Congressional Record United States. Congress, 1979 *Anonymous in Their Own Names* Susan Henry, 2012-07-15 Anonymous in Their Own Names recounts the lives of three women who while working as their husbands uncredited professional partners had a profound and enduring impact on the media in the first half of the twentieth century With her husband Edward L Bernays Doris E Fleischman helped found and form the field of public relations Ruth Hale helped her husband Heywood Broun become one of the most popular and influential newspaper columnists of the 1920s and 1930s In 1925 Jane Grant and her husband Harold Ross started the New Yorker magazine Yet these women s achievements have been invisible to countless authors who have written about their husbands This invisibility is especially ironic given that all three were feminists who kept their birth names when they married as a sign of their equality with their husbands then battled the government and societal norms to retain their names Hale and Grant so believed in this cause that in 1921 they founded the Lucy Stone League to help other women keep their names and Grant and Fleischman revived the league in 1950 This was the same year Grant and her second husband William Harris founded White Flower Farm pioneering at that time and today one of the country s most celebrated commercial nurseries Despite strikingly different personalities the three women were friends and lived in overlapping immensely stimulating New York City circles Susan Henry explores their pivotal roles in their husbands extraordinary success and much more including their problematic marriages and their strategies for overcoming barriers that thwarted many of their contemporaries **New York City Directory** , 1916 The Armies of the Streets Adrian Cook, 2021-10-21 In July 1863 New York City experienced widespread rioting unparalleled in the history of the nation Here for the first time is a scholarly analysis of the Draft Riots dealing with motives and with the reasons for the

**Pulitzer's Gold** Roy J. Harris,2007 Examines the ninety year history of the Pulitzer Prize for Public Service awarded to newspapers Harris recalls many stories including the New York Times's Pentagon Papers exclusive the Watergate scandal that was uncovered by the Washington Post and coverage of Hurricane Katrina by the Times Picayune of New Orleans and the Sun Herald of Biloxi Mississippi Provided by publisher      *The Last Campaign* Zachary Karabell,2007-12-18 In *The Last Campaign* Zachary Karabell rescues the 1948 presidential campaign from the annals of political folklore Dewey Defeats Truman the Chicago Tribune memorably and erroneously heralded to give us a fresh look at perhaps the last time the American people could truly distinguish what the candidates stood for In 1948 Harry Truman the feisty working class Democratic incumbent was one of the most unpopular presidents the country had ever known His Republican rival the aloof Thomas Dewey was widely thought to be a shoe In These two major party candidates were flanked on the far left by the Progressive Henry Wallace and on the far right by white supremacist Dixiecrat Strom Thurmond *The Last Campaign* exposes the fascinating story behind Truman's legendary victory and turns a probing eye toward a by gone era of political earnestness when for the last time in this century an entire spectrum of ideologies was represented a time before television fundamentally altered the political landscape      **Journalism's Roving Eye** John Maxwell Hamilton,2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries From the colonial era when newspaper

printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism's Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead

*April 1945* Thomas Nelson, 2022-02-22 Acclaimed historian and New York Times bestselling author Craig Shirley delivers a compelling account of 1945 particularly the watershed events in the month of April that details how America emerged from World War II as a leading superpower In the long awaited follow up to the widely praised December 1941 Craig Shirley's April 1945 paints a vivid portrait of America her people faith economy government and culture The year of 1945 brought a series of watershed events that transformed the country into an arsenal of democracy one that no longer armed the world by necessity but henceforth protected the world by need At the start of 1945 America and the rest of the world were grieving millions of lives lost in the global conflict As President Roosevelt was sworn into his fourth term optimism over an end to the bloody war had grown then in April several events collided that changed the face of the world forever the sudden death of President Roosevelt followed by Harry S Truman's rise to office Adolph Hitler's suicide and the horrific discoveries of Dachau and Auschwitz Americans doubled down on their completion of the atomic bomb and their plans to drop them on Hiroshima and

Nagasaki the destruction ultimately leading the Japanese Empire to surrender on V J day and ending World War II for good Combining engaging anecdotes with deft research and details that are both diminutive and grand April 1945 gives readers a front row seat to the American stage at the birth of a brand new world **The Essential Book of Business and Life**

**Homesickness** Susan J. Matt,2014-04-17 Homesickness today is dismissed as a sign of immaturity what children feel at summer camp but in the nineteenth century it was recognized as a powerful emotion When gold miners in California heard the tune Home Sweet Home they sobbed When Civil War soldiers became homesick army doctors sent them home lest they die Such images don t fit with our national mythology which celebrates the restless individualism of colonists explorers pioneers soldiers and immigrants who supposedly left home and never looked back Using letters diaries memoirs medical records and psychological studies this wide ranging book uncovers the profound pain felt by Americans on the move from the country s founding until the present day Susan Matt shows how colonists in Jamestown longed for and often returned to England African Americans during the Great Migration yearned for their Southern homes and immigrants nursed memories of Sicily and Guadalajara and even after years in America frequently traveled home These iconic symbols of the undaunted forward looking American spirit were often homesick hesitant and reluctant voyagers National ideology and modern psychology obscure this truth portraying movement as easy but in fact Americans had to learn how to leave home learn to be individualists Even today in a global society that prizes movement and that condemns homesickness as a childish emotion colleges counsel young adults and their families on how to manage the transition away from home suburbanites pine for their old neighborhoods and companies take seriously the emotional toll borne by relocated executives and road warriors In the age of helicopter parents and boomerang kids and the new social networks that sustain connections across the miles Americans continue to assert the significance of home ties By highlighting how Americans reacted to moving farther and farther from their roots Homesickness An American History revises long held assumptions about home mobility and our national identity *The New York Times Book Review Index, 1896-1970: Subject index* ,1973
