## **Petrarch And His World:**

**Petrarch and His World** Morris Bishop, 1963      Petrarch and His World Morris Bishop, 1973      *Marsilio Ficino and His World* Sophia Howlett, 2016-08-27 This book makes the case for Marsilio Ficino a Renaissance philosopher and priest as a canonical thinker and provides an introduction for a broad audience Sophia Howlett examines him as part of the milieu of Renaissance Florence part of a history of Platonic philosophy and as a key figure in the ongoing crisis between classical revivalism and Christian belief The author discusses Ficino's vision of a Platonic Christian universe with multiple worlds inhabited by angels daemons and pagan gods as well as our own distinctive role within that universe climbing the heights to talk with angels yet constantly confused by the evidence of our own senses Ficino as the new Socrates suggests to us that by changing ourselves we can change our world      *Petrarch and His World* Martin J. Bishop, 1964      Adapted Brains and Imaginary Worlds Donald Beecher, 2016-03-01 In *Adapted Brains and Imaginary Worlds* Donald Beecher explores the characteristics and idiosyncrasies of the brain as they affect the study of fiction He builds upon insights from the cognitive sciences to explain how we actualize imaginary persons read the clues to their intentional states assess their representations of selfhood and empathize with their felt experiences in imaginary environments He considers how our own faculty of memory in all its selective particularity and planned oblivion becomes an increasingly significant dimension of the critical act and how our own emotions become aggressive readers of literary experience culminating in states which define the genres of literature Beecher illustrates his points with examples from major works of the Renaissance period including *Dr Faustus* *The Faerie Queene* *Measure for Measure* *The Yorkshire Tragedy* *Menaphon* *The Dialogue of Solomon and Marcolphus* and *The Moral Philosophy of Doni* In this volume studies in the science of mind come into their own in explaining the architectures of the brain that shape such emergent properties as empathy suspense curiosity the formation of communities gossip rationalization confabulation and so much more that pertains to the behaviour of characters the orientation of readers and the construction of meaning Discussing a breadth of topics from the mysteries of the criminal mind to the psychology of tears *Adapted Brains and Imaginary Worlds* is the most comprehensive work available on the study of fictional worlds and their relation to the constitution of the human brain      **The Nature of Love, Volume 2** Irving Singer, 2009-02-20 An examination of ideas and ideals of medieval courtly love and the transition into later Romantic love analyzing the work of Dante Shakespeare and Schopenhauer among many others Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the second volume Singer studies the ideas and ideals of medieval courtly love and nineteenth century Romantic love as well as the transition between these two perspectives According to the traditions of courtly love in the twelfth century and thereafter not only God but also human beings in themselves are capable of authentic love The pursuit of love between man and woman was

seen as a splendid ideal that ennobles both the lover and the beloved It was something more than libidinal sexuality and involved sophisticated and highly refined courtliness that emulated religious love in its ability to create a holy union between the participants Adherents to Romantic love in later centuries affirmed the capacity of love to effect a merging between two people who thus became one Singer analyzes the transition from courtly to Romantic by reference to the writings of many artists beginning with Dante and ending with Richard Wagner as well as Neoplatonist philosophers of the Italian Renaissance Descartes Spinoza Rousseau Hume Kant Hegel and Schopenhauer In relation to romanticism itself he distinguishes between two aspects benign romanticism and Romantic pessimism that took on renewed importance in the twentieth century

**Petrarch and His World. Drawings by Alison Mason Kingsbury** Morris Bishop, 1963 **The Theological Origins of Modernity** Michael Allen Gillespie, 2010-10-21 Taking as his starting point the collapse of the medieval world Gillespie argues that from the very beginning moderns sought not to eliminate religion but to support a new view of religion and its place in human life and that they did so not out of hostility but in order to sustain certain religious beliefs He goes on to explore the ideas of such figures as William of Ockham Petrarch Erasmus Luther Descartes and Hobbes showing that modernity is best understood as the result of a series of attempts to formulate a new and coherent metaphysics or theology

**Republic of Noise** Diana Senechal, 2012 In this book Diana Senechal confronts a culture that has come to depend on instant updates and communication at the expense of solitude Schools today emphasize rapid group work and fragmented activity not the thoughtful study of complex subjects The Internet offers contact with others throughout the day and night we lose the ability to be apart even in our minds Yet solitude plays an essential role in literature education democracy relationships and matters of conscience Throughout its analyses and argument the book calls not for drastic changes but for a subtle shift an attitude that honors solitude without descending into dogma Provided by publisher [The World's Greatest Literature](#), 1900 *The Encyclopedia of Christian Literature* George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years The Encyclopedia of Christian Literature is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical essays describing the principal writers and their works These essays examine the evolution of Christian thought as reflected in the literature of every age The
