examines and assesses the many forms that waiting territories take in order to better understand their various juridical statuses, their relationships with their spatial environment and specific forms of temporality and the various economic and social relationships which they foster. The contributions primarily focus on the Americas because this continent is the product of the voluntary or forced displacement of various population groups that have themselves left their mark on the territories which they have appropriated. The book is divided into five parts: Part I, The Genealogy and Stakes of Waiting Situations, presents waiting as a state of mobility; Part II, When Waiting Defines a Territory, focuses on the spatial implications of situations of waiting; Part III, Social Practices and Spatial Dynamics in Waiting Territories, explores the ways in which people inhabit waiting territories; Part IV, Waiting Territories and the Challenges to Identity, examines the mutations of identity in situations of waiting; and Part V, The Memory, Heritage and Curation of Waiting Territories, looks at the way in which waiting territories can become the focus of heritage practices and the politics of memory.

Nonjon Alain, Billard Hugo (coordinateurs), 2018-07-24. Pour donner de l'épaisseur à ce nouveau programme ambitieux mais exaltant, les auteurs de cet ouvrage ont décidé de donner aux étudiants des moyens proportionnés à ces ambitions. Un unique volume qui couvre tout le programme de façon synthétique mais offrant un cours complet. Une équipe d'enseignants rodés au terrain de la préparation et la mise en avant des problématiques trois ou quatre par chapitre. Une maquette simple axée sur ce qu'il faut retenir, ce dont il faut débattre, ce qu'il faut hiérarchiser dans le temps des chronologies, pour ce qui doit être validé, chiffres clés, ce qui doit bien s'ancrer dans le lexique en fin d'ouvrage. Un souci constant de ne pas boucher sur une réflexion originale loin des clichés avec un rappel en fin de chapitre des idées relatives à certaines thématiques. Des bibliographies commentées et ciblées, un ouvrage indispensable à crypter des livres, des sites, des films. Une préparation explicite aux quatre types d'exercices demandés aux candidats : des cartes, croquis de synthèse conformes aux exigences des concours, des cartes commentées, des dissertations et des questions d'oral rigides et structurées.
