Saxon, 2015-08-06 To a large degree the story of Texas secession from Mexico has been undertaken by scholars of the state Early twentieth century historians of the revolutionary period most notably Eugene Barker and William Binkley characterized the conflict as a clash of two opposing cultures yet their exclusive focus on the region served to reinforce popular notions of a unique Texas past Disconnected from a broader historiography scholars have been left to ponder the most arcane details of the revolutionary narrative such as the circumstances of David Crockett s death and whether William Barret Travis really did draw a line in the sand In Contested Empire Rethinking the Texas Revolution five distinguished scholars take a broader transnational approach to the 1835-36 conflict The result of the 48th Annual Walter Prescott Webb Memorial Lectures held at the University of Texas at Arlington in March 2013 these essays explore the origins and consequences of the events that gave birth to the Texas Republic in ways that extend beyond the borders of the Lone Star State

The Race for America R. J. Boutelle, 2023-09-13 As Manifest Destiny took hold in the national consciousness what did it mean for African Americans who were excluded from its ambitions for an expanding American empire that would shepherd the Western Hemisphere into a new era of civilization and prosperity R J Boutelle explores how Black intellectuals like Daniel Peterson James McCune Smith Mary Ann Shadd Henry Bibb and Martin Delany engaged this cultural mythology to theorize and practice Black internationalism He uncovers how their strategies for challenging Manifest Destiny s white nationalist ideology and expansionist political agenda constituted a form of disidentification a deconstructing and reassembling of this discourse that marshals Black experiences as racialized subjects to imagine novel geopolitical mythologies and projects to compete with Manifest Destiny Employing Black internationalist hemispheric and diasporic frameworks to examine the emigrationist and solidarity projects that African Americans proposed as alternatives to Manifest Destiny Boutelle attends to sites integral to US aspirations of hemispheric dominion Liberia Nicaragua Canada and Cuba In doing so Boutelle offers a searing history of how internalized fantasies of American exceptionalism burdened the Black geopolitical imagination that encouraged settler colonial and imperialist projects in the Americas and West Africa

Slavery, Race, and Conquest in the Tropics Robert E. May, 2013-10-07 Slavery Race and Conquest in the Tropics challenges the way historians interpret the causes of the American Civil War Using Abraham Lincoln and Stephen Douglas s famed rivalry as a prism Robert E May shows that when Lincoln and fellow Republicans opposed slavery in the West they did so partly from evidence that slaveholders with Douglas s assistance planned to follow up successes in Kansas by bringing Cuba Mexico and Central America into the Union as slave states A skeptic about Manifest Destiny Lincoln opposed the war with Mexico condemned Americans invading Latin America and warned that Douglas s popular sovereignty doctrine would unleash US slaveholders throughout Latin America This book

internationalizes America's showdown over slavery shedding new light on the Lincoln Douglas rivalry and Lincoln's Civil War scheme to resettle freed slaves in the tropics **The Remarkable Rise of Eliza Jumel** Margaret A.

Oppenheimer,2015-11-01 Born Betsy Bowen into grinding poverty the woman who reinvented herself as Eliza Jumel was raised in a brothel indentured as a servant and confined to a workhouse when her mother was in jail Seizing opportunities and readjusting facts to achieve the security and status she so desperately craved she obtained a fortune from her first husband a French merchant and nearly lost it to her second the notorious vice president Aaron Burr Divorcing Burr promptly amid lurid charges of adultery she lived on triumphantly to the age of ninety astutely managing her property and public persona By the end of her life Madame Jumel was one of New York's richest women with servants of her own an art collection an elegant mansion a summer home in Saratoga Springs and several hundred acres of land After her death a titanic battle over her estate went all the way to the United States Supreme Court twice As the feud over her fortune riveted the nation family members told of a woman who earned the gratitude of Napoleon I and shone at the courts of Louis XVIII and Charles X Their opponents painted a different picture of a prostitute who bore George Washington's illegitimate son a wife who defrauded her husband and perhaps even plotted his death Now Eliza Jumel's real story so unique that it surpasses any invention has finally been told **'We Hold These Truths to Be Self-Evident...'** Kenneth N. Addison,2009-05-16 We hold

these truths to be self evident An Interdisciplinary Analysis of the Roots of Racism and Slavery in America delves into the philosophical historical socio cultural and political evolution of racism and slavery in America The premise of this work is that racism and slavery in America are the result of an unintentional historical intertwining of various Western philosophical religious cultural social economic and political strands of thought that date back to the Classical Era These strands have become tangled in a Gordian knot which can only be unraveled through the bold application of a variety of multidisciplinary tools By doing so this book is intended help the reader understand how the United States a nation that claims all men are created equal could be responsible for slavery and the intractable threads of racism and inequality that have become woven into its cultural the fabric The Ashgate Research Companion to Modern Imperial Histories John Marriott,2016-03-23

Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the

twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over

generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire **The Limits of Liberty** James David Nichols, 2018-07-01 The Limits of Liberty chronicles the formation of the U S Mexico border from the perspective of the mobile peoples who assisted in determining the international boundary from both sides in the mid nineteenth century In this historic and timely study James David Nichols argues against the many top down connotations that borders carry noting that the state cannot entirely dominate the process of boundary marking Even though there were many efforts on the part of the United States and Mexico to define the new international border as a limit mobile peoples continued to transgress the border and cross it with impunity Transborder migrants reimagined the dividing line as a gateway to opportunity rather than as a fence limiting their movement Runaway slaves Mexican debt peones and seminomadic Native Americans saw liberty on the other side of the line and crossed in search of greater opportunity In doing so they devised their own border epistemology that clashed with official understandings of the boundary These divergent understandings resulted in violence with the crossing of vigilantes soldiers and militias in search of fugitives and runaways The Limits of Liberty explores how the border attracted migrants from both sides and considers border crossers together whereas most treatments thus far have considered discrete social groups along the border Mining Mexican archival sources Nichols is one of the first scholars to explore the nuance of negotiation that took place between the state and mobile peoples in the formation of borders **Women in Texas History** Angela Boswell, 2018-10-15 Winner 2019 Liz Carpenter Award sponsored by the

Texas State Historical Association TSHA In recent decades a small but growing number of historians have dedicated their

tireless attention to analyzing the role of women in Texas history Each contribution and there have been many represents a brick in the wall of new Texas history From early Native societies to astronauts Women in Texas History assembles those bricks into a carefully crafted structure as the first book to cover the full scope of Texas women s history By emphasizing the differences between race and ethnicity Angela Boswell uses three broad themes to tie together the narrative of women in Texas history First the physical and geographic challenges of Texas as a place significantly affected women s lives from the struggles of isolated frontier farming to the opportunities and problems of increased urbanization Second the changing landscape of legal and political power continued to shape women s lives and opportunities from the ballot box to the courthouse and beyond Finally Boswell demonstrates the powerful influence of social and cultural forces on the identity agency and everyday life of women in Texas In challenging male dominated legal and political systems Texan women shaped and were shaped by class religion community organizations literary and artistic endeavors and more Women in Texas History is the first book to narrate the entire span of Texas women s history and marks a major achievement in telling the full story of the Lone Star State Historians and general readers alike will find this book an informative and enjoyable read for anyone interested in the history of Texas or the history of women
