eighty eight children in the United States is being diagnosed with developmental disorders on the autism spectrum ASD The accelerating ASD epidemic parallels industry s increased use of untested chemicals in manufacturing and our food supply Preventing Autism identifies the toxic environmental triggers that can cause autism in susceptible children Dr Gordon presents a practical plan for safeguarding the neurological development of your children from pre pregnancy preparation through your baby s first twenty four months When you are pregnant everything you experience the air you breathe what you eat and drink the chemicals to which you are exposed your emotions is shared with your baby Your child s health depends on creating an optimal environment for growth before and after birth Preventing Autism presents a comprehensive program that covers The latest research on the causes of ASD and the relationship between genetic factors and toxins that trigger developmental delays How to reduce toxic exposure from your food home clothing and cleaning and personal care products The male biological clock Recent research shows that mutations in older sperm contribute significantly to the incidence of autism The book includes advice on keeping sperm healthy Planning a nursery that is a healthy nest Dietary guidance for moms to be babies and nursing mothers Dr Gordon s sensible approach to decisions about vaccinations Preventing Autism offers a plan for eliminating harmful chemicals from your everyday life that can disrupt the development of your baby Dr Gordon believes we can combat autism one family at a time **Knack Healthy Snacks for Kids** Amy Wilensky,2010-06-15 Knack Healthy Snacks for Kids gives step by step information about snacks and snacking that also includes lunches and meals on the go for kids from toddler age to teens *Big Green Purse* Diane Maceachern,2008-02-28 Read Diane McEachern s posts on the Penguin Blog Protecting our environment is one of the biggest issues facing our planet today But how do we solve a problem that can seem overwhelming even hopeless As Diane MacEachern argues in *Big Green Purse* the best way to fight the industries that pollute the planet thereby changing the marketplace forever is to mobilize the most powerful consumer force in the world women MacEachern s message is simple but revolutionary If women harness the power of their purse and intentionally shift their spending money to commodities that have the greatest environmental benefit they can create a cleaner greener world Spirited and informative this book targets twenty commodities cars cosmetics coffee food paper products appliances cleansers and more where women s dollars can make a dramatic difference provides easy to follow guidelines and lists so women can choose the greenest option regardless of what they re buying along with recommended companies they should support encourages women to spend wisely by explaining what s worth the premium price some green products cost what s not and when they shouldn t spend money at all and differentiates between products that are actually green and those that are simply marketed as ecofriendly Whether readers want to start with small changes or are ready to devote the majority of their budget to green products MacEachern offers concrete and immediate ways that women can take action and make a difference Empowering and enlightening *Big Green Purse* will become the green shopping bible for women everywhere who are asking What can I do **SuperBaby** Jenn Mann,2010-09-07 The first three

years of life are the most important for nurturing a child's full potential that's when they start forming attachments developing a sense of self and learning to trust. During this time there are critical windows of opportunity that parents can take advantage of if they know how. In a dozen succinct yet information-packed chapters, award-winning columnist and professional therapist Dr. Jenn Berman gives parents the knowledge they need. Her enlightening sidebars, bulleted lists, and concrete easy-to-use strategies will help parents raise happy, healthy babies who grow to be flourishing toddlers and successful adults.

The Poisoning of Our Children Keeley Christine Drotz, Keeley C. Drotz, 2012. Children born today will live shorter lives than their parents and grandparents because of the obesity epidemic in America. Despite heightened awareness of the problem and advances in healthcare, present strategies are not working to reverse the trend. This book aims to honestly answer questions currently weighing on the minds of many parents: How can I prevent or reverse obesity in my child or adolescent? How do I ensure that my child will not become obese during his or her lifetime? Written by a registered dietitian and mother, *The Poisoning of Our Children* contains practical advice that can be incorporated into a family's daily life immediately. Based on credible research, it gives parents the knowledge and tools they need for raising healthy children from the start. And it provides pediatricians and health professionals with the evidence they need when working with families. This book goes beyond the obvious problems of unhealthy eating and lack of physical activity; it closely examines the roles of modern-day American culture and lifestyle habits. Rather than offering a list of do's and don'ts, the emphasis is on developing healthy habits to last a lifetime.

Essential Baby Organizer Dani Rasmussen, Antoinette Perez, 2008-06. Written by two busy mothers and intended at the modern mum, this title features tabs that provide access to checklists, forms, and questionnaires to help manage the details of pregnancy and the first months at home. It helps parents track the important details and memorable events in a baby's first year.
