Paul Reeve, 2015-01-30 Mormonism is one of the few homegrown religions in the United States one that emerged out of the religious fervor of the early nineteenth century Yet members of the Church of Jesus Christ of Latter day Saints have struggled for status and recognition In this book W Paul Reeve explores the ways in which nineteenth century Protestant white America made outsiders out of an inside religious group Much of what has been written on Mormon otherness centers upon economic cultural doctrinal marital and political differences that set Mormons apart from mainstream America Reeve instead looks at how Protestants racialized Mormons using physical differences in order to define Mormons as non White to help justify their expulsion from Ohio Missouri and Illinois He analyzes and contextualizes the rhetoric on Mormons as a race with period discussions of the Native American African American Oriental Turk Islam and European immigrant races He also examines how Mormon male female and child bodies were characterized in these racialized debates For instance while Mormons argued that polygamy was ordained by God and so created angelic celestial and elevated offspring their opponents suggested that the children were degenerate and deformed The Protestant white majority was convinced that Mormonism represented a racial not merely religious departure from the mainstream and spent considerable effort attempting to deny Mormon whiteness Being white brought access to political social and economic power all aspects of citizenship in which outsiders sought to limit or prevent Mormon participation At least a part of those efforts came through persistent attacks on the collective Mormon body ways in which outsiders suggested that Mormons were physically different racially more similar to marginalized groups than they were white Medical doctors went so far as to suggest that Mormon polygamy was spawning a new race Mormons responded with aspirations toward whiteness It was a back and forth struggle between what outsiders imagined and what Mormons believed Mormons ultimately emerged triumphant but not unscathed Mormon leaders moved away from universalistic ideals toward segregated priesthood and temples policies firmly in place by the early twentieth century So successful were Mormons at claiming whiteness for themselves that by the time Mormon Mitt Romney sought the White House in 2012 he was labeled the whitest white man to run for office in recent memory Ending with reflections on ongoing views of the Mormon body this groundbreaking book brings together literatures on religion whiteness studies and nineteenth century racial history with the history of politics and migration **Army**, 1983 **Florence** Touring club italiano, 1999 For over a century the Touring Club of Italy has been publishing the country's most authoritative guidebooks and maps The Heritage Series is the expert's guide to travel and sightseeing in Italy Each volume includes museums town histories churches landmarks and archaeological sites There are dozens of maps that give an overview of each city plus detailed neighborhood plans Listings of
