**Michael Crichton** Michael Crichton, 1996-02-01      **Michael Crichton** Michael Crichton, 1996      Three Complete Novels Michael Crichton, 1994      **Michael Crichton Omnibus** Michael Crichton, 1996-10-25      **Next LP** Michael Crichton, 2006-11-28

Is a loved one missing some body parts  
Are blondes becoming extinct  
Is everyone at your dinner table of the same species  
Humans and chimpanzees differ in only 400 genes is that why a chimp fetus resembles a human being  
And should that worry us  
There s a new genetic cure for drug addiction is it worse than the disease  
We live in a time of momentous scientific leaps a time when it s possible to sell our eggs and sperm online for thousands of dollars and to test our spouses for genetic maladies  
We live in a time when one fifth of all our genes are owned by someone else and an unsuspecting person and his family can be pursued cross country because they happen to have certain valuable genes within their chromosomes  
Devilishly clever  
Next blends fact and fiction into a breathless tale of a new world where nothing is what it seems and a set of new possibilities can open at every turn  
Next challenges our sense of reality and notions of morality  
Balancing the comic and the bizarre with the genuinely frightening and disturbing  
Next shatters our assumptions and reveals shocking new choices where we least expect  
The future is closer than you think      **Sphere** Michael Crichton, 1988

A page turner  
Chichton s writing is cinematic with powerful visual images and nonstop action  
This book should come with hot buttered popcorn  
NEWSWEEK A group of American scientists are rushed to a huge vessel that has been discovered resting on the ocean floor in the middle of the South Pacific  
What they find defines their imaginations and mocks their attempts at logical explanation  
It is a spaceship of phenomenal dimensions apparently undamaged by its fall from the sky  
And most startling it appears to be at least three hundred years old  
The suspense is real

**Timeline** Michael Crichton, 1999

A new thriller by the best selling author combines suspense with the latest in scientific knowledge      Micro Michael Crichton, Richard Preston, 2011-11-22

In the vein of Jurassic Park this high concept thriller follows a group of graduate students lured to Hawaii to work for a mysterious biotech company only to find themselves cast out into the rain forest with nothing but their scientific expertise and wits to protect them  
In the lush forests of Oahu groundbreaking technology has ushered in a revolutionary era of biological prospecting feeding a search for priceless drugs and applications on a scale beyond anything previously imagined  
In Cambridge Massachusetts seven graduate students at the forefront of their fields are recruited by a pioneering microbiology start up Nanigen MicroTechnologies which dispatches the group to a mysterious lab in Hawaii  
But once in the rainforest the scientists are thrust into a hostile wilderness that reveals surprising dangers at every turn  
Armed only with their knowledge of the natural world they find themselves prey to a technology of radical and unbridled power  
An instant classic  
Micro pits nature against technology in vintage Michael Crichton fashion  
Completed by visionary science writer Richard Preston this boundary pushing thriller melds scientific fact with pulse pounding fiction to create yet another masterpiece of sophisticated cutting edge entertainment      Disclosure
