Cet ouvrage présente ainsi une analyse critique de la façon dont la théorie de l'agir communicationnel développée par Habermas s'arrime à une étude macro et microsociologique de l'éducation soit une analyse de l'organisation politique économique et idéologique des systèmes éducatifs occidentaux depuis la modernité puis une analyse intime et située des rouages de l'activité éducative entre l'enseignant et l'élève. Dès lors comment refléter la situation actuelle dans la pensée habermassienne en profitant de ses apports tout en mettant en lumière les impasses qu'elle représente notamment pour le développement du potentiel critique et communicationnel de l'enfant. Autrement dit comment penser l'éducation contemporaine avec et contre Habermas.
