The Discourse about Kurdishness and Indigeneity Aynur Unal, 2024-09-20. The Discourse About Kurdishness and Indigeneity: Kurdish Political Movement in Turkey presents a comprehensive analysis of the self-identified Kurdish identity within the Kurdish political movement in Turkey, adopting an indigenous perspective. The analysis is mainly focused on the parliamentary politics of three distinct periods in Turkey, including the inception of the Kurdistan Workers Party (PKK), the emergence of other pro-Kurdish political parties since the 1990s, and the parliamentary politics through the Peoples Democratic Party (HDP). In addition to the central perspective of indigeneity, the theoretical framework of the book, including internal colonialism and Orientalism within Orient perspectives, is also employed to critically investigate the relationship of post-colonial nation-states with multi-ethnic societies in the case of Turkey and the Kurdish struggle. The research consists of a mixed methods approach to explore the discourse on Kurdishness by analysing party programs, statements, and semi-structured interviews. The book utilises the Discourse Historical Approach to analyse data and provide an interpretation of the concept of indigeneity within the discourse on Kurdishness. It sheds new light on the Kurdish political movement and other indigenous peoples in Mesopotamia who were rendered invisible after the First World War due to the emerging political discourse in the Middle East.

The Coming Revolution Walid Phares, 2010-12-07. After the 9/11 Commission concluded in 2004 that the U.S. was engaged in a war with terrorists and never realized it, they reasoned that a failure of imagination had prevented us from seeing terrorism coming. In effect, Americans were simply unable or, in fact, disabled to fathom that there were people who hated and opposed our democracy with such ferocity. But after billions of dollars and almost a decade fighting a war in the Middle East, will we miss the threat again? With penetrating insight and candor, Walid Phares, Fox News terrorism and Middle East expert and a specialist in global strategies, argues that a fierce race for control of the Middle East is on, and the world's future may depend on the outcome. Yet not a failure of imagination, but rather of education, has left Americans without essential information on the real roots of the rising

Jihadi threat Western democracies display a dangerous misunderstanding of precisely who opposes democracy and why In fact the West ignores the wide and disparate forces within the Muslim world including a brotherhood against democracy that is fighting to bring the region under totalitarian control and crucially underestimates the determined generation of youth feverishly waging a grassroots revolution toward democracy and human rights As terror strikes widen from Manhattan to Mumbai and battlefields rage from Afghanistan to Iraq many tough questions are left unanswered or even explored Where are the anti Jihadists and the democrats in the Muslim world Does the Middle East really reject democracy Do the peoples of the region prefer the Taliban the Muslim Brotherhood or Hezbollah over liberals and seculars And is there really no genuine hope that freedom and democracy can prevail over the Islamist caliphate Phares explores how the free world can indeed win the conflict with the Jihadists but he says not by using the tactics policies and strategies it has employed so far He urges policy makers to first identify the threat and define its ideology or there will be no victory The Coming Revolution is a vital corrective step in the world s war against terrorism and essential reading that clearly and explosively illustrates the untold story of a struggle to determine if the Middle East can at last reach freedom in this century or if this planet can prevent the otherwise inevitable outcome that could change our social and political landscape forever The race is on *The Confrontation* Walid Phares,2008-03-18 In Future Jihad terrorism and Middle East expert Walid Phares gave a definitive account of the historical and cultural forces that led to September 11 and the rise of radical Islam In The War of Ideas he revealed the conflict of ideologies that underlie the War on Terror Now in The Confrontation he identifies the clashes to come and provides a blueprint for defeating the forces of jihad Moving from the ravaged villages of the Sudan to London s Muslim neighborhoods to the battlefields of Iraq and Afghanistan he illuminates the vast and complex world of the global jihadist movement He offers a multi pronged strategy global in scope and calls on the world s diverse local and international institutions to come together and coordinate their efforts Pointing the way forward this book shows how we might reclaim a world that is safe for freedom and democratic societies *Forgotten Millions* Malka Hillel Shulewitz,2000-10-27 Describes the situations of the long established Jewish communities of the Arab world the forces that led them to immigrate to Israel and the conditions that shaped their new lives in a Jewish state led by Jews of a different heritage **Conflict, Politics, and the Christian East** Christopher Rhodes,George Soroka,2021-11-29 This book brings a crucial perspective to the examination of religion and politics in the Middle East and North Africa MENA by focusing on the roles that Christian communities play in this region Acknowledging and exploring their political activity represents a much needed contribution to the MENA literature which overwhelmingly focuses on Islam Through a collection of country case studies utilizing a variety of analytic methods the contributors to this collection demonstrate how various Christian groups act as rational strategic political actors seeking to protect and promote the interests of their organizations and members The cases explored here elaborate upon how Christians in the MENA region navigate their minority status and respond to local ideas of

citizenship that often relegate them to second class status The chapters also examine how MENA Churches draw on transnational networks to augment their local political influence This volume is an important work for understanding contemporary politics in the MENA region and advances the study of religion s role in politics more generally The chapters in this book were originally published as a special issue of the journal Religion State and Society

the status and prospects of minority populations in the region The dramatic events of the past decade from the Arab Spring protests to the rise of the Islamic state have brought the status of these populations onto centre stage The overturn of various long term autocratic governments in states such as Tunisia Egypt Libya and Yemen and the ongoing threat to government stability in Syria Iraq and Lebanon have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change In the midst of the dramatic changes and latent armed conflict minority populations have been targeted marginalized and victimized Calls for social and political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future

Palestine's Christians and the Nationalist Cause Erik Freas,2024-12-23 This book provides an historical overview of Palestine s Christian communities and their role in the Palestinian nationalist movement during the late Ottoman and British mandatory periods More than being a history of Palestine s Christian Arabs the book focuses on Palestine s Christians during the formative period of Palestinian Arab national identity attentive to the broader topic of the relationship between nationalism and religion in this case between Arab identity and Islam Whereas until recently historians have tended to assume that national and religious identities are distinct and mostly mutually exclusive things more recent scholarship has addressed the fact that often there exists considerable overlap between the two though it should be noted often in ways that are not by any means inherently exclusive of those not belonging to the majority faith as is the case here The relationship is also an ever changing one hence the final chapter of the book which functions as something of an epilogue regarding the current status of Palestine s Christians vis vis their place in the nationalist cause and relationship with the broader Muslim population The book will be of interest to historians and scholars focused on the modern Middle East Palestinian history Muslim Christian inter communal relations and the relationship between nationalism and religion

Kurdistan in Iraq Aram Rafaat,2018-05-11 The Kurdish Iraqi conflict lies

in the fact that Kurdistan is a nation without a state and Iraq is a non nation state each possessing a nationhood project differing from and opposing the other Iraqi Kurdistan is an outward looking entity seeking external patronage Though external patronage has played a pivotal role in the evolution of the Kurdish quasi state a lack of positive patronage has prevented it from achieving independence This book looks at how the Kurdish and Iraqi quests for nationhood have led to the transformation of Iraqi Kurdistan into an unrecognised quasi state and the devolution of the Iraqi state into a recognised quasi state This is done by examining the protracted Iraqi Kurdish conflict and by analysing the contradictions and incompatibilities between the two different nationalisms Iraqi and Kurdish The author explains that Kurds as a nation without a state have their own nationhood project which is in opposition to the Iraqi nationhood project Each has its own identity loyalty and sovereignty The book answers the question as to how the Kurdish quest for nationhood has been treated by successive Iraqi regimes Furthermore it fills in the literary gaps which exist in relation to the Iraqi Kurdish conflict by specifying and categorising the cardinal conditions that drive ethnic and nationalist conflicts which lead to the creation of separatist entities Drawing upon a vast amount of untapped Kurdish and Arabic primary sources the book draws on prominent theories on nation states and quasi states It will particularly appeal to students and scholars of international relations political theory and Middle Eastern Studies **The Self-determination of Peoples** Wolfgang F.
