Michelangelo The Last Judgement A Glorious Restoration:

Michelangelo--the Last Judgment Loren W. Partridge, Gianluigi Colalucci, Fabrizio Mancinelli, 1997 Richly illustrated with over 150 colour photos showing the painting in its entirety and close up *Michelangelo* Loren Partridge, 2000-04-01 The newly cleaned and restored fresco painted on the wall of the Sistine Chapel in the Vatican is presented in all its powerful complexity and brilliant collars in this book The 150 color images show the work in both its entirety and in many splendid close up details *Michelangelo's Secret Anatomy Book* Sue Tatem, 2013-07-18 Michelangelo used images of human anatomy throughout his work Nearly the entire body is there albeit in pieces Michelangelo began his career with extensive dissections of human corpses and ended his career talking about illustrating an anatomy book He was hinting as the anatomy was already there in his art Perhaps at the time he made the art he worried that it was too dangerous for his own person to reveal the secular anatomy theme At the time Renaissance scholars were studying human anatomy and trying to work out how the organs functioned Many of them like Leonardo da Vinci and Vesalius self published using their art Herein are some of Michelangelo s self published contributions human anatomy in his art and self portraits in the Sistine Chapel paintings and sculpture *Human Creation Between Reality and Illusion* International Society for Phenomenology, Fine Arts, and Aesthetics. Conference, 2005-12-12 Formerly CIP Selected papers from the ninth annual Conference of the International Society of Phenomenology Fine Arts and Aesthetics **Michelangelo and the Viewer in His Time** Bernadine Barnes, 2017-04-15 Today most of us enjoy the work of famed Renaissance artist Michelangelo by perusing art books or strolling along the galleries of a museum and the luckier of us have had a chance to see his extraordinary frescoes on the ceiling of the Sistine Chapel But as Bernadine Barnes shows in this book even a visit to a well preserved historical sight doesn t quite afford the experience the artist intended us to have Bringing together the latest historical research she offers us an accurate account of how Michelangelo s art would have been seen in its own time As Barnes shows Michelangelo s works were made to be viewed in churches homes and political settings by people who brought their own specific needs and expectations to them Rarely were his paintings and sculptures viewed in quiet isolation as we might today in the stark halls of a museum Instead they were an integral part of ritual and ceremonies and viewers would have experienced them under specific lighting conditions and from particular vantages they would have moved through spaces in particular ways and been compelled to relate various works with others nearby Reconstructing some of the settings in which Michelangelo s works appeared Barnes reassembles these experiences for the modern viewer Moving throughout his career she considers how his audience changed and how this led him to produce works for different purposes sometimes for conventional religious settings but sometimes for more open minded patrons She also shows how the development of print and art criticism changed the nature of the viewing public further altering the dynamics between artist and audience Historically attuned this book encourages today s viewers to take a fresh look at this iconic artist seeing his work as they were truly meant to be seen

The Politics of Iconoclasm James Noyes, 2013-09-10 From false idols and graven images to the tombs of kings and the shrines of capitalism the targeted destruction of cities sacred sites and artefacts for religious political or nationalistic reasons is central to our cultural legacy This book examines the different traditions of image breaking in Christianity and Islam as well as their development into nominally secular movements and paints a vivid scholarly picture of a culture of destruction encompassing Protestantism Wahhabism and Nationalism Beginning with a comparative account of Calvinist Geneva and Wahhabi Mecca *The Politics of Iconoclasm* explores the religious and political agendas behind acts of image breaking and their relation to nationhood and state building From sixteenth century Geneva to urban developments in Mecca today *The Politics of Iconoclasm* explores the history of image breaking the culture of violence and its paradoxical roots in the desire for renewal Examining these dynamics of nationhood technology destruction and memory a historical journey is described in which the temple is razed and replaced by the machine

Michelangelo's Poetry and Iconography in the Heart of the Reformation Ambra Moroncini, 2017-04-07 Contextualizing Michelangelo's poetry and spirituality within the framework of the religious Zeitgeist of his era this study investigates his poetic production to shed new light on the artist's religious beliefs and unique language of art Author Ambra Moroncini looks first and foremost at Michelangelo the poet and proposes a thought provoking reading of Michelangelo's most controversial artistic production between 1536 and c 1550 *The Last Judgment* his devotional drawings made for Vittoria Colonna and his last frescoes for the Pauline Chapel Using theological and literary analyses which draw upon reformist and Protestant scriptural writings as well as on Michelangelo's own *rime spirituali* and Vittoria Colonna's spiritual lyrics Moroncini proposes a compelling argument for the impact that the Reformation had on one of the greatest minds of the Italian Renaissance It brings to light how in the second quarter of the sixteenth century in Italy Michelangelo's poetry and aesthetic conception were strongly inspired by the revived *theologia crucis* of evangelical spirituality rather than by the *theologia gloriae* of Catholic teaching

1997 Massimo Mastrogregori, 2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors

Paolo de Matteis Livio Pestilli, 2017-07-05 This volume represents a long overdue reassessment of the Neapolitan painter Paolo de Matteis an artist largely overlooked in English language scholarly publications but one who merits our attention for the quality of his work and the originality of its iconography as well as for his remarkable ability to respond creatively to his patrons aesthetic ideals and agendas Following a meticulous examination of the ways in which posterity's impression of de Matteis has been conditioned by a biased biographical and literary tradition Livio Pestilli devotes rich detailed analyses to the artist's most significant paintings and drawings More than just a novel

approach to de Matteis and the Neapolitan Baroque however the book makes a significant contribution to the study and understanding of early eighteenth century European art and cultural history in general not only in Naples but in other major European centers including Paris Vienna Genoa and Rome The Past is a Foreign Country - Revisited David
