*Persuasion unter Komplexitätsbedingungen* Tobias Schmohl, 2015-10-27 Tobias Schmohl befasst sich anhand einer grundlagentheoretisch

konzeptuellen Analyse mit dem rhetorischen Steuerungsbegriff auf dem das klassische fundamentalrhetorische Persuasionsparadigma aufbaut. Er arbeitet zunächst die Basisprinzipien heraus, die für dieses Konzept konstitutiv sind, um den eingeschränkten Geltungsbereich der traditionellen Persuasionsvorstellungen sowie die konzeptionellen Limitationen der implizierten Steuerungskonzeption angesichts kommunikativer Komplexitätsbedingungen aufzuzeigen. Vor dem Hintergrund der autopoietischen Systemtheorie werden Anschlussstellen für eine konzeptionelle Erweiterung des rhetorischen Steuerungskonzepts identifiziert und Orientierungshypothesen für eine programmatische Neuformulierung der rhetorischen Persuasionskategorie mit Blick auf Kommunikationssettings der modernen Gesellschaft abgeleitet.

*CCCC Bibliography of Composition and Rhetoric 1990* Erika Lindemann, 1991-12-30. Published for the Conference on College Composition and Communication. This 1990 volume lists and annotates 1,849 articles, books, dissertations, and papers. A group of 136 contributing bibliographers prepared the citations and annotations for all entries. The volume includes an index of authors and editors and cross references entries according to subject matter. Entries appear under five major categories: bibliographies and checklists, theory and research, teacher education, administration and social roles, curriculum and testing, measurement and evaluation.

**Persuasive Communication** James Brian Stiff, Paul A. Mongeau, 2002-10-18. This popular text provides a comprehensive introduction to the study of persuasive messages and their effects. Concepts and methods from communication and social psychology are seamlessly integrated to give students a solid grasp of foundational issues in persuasion research, the core features of persuasive transactions, and major models of persuasive communication. Distinguished by its clear organization and wealth of concrete examples, this is an ideal text for advanced undergraduate and graduate level courses for students with a basic understanding of quantitative research methods.

*Persuasion* Daniel J. O'Keefe, 2015-02-18. *Persuasion Theory and Research*, Third Edition, is a comprehensive overview of social scientific theory and research on persuasion. Written in a clear and accessible style that assumes no special technical background in research methods, the Third Edition has been thoroughly revised to reflect developments in persuasion studies. New discussions of subjects such as reactance and the use of narratives as vehicles for persuasion, revised treatments of the theories of reasoned action and planned behavior, and two new chapters on social judgment theory and stage models provide your students with the most current work on persuasion in a clear, straightforward manner. In this edition, author Daniel J. O'Keefe has given special attention to the importance of adapting/tailoring messages to audiences to maximize persuasiveness. Each chapter has a set of review questions to guide students through the chapter's material and quickly master the concepts being introduced.

**QUARTERLY JOURNAL OF SPEECH** FEBRUARY 1970 Volume LVI Number 1, 1970 Cognitive Responses in Persuasion Richard Petty, T. M. Ostrom, T. C. Brock, 2014-06-17. First published in 1982, this collaborative product of leading contributors seeks to update information on the psychology of attitudes, attitude change, and persuasion. Social psychologists have invested almost exclusively in the strategies of theory testing in the laboratory, in contrast with qualitative or clinical

observation and the present book both exemplifies and reaps the products of this mainstream tradition of experimental social psychology It represents experimental social psychology at its best It does not try to establish contact with the content oriented strategies of survey research which have developed in regrettable independence of the laboratory study of persuasion processes      *Catalog* University of Colorado Boulder,2006      *Annales de droit de Louvain* ,2004

Bibliographic Guide to Psychology New York Public Library. Research Libraries,1990      *Building Communication Theory* Dominic A. Infante,Andrew S. Rancer,Deanna F. Womack,1990 This text is organized so that students learn the process of theory building the authors provide a framework for theory building by offering a solid foundation for three approaches to understanding communication      *American Learned Men and Women with Czechoslovak Roots* Mila Rechcigl,2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That s what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i e Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical ground without regards to their native language or ethical background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective
