Missing Bodies Monica Casper, Lisa Jean Moore, 2009-07-01 We know more about the physical body how it begins how it responds to illness even how it decomposes than ever before Yet not all bodies are created equal some bodies clearly count more than others and some bodies are not recognized at all In *Missing Bodies* Monica J Casper and Lisa Jean Moore explore the surveillance manipulations erasures and visibility of the body in the twenty first century The authors examine bodies both actual and symbolic in a variety of arenas pornography fashion sports medicine photography cinema sex work labor migration medical tourism and war This new politics of visibility can lead to the overexposure of some bodies Lance Armstrong Jessica Lynch and to the near invisibility of others dead Iraqi civilians illegal immigrants the victims of HIV AIDS and natural disasters *Missing Bodies* presents a call for a new engaged way of seeing and recovering bodies in a world that routinely often strategically obscures or erases them It poses difficult even startling questions Why did it take so long for the United States media to begin telling stories about the falling bodies of 9 11 Why has the United States government refused to allow photographs or filming of flag draped coffins carrying the bodies of soldiers who are dying in Iraq Why are the bodies of girls and women so relentlessly sexualized By examining the cultural politics at work in such disappearances and inclusions of the physical body the authors show how the social medical and economic consequences of visibility can reward or undermine privilege in society

Standards, Emergence, and Complex Outcomes D. Linda Garcia, 2025-07-16 *Standards Emergence and Complex Outcomes* redefines how we think about standards framing them as interfaces that govern interactions and connect causes to their effects Expanding beyond traditional technical and geopolitical discussions Garcia introduces a fresh theoretical perspective that positions standards as central to understanding complexity From food safety and workplace regulations to standardized parts in manufacturing and our reliance on technology standards shape nearly every aspect of modern life By proposing a multidimensional approach Garcia argues that standards are the mechanisms driving change complexity is the backdrop for this change emergence is the process by which change unfolds and evolution is its ultimate outcome Each chapter explores key elements of complexity theory and supports them with compelling historical and empirical examples providing a richly detailed narrative that deepens understanding This book is an essential resource for academics and students across the social sciences policymakers shaping standards dependent fields and professionals in industries where standards dictate progress Whether you're exploring the intersections of technology governance and

complexity or looking to better navigate the systems shaping our world this book offers vital insights into the pivotal role of standards in our increasingly interconnected society **The "Missing Middle" in Sub-Saharan Africa** Raj Sharma,1993

Missing Priests Alice Hunt,2006-10-01 This is a study of one priesthood of Ancient Israel the Zadokites and its role in the social historical cultural and religious lives of the ancient Israelites It also provides a foundation for studies of priesthood s in ancient Israel

Plato's Timaeus and the Missing Fourth Guest Donna M. Altimari Adler,2019-12-02 In Plato s Timaeus and the Missing Fourth Guest Donna M Altimari Adler proposes a new Timaeus scale structure She finds the harmonic cosmos mathematically at 35 A 36 D regarding the text as a number generator Plato s primary number sequence she argues yields a matrix defining a sophisticated harmony of the spheres She stresses the Decad as the pattern governing both human perception and the generation of all things in the Timaeus including the World Soul and musical scale symbolizing it She precisely identifies Plato s fabric and its locus of severance and solves other thorny problems of textual interpretation

The Missing Spanish Creoles John McWhorter,2000-07-03 A controversial new analysis of the development of New World creole languages among slaves Mc Whorter makes a vast amount of new data available in his book and posits that New World creole languages developed in West Africa not on the plantations in the New World

The Future of Complexity Peter Baofu,2007 Contrary to the conventional wisdom held by many contemporaries in our time the popularity of studying complexity is fast becoming a new fad in the intellectual scene However can the study of complex phenomena truly reveal recognizable patterns with predictable outcomes to enhance our understanding of reality especially when it is embedded within the messy web of complexity If so what then are the limits This book strives to demolish some of the myths surrounding the nature of complexity and in the process to provide an original theory to understand it in this world and beyond It introduces the author s dialectic theory of complexity together with the theoretical debate in the literature It expounds on the concept of complexity from various perspectives including chemistry micro and macro physics biology and psychology It also examines the nature of complexity from societal and cultural perspectives This book presents a broad view on the nature of complexity adequately introducing the reader to this emerging field

Radical Emergent Theology: An Evangelical Response Raymond Hundley Ph.D.,2019-12-11 What is Radical Emergent Theology Who leads it What does it teach What are its goals Why is it so revered by some and so reviled by others How do evangelical theologians evaluate it Cambridge scholar Dr Raymond C Hundley after three years of painstaking research has published a work that clearly and truthfully answers those questions Hundley has brought to bear his fifty years of experience studying and teaching theology and world religions to the meticulous study of Radical Emergent Theology founder and spokesman Brian D McLaren s prolific writings The result is a readable work that will inform laypeople students seminarians pastors church leaders and theologians about McLaren s radical views on inspiration conversion evangelism missions heaven and hell homosexuality atonement miracles evolution eschatology his famous pick and choose exegesis and much more This book is destined to

become the classic revelation of the methods beliefs and goals of Radical Emergent Theology It will make the choice between this theological revolution and evangelical biblical doctrine crystal clear so that informed readers can make their own decision *An Awareness of What is Missing* Jürgen Habermas, 2014-11-06 In his recent writings on religion and secularization Habermas has challenged reason to clarify its relation to religious experience and to engage religions in a constructive dialogue Given the global challenges facing humanity nothing is more dangerous than the refusal to communicate that we encounter today in different forms of religious and ideological fundamentalism Habermas argues that in order to engage in this dialogue two conditions must be met religion must accept the authority of secular reason as the fallible results of the sciences and the universalistic egalitarianism in law and morality and conversely secular reason must not set itself up as the judge concerning truths of faith This argument was developed in part as a reaction to the conception of the relation between faith and reason formulated by Pope Benedict XVI in his 2006 Regensburg address In 2007 Habermas conducted a debate under the title *An Awareness of What Is Missing* with philosophers from the Jesuit School for Philosophy in Munich This volume includes Habermas's essay the contributions of his interlocutors and Habermas's reply to them It will be indispensable reading for anyone who wishes to understand one of the most urgent and intractable issues of our time

Missing Class Betsy Leondar-Wright, 2014-03-20 Many activists worry about the same few problems in their groups low turnout inactive members conflicting views on racism overtalking and offensive violations of group norms But in searching for solutions to these predictable and intractable troubles progressive social movement groups overlook class culture differences In *Missing Class* Betsy Leondar Wright uses a class focused lens to show that members with different class life experiences tend to approach these problems differently This perspective enables readers to envision new solutions that draw on the strengths of all class cultures to form the basis of stronger cross class and multiracial movements The first comprehensive empirical study of US activist class cultures *Missing Class* looks at class dynamics in 25 groups that span the gamut of social movement organizations in the United States today including the labor movement grassroots community organizing and groups working on global causes in the anarchist and progressive traditions Leondar Wright applies Pierre Bourdieu's theories of cultural capital and habitus to four class trajectories lifelong working class and poor lifelong professional middle class voluntarily downwardly mobile and upwardly mobile Compellingly written for both activists and social scientists this book describes class differences in paths to activism attitudes toward leadership methods of conflict resolution ways of using language diversity practices use of humor methods of recruiting and group process preferences Too often we miss class *Missing Class* makes a persuasive case that seeing class culture differences could enable activists to strengthen their own groups and build more durable cross class alliances for social justice **Examining Perspectives of Small-to-Medium Powers in Emergent Great Power Competition** Philip M. Baxter, 2025-09-29 This book delves into the resurgence of China and Russia as assertive regional powers igniting debates and renewed interest in the dynamics of great

power politics and power transitions The questions of how competition with these states will evolve and what the future international system may resemble given their potential regional dominance are at the forefront of global concerns in the coming decades As power politics intensify the significance of allies and alliance systems escalates becoming critical tools for states seeking to navigate this rising great power competition effectively *Generative Emergence* Benyamin B.

Lichtenstein,2014 *Generative Emergence* provides insight into the non linear dynamics that lead to organizational emergence through the use of complexity sciences The book explores how the model of Generative Emergence could be applied to enact emergence within and across organizations The Missing Girls and Women of China, Hong Kong and Taiwan Hua-Lun

Huang,2014-01-10 In the past century tens of millions of women and girls have disappeared in China Hong Kong and Taiwan There are many reasons the women variously were sold as foreign spouses imprisoned for their political beliefs taken to night clubs or massage parlors to work as escorts provided as comfort women to soldiers or murdered by female corpse dealers and sold as ghost brides to families looking to give their deceased sons wives in the afterlife The youngest girls fell victim to infanticide the tragic result of a one child law in a male dominated society As a result of the gender imbalance these disappearances created countless young males now suffer from the marriage squeeze remaining single without families of their own This sociological study explores the institutional factors develops a typology for these populations and lays a foundation for the examination of lost populations in the future **Still Missing** Susan Ware,1994 An analysis of Amelia

Earhart s life as part of the history of women and American feminism **Memory Curators and Memory Archivists in the Digital Memory Age** Andrew McFadzean,2023-07-11 This book centres around the reinvention of the traditional roles of librarian and archivist in the digital age exploring their position as memory makers and curators The author details the skillsets and methods available to them for the purpose of identifying collecting selecting refining reducing and summarising a flood of data into useful business information through the eSARS process Then the author describes the skills and concepts used by recordkeepers when dealing with the curated information so that only valued business information is selected registered protected and accessed Acknowledging the influence of our current climate crisis the book details the evolution from paper based corporate knowledge to digital human collective intelligence This book relies heavily on the systems analysis concepts of recordkeeping informatics such as information culture the records continuum metadata business processes and access This book combines the artistic science of curation with the science of digital recordkeeping to assume control over information in the Digital Memory Age **Emergent Design** Scott Bain,2008-02-27 For software to

consistently deliver promised results software development must mature into a true profession Emergent Design points the way As software continues to evolve and mature software development processes become more complicated relying on a variety of methodologies and approaches This book illuminates the path to building the next generation of software Author Scott L Bain integrates the best of today s most important development disciplines into a unified streamlined realistic and
