Shadow of a Mouse Donald Crafton, 2012-11-05 Donald Crafton's lively guide shows us around a Tooniverse populated by performers not just images who engage us in all the ways their flesh and blood counterparts do, and then some. Taking classical animation as his terrain, Crafton nevertheless pushes ongoing discussions of performance, liveness and corporeality in the directions in which they need to go if they are to help us describe and navigate our increasingly virtual worlds. Philip Auslander, author of *Liveness: Performance in a Mediatized Culture*. Every once in a while a book comes along that marks a transformational point in its discipline. Such a book is Donald Crafton's *Shadow of a Mouse*. Crafton skillfully draws together theoretical sources, animation history, technological development and social analysis, deftly weaving together thinkers from Disney to Deleuze and Sito to Stanislavsky. The result is a substantial rethinking of animation that will

reshape traditional approaches to the medium Crafton's magisterial grasp of theory and history is livened by a true fan's passion for the subject and a keen sense of humor *Shadow of a Mouse* is a must read for anyone with an interest in performance embodiment popular culture race or reception Mark Langer Associate Professor of Film Studies Carleton University
