Online Consumer Behavior Angeline Close Scheinbaum, 2012-05-04 Social media e.g. Facebook, LinkedIn, Groupon, Twitter have changed the way consumers and advertisers behave. It is crucial to understand how consumers think, feel, and act regarding social media, online advertising, and online shopping. Business practitioners, students, and marketers are trying to understand online consumer experiences that help instill brand loyalty. This book is one of the first to present scholarly theory and research to help explain and predict online consumer behavior. Online Consumer Psychology Curtis P. Haugtvedt, Karen A. Of course, most of us. Evolution of internet and digitalization in all walks of life have created a paradigm shift in shopping patterns from bricks and mortar to online shopping. Though consumers have started welcoming and adopting this new phenomenon, but still the move is not in its full swing. Consumers are somewhat reluctant to use it as they are facing various kinds of obstacles. Since consumers are the central point of any business to achieve success, it is imperative to analyze and understand consumers' behavior and attitudes to make them satisfied. The book makes an attempt to assess the web-based shopping behavior of consumers in India. Specifically, it presents a clear picture of concerns and issues that exist in the adoption of online shopping. The main objective of this study is to explore major factors which consumers consider while making online purchases and to expose the factors which create hindrance to online shopping.
