Petrarch's War William Caferro, 2018-05-03 This revisionist account of the economic literary and social history of Florence in the immediate aftermath of the Black Death connects warfare with the plague narrative Organised around Petrarch's war against the Ubaldini clan of 1349-1350 which formed the prelude to his meeting and friendship with Boccaccio William Caferro's work examines the institutional and economic effects of the war alongside literary and historical patterns Caferro pays close attention to the meaning of wages in context including those of soldiers thereby revising our understanding of wage data in the distant past and highlighting the consequences of a constricted workforce that resulted in the use of cooks and servants on important embassies Drawing on rigorous archival research this book will stimulate discussion among academics and offers a new contribution to our understanding of Renaissance Florence It stresses the importance of short termism and contradiction as subjects of historical inquiry

Augustinian Theology in the Later Middle Ages Eric Leland Saak, 2021-12-13 The culmination of thirty years of research Eric Leland Saak's *Augustinian Theology in the Later Middle Ages* offers a comprehensive new interpretation of late medieval Augustinianism The first of a two volume work the present book sets the stage and analyzes the conceptual and methodological structures requisite for interpreting the reception of Augustine in the later Middle Ages historically together with explicating the first two of the four pillars of Augustinian theology the Augustinian Hermits political theology the teaching in the Order's schools the Order's university theology and its moral theology Holistically fused with the Order's religious identity these distinct yet interconnected components of Augustinian theology rather than a narrow theologically defined anti-Pelagianism provided the context for the emergence of the Reformation Pangs of Love and Longing Anders Cullhed, Carin Franzén, Anders Hallengren, 2014-10-16 The complex relationship between psychic structures social norms and aesthetic representations is a challenge for every analysis of the historical manifestations of human desire *Pangs of Love and Longing Configurations of Desire in Premodern Literature* sets out to provide a deeper understanding of this relation by an

assessment of linguistic and artistic configurations of desire in European literature from Antiquity to the Early Modern period The aim is to explore historic continuities and ruptures in attitudes towards sexuality pleasures and bodies as these are represented in a variety of cultural forms in order to demonstrate the plurality of premodern desire and ultimately to offer fresh perspectives on our present reality The seventeen scholars participating in the anthology bring together theories and assessments from different areas of the Humanities German French Italian Spanish English and Comparative Literature History of Ideas and of Art Theology Philosophy and Gender Studies They are all engaged in cross disciplinary activities at universities in Sweden Norway and Denmark and they all participate in the Scandinavian network Configurations of Desire in Premodern Literature initiated in 2010

Petrarch and St. Augustine Alexander Lee, 2012-03-02 Despite the high regard in which Francesco Petrarca 1304-74 held St Augustine scholars have been inclined to view Augustine's impact on the content of Petrarch's thought rather lightly Wedded to the ancient classics and prioritising literary imitation over intellectual coherence Petrarch is commonly thought to have made inconsistent use of St Augustine's works Adopting an entirely fresh approach however this book argues that Augustine's early writings consistently provided Petrarch with the conceptual foundations of his approach to moral questions and with a model for integrating classical precepts into a coherent Christian framework As a result this book offers a challenging re-interpretation of Petrarch's humanism and offers a provocative new interpretation of his role in the development of Italian humanism

The Renaissance in Italy Kenneth Bartlett, 2019-11-15 The Italian Renaissance has come to occupy an almost mythical place in the popular imagination The outsized reputations of the best known figures from the period Michelangelo Niccolò Machiavelli Lorenzo the Magnificent Pope Julius II Isabella d'Este and so many others engender a kind of wonder How could so many geniuses or exceptional characters be produced by one small territory near the extreme south of Europe at a moment when much of the rest of the continent still labored under the restrictions of the Middle Ages How did so many of the driving principles behind Western civilization emerge during this period and how were they defined and developed And why is it that geniuses such as Leonardo Raphael Petrarch Brunelleschi Bramante and Palladio all sustain their towering authority to this day To answer these questions Kenneth Bartlett delves into the lives and works of the artists patrons and intellectuals the privileged educated influential elites who created a rarefied world of power money and sophisticated talent in which individual curiosity and skill were prized above all else The result is a dynamic highly readable copiously illustrated history of the Renaissance in Italy and of the artists that gave birth to some of the most enduring ideas and artifacts of Western civilization

Petrarch's 'Fragmenta' Thomas E. Peterson, 2016-01-01 Building on recent Petrarch scholarship and broader studies of medieval poetics poetic narrativity and biblical intertextuality this study argues that Petrarch's *Rerum vulgarium fragmenta* is an ordered and coherent work unified by narrative and theological structures The author begins with the premise that the multiple voices of the Petrarchan figure or subject call for a reading informed by historical and autobiographical considerations Within such a reading the internal

chronology of the work coincides with a temporal framework provided by Petrarch's Latin prose and poetry. Drawing on this material he argues that Petrarch's derivations from early poets in the Italian vernacular, his Augustinianism and his humanism are manifest in the *Fragmenta* and contribute to its narrative and theological unity.

Petrarch's Triumph in English Alessandra Petrini, 2020-08-17 This edition argues that Petrarch's text has been neglected by modern scholarship in favour of the translations of the *Canzoniere* while it can be shown that the *Triumph* enjoyed a much earlier and much more durable fame in Europe as well as in the British Isles being translated at least twice in its entirety with individual books and smaller sections being translated or adapted a number of times. Critical editions of the translations are accompanied by analysis of the reception of Petrarch's work in the British Isles looking at the circulation of the book in the original Italian and in the various French translations as well as at the use that is made of the *Triumph* motifs not only in literature but in paintings, music etc.

Classics from Papyrus to the Internet Jeffrey M. Hunt, R. Alden Smith, Fabio Stok, 2017-07-25 This major overview of how classical texts were preserved across millennia addresses both the process of transmission and the issue of reception as well as the key reference works and online professional tools for studying literary transmission.

The Oxford Handbook of Chaucer Suzanne Conklin Akbari, James Simpson, 2020-05-07 As the father of the English literary canon, one of a very few writers to appear in every great books syllabus, Chaucer is seen as an author whose works are fundamentally timeless, an author who like Shakespeare exemplifies the almost magical power of poetry to appeal to each generation of readers. Every age remakes its own Chaucer, developing new understandings of how his poetry intersects with contemporary ways of seeing the world and the place of the subject who lives in it. This Handbook comprises a series of essays by established scholars and emerging voices that address Chaucer's poetry in the context of several disciplines including late medieval philosophy and science, Mediterranean Studies, comparative literature, vernacular theology and popular devotion. The volume paints the field in broad strokes and sections include Biography and Circumstances of Daily Life, Chaucer in the European Frame, Philosophy and Science in the Universities, Christian Doctrine and Religious Heterodoxy and the Chaucerian Afterlife. Taken as a whole, *The Oxford Handbook of Chaucer* offers a snapshot of the current state of the field and a bold suggestion of the trajectories along which Chaucer studies are likely to develop in the future.

The Great Humanists Jonathan Arnold, 2011-10-14 Born out of a love of language, text, classical learning, art, philosophy and philology, the Christian Humanist project lasted beyond the turmoil of sixteenth-century Europe to survive in a new form in post-Reformation thought. Jonathan Arnold here explores the finest intellects of late Renaissance Europe, providing an essential guide to the most important scholars, priests, theologians and philosophers of the period, now collectively known as the Christian Humanists. *The Great Humanists* provides an invaluable context to the philosophical, political and spiritual state of Europe on the eve of the Reformation through inter-related biographical sketches of Erasmus, Thomas More, Marsilio Ficino, Petrarch, Johann Reuchlin, Jacques Lefevre d'Étaples and many others. The legacy of these thinkers is still relevant and widely

studied today and this book will make invaluable reading for scholars and students of philosophy and early modern European history

Approaches to Teaching Petrarch's Canzoniere and the Petrarchan Tradition Christopher Kleinhenz, Andrea Dini, 2014-01-01 One of the most important authors of the Middle Ages Petrarch occupies a complex position historically he is a medieval author but philosophically he heralds humanism and the Renaissance Teachers of Petrarch s Canzoniere and his formative influence on the canon of Western European poetry face particular challenges Petrarch s poetic style brings together the classical tradition Christianity an exalted sense of poetic vocation and an obsessive love for Laura during her life and after her death in ways that can seem at once very strange and because of his style s immense influence very familiar to students This volume aims to meet the varied needs of instructors whether they teach Petrarch in Italian or in translation in surveys or in specialized courses by providing a wealth of pedagogical approaches to Petrarch and his legacy Part 1 Materials reviews the extensive bibliography on Petrarch and Petrarchism covering editions and translations of the Canzoniere secondary works and music and other audiovisual and electronic resources Part 2 Approaches opens with essays on teaching the Canzoniere and continues with essays on teaching the Petrarchan tradition Some contributors use the design and structure of the Canzoniere as entryways into the work others approach it through discussion of Petrarch s literary influences and subject matter or through the context of medieval Christianity and culture The essays on Petrarchism map the poet s influence on the Italian lyric tradition as well as on other national literatures including Spanish French English and Russian

Writing Beloveds Aileen A. Feng, 2017-01-01 This study considers the way in which a poetic convention the beloved to whom Renaissance amatory poetry was addressed becomes influential political rhetoric an instrument that both men and women used to shape and justify their claims to power The author argues that Petrarchan poetic conventions were part of a social discourse that signaled anxiety concerning the rising place of women as intellectual interlocutors public figures and patrons of the arts

Continuity and Rupture in the Long Middle Ages Michael Edward Moore, 2024-08-26 The Long Middle Ages indicates a span of time extending from Antiquity across the Middle Ages to the Early Modern period The author tries to understand factors of historical continuity binding this period together and the periodic scenes of violent change that disrupted societies and traditions The Long Middle Ages were established on classical and biblical foundations while each generation interpreted and expanded on those origins The cohesion of the Long Middle Ages was brought about by continuous acts of reflection and renaissance Scholarly practices and ideas of Antiquity were taken up in the monasteries and cathedral schools of the Middle Ages while during the Renaissance

Catherine of Siena and others Crip Authority Elizabeth Bearden, 2025-09-22 Crip Authority explores how Renaissance writers and artists with disabilities drew on consolatory literature to enhance their authority and create a sense of disability community across the centuries Elizabeth B Bearden considers how Renaissance writers and artists understood their lived experiences of disability by drawing on the ancient genre of consolation which aims to comfort people for a variety of hardships including mental and physical disability Renaissance writers used the art of consolation to resignify the mental and physical disabilities that their society frequently scorned into an expression of their military spiritual political and most importantly for this study writerly authority Bearden names this kind of defiant authorial self representation crip authority thereby transgressively crippling our society's ableist notions of who has the ability and authority to write Disabled authors include Francesco Petrarca Teresa de Cartagena Giovanni Paolo Lomazzo Miguel de Cervantes Saavedra Robert Burton and John Milton They all explore their experiences of disability but their work has rarely or never been considered from a disability studies perspective Bearden thus brings today's models of disability studies and crip theory together with early modern articulations of disability based on ancient and Renaissance models of military political biblical and literary authority In sum Crip Authority makes a significant contribution to the growing field of early modern disability studies and invites us to rethink the extent of crip history and the endurance of disability gain **Transnational Italian Studies** Charles
