Civil Society: Between Concepts and Empirical Grounds Liv Egholm, Lars Bo Kaspersen, 2020-11-29 Examining the historical and social trajectories involved in the continuous development of civil society this volume reveals the contextual nature of the process Through empirical studies focusing primarily on Denmark and covering the period from 1849 to the present day it analyses the manner in which civil society has been practised and transformed over time Presenting a new theoretical framework informed by a relational and processual perspective the book sheds new light on familiar questions pertaining to civil society the production of its boundaries and spaces of action and the means by which these spaces can become causal factors A fresh intervention in the study of a concept that has been central in defining ideas of solidarity and the common good and to which researchers and politicians look for solutions to the great challenges of our time *Civil Society Between Concepts and Empirical Grounds* will appeal to scholars of sociology politics history and philosophy with interests in civil society

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of *Europe Asia Studies*

The Late Foucault Marta Faustino, Gianfranco Ferraro, 2020-12-10 Michel Foucault is one of the most important and controversial thinkers of the twentieth century and one of the leading figures in contemporary Western intellectual life and debate The recent publication of his last lecture courses at the Collège de France 1981 1984 together with the short texts essays and interviews from the same period have sparked new interest in his work allowing for a new understanding of his philosophical trajectory and challenging several interpretations produced over the last few decades In this later phase of his thinking Foucault deepens and expands the course of his preceding works on the genealogy of subjectivity while at the same time adding a significant ethical and political dimension to it His focus on the ancient ethics of care of the self and technologies of self constitution during this period adds important nuances to his previous positions on power truth and subjectivity shedding new light on his philosophical endeavour as a whole and situating his reflections at the centre of current moral debates Focusing on the last

stage of Foucault's thought this book brings together international scholars to relaunch the critical debate on the significance of Foucault's so-called ethical turn and to discuss the ways in which the perspectives offered by Foucault in this period might help us to unravel modernity giving us the tools to understand and transform our present ethically and politically

Civil Society and Political Change in Asia Muthiah Alagappa, 2004 A systematic investigation of the connection between civil society and political change in Asia change toward open participatory and accountable politics Its findings suggest that the link between a vibrant civil society and democracy is indeterminate certain civil society organizations support democracy others could undermine it

Public Passion Rebecca Kingston, 2011 Whether in the reception of rousing political oratory like that of de Gaulle or Martin Luther King or in the motivations of demonstrators in popular uprisings like those in Tunisia and Egypt there is no denying that emotion and politics are connected Nonetheless criticism of political debate and discourse as emotionally rather than rationally based is ubiquitous and emotion is often presented as a negative factor in politics Public Passion shows that reason and emotion are not mutually exclusive and restores the legitimacy of shared emotion in political life Public Passion traces the role of emotion in political thought from its prominence in classical sources through its resuscitation by Montesquieu to the present moment Combining intellectual history philosophy and political theory Rebecca Kingston develops a sophisticated account of collective emotion that demonstrates how popular sentiment is compatible with debate pluralism and individual agency and shows how emotion shapes the tone of interactions among citizens She also analyzes the ways in which emotions are shared and transmitted among citizens of a particular regime paying particular attention to the connection between political institutions and the psychological dispositions that they foster Public Passion presents illuminating new ways to appreciate the forms of popular will and reveals that emotional understanding by citizens may in fact be the very basis through which a commitment to principles of justice can be sustained

Global Civil Society 2011 H. Seckinelgin, Billy Wong, 2016-01-12 Global Civil Society 2011 combines activist and academic accounts of contemporary struggles to promote negotiate and deliver justice in a global frame without a central authority In their engagement with cultural diversity and their networked communication the contributors rethink and remake justice beyond the confines of the nation state

Democracy and Civil Society in a Global Era Scott Nicholas Romaniuk, Marguerite Marlin, 2016-03-31 Democracy and Civil Society in a Global Era addresses challenges to the strengthening of active citizenship In this highly structured work the themes presented are linked to fostering a culture of peace and non violence the lessening of fear and insecurity in political economic social and cultural terms inherently detached from the conceptualization of political delineations and physical boundaries and the ability to live dignified lives The various regions that are represented in the case studies include the

Indian sub continent Malaysia Indonesia Turkey Iran China the Middle East Nigeria and the EU The commonality and universality of the topics allows readers from any region of the world to relate to them This book presents a dynamic combination of theory and field research and is an iconoclastic tour de force of studies in democracy Policy makers think tanks and development practitioners may be particularly be interested in this book because it is about action rather than mere ideas and processes It demonstrates how social movements can introduce and strengthen equality inclusion accountability and the free flow of information These elements in turn can contribute to the acculturation of freedom and social justice in the developed world just as much as in the developing world *Spider Web* Nick Fischer,2016-05-15 The McCarthy era witch hunts marked the culmination of an anticommunist crusade launched after the First World War With Bolshevism triumphant in Russia and public discontent shaking the United States conservatives at every level of government and business created a network dedicated to sweeping away the spider web of radicalism they saw threatening the nation In this groundbreaking study Nick Fischer shines a light on right wing activities during the interwar period Conservatives eager to dispel communism s appeal to the working class railed against a supposed Soviet directed conspiracy composed of socialists trade unions peace and civil liberties groups feminists liberals aliens and Jews Their rhetoric and power made for devastating weapons in their systematic war for control of the country against progressive causes But as Fischer shows the term spider web far more accurately described the anticommunist movement than it did the makeup and operations of international communism Fischer details how anticommunist myths and propaganda influenced mainstream politics in America and how its ongoing efforts paved the way for the McCarthyite Fifties and augured the conservative backlash that would one day transform American politics *Routledge Handbook of Chinese Culture and Society* Kevin Latham,2020-02-27 The Routledge Handbook of Chinese Culture and Society is an interdisciplinary resource that offers a comprehensive overview of contemporary Chinese social and cultural issues in the twenty first century Bringing together experts in their respective fields this cutting edge survey of the significant phenomena and directions in China today covers a range of issues including the following State privatisation and civil society Family and education Urban and rural life Gender and sexuality and reproduction Popular culture and the media Religion and ethnicity Forming an accessible and fascinating insight into Chinese culture and society this handbook will be invaluable to students and scholars across a range of disciplines including anthropology sociology area studies history politics and cultural and media studies **Competitive Political Regime and Internet Control** Liu Yangyue,2014-06-02 Why are policies of internet control adopted in a democratic state while internet freedom is guaranteed in a more authoritarian context In this work on the comparative politics of internet control it is argued that regime type per se is not the direct determinant of the internet control outcome Instead the book proposes an alternative model that addresses the intensity of online transgressiveness and the capacity of online civil society While online transgressiveness propels governments to seek internet control strategies online civil society

represents an inhibiting force the cohesiveness of which determines the extent to which societal resistance against internet censorship might succeed Through detailed studies of Malaysia Thailand and Indonesia Competitive Political Regime and Internet Control shows that online transgressiveness and civil society capacity collectively shape the outcomes of internet control In this way the book provides a new framework for understanding the practice of internet control which has become a hot topic in the study of internet politics and regime types more generally It also speaks to the broad literature on Southeast Asian politics as well as that on democratization

Social Media and Political Participation in Vietnam Viet Tho Le,Tuong-Minh Ly-Le,Lam Ha,2024-12-21 This book explores the nexus between social media use among young people and political participation in Vietnam which presents a novel case example for examining whether social media can expand the public sphere to become involved in everyday politics With an estimated 72 million Vietnamese on Facebook the country is the seventh largest user base in the world This social media platform alone has created a virtual public sphere outside of and beyond the scope of the ruling Communist Party and its state owned media outlets The authors analyse the paradox of a complicated balancing act of digital participation in an authoritarian state promoting a new understanding of social media in non Western societies The book generates a considerable body of empirical findings relating to political engagement amongst the youth in the digital age and develops the theory of the public sphere beyond Habermas within this context In its examination of the role of social media in society and in political communication generally and the role of social media in authoritarian states specifically this book is of interest to students and scholars researching social media political communication and media theories It is also relevant to those studying the intersection of media and politics in Southeast Asia and in authoritarian states globally

Political Communication in Asia Lars Willnat,Annette Aw,2009-03-23 This edited volume provides a critical review of political communication research conducted in Asia over the past twenty years Each chapter focuses on studies published in a specific Asian country selected according to the level of contribution made to the field of political communication in Asia Covering China Hong Kong Taiwan South Korea Japan Singapore Malaysia Indonesia and India the book s primary objective is to review the unique theoretical accomplishments made by Asian communication scholars thus contributing to a better awareness and understanding of political communication research in Asia The contributors are well respected Asian media scholars writing on political communication in their countries of origin Each author reviews studies conducted and published in his her native country and language s This book provides a first review of these studies most of which have never been published in English and makes them available to international scholars The contributors discuss each country s political background and address the findings and conclusions of the political communication studies conducted in their respective countries during the past two decades The chapters focus on insights that have been made by adapting Western media theories to the unique social cultural or political contexts that exist in each country The authors also point out possible gaps in the current research within their respective countries and to make

recommendations for future studies *Digital Media and Political Engagement Worldwide* Eva Anduiza Perea, Michael James Jensen, Laia Jorba, 2012-06-29 This book explores how digital media use affects political attitudes and behavior and how this relationship is shaped by political environments across countries While research in this area has concentrated on the United States and United Kingdom such results are set in comparative relief through the analysis of cases across Europe Latin America the Middle East and Asia The book concludes that digital media have an effect on users and depicts some of the characteristics of different political systems that play a significant role for online political engagement *Global Civil Society and Its Limits* G. Laxer, S. Halperin, 2003-04-30 This volume critically examines the promise of a global civil society Exploring issues in cases of diverse social justice movements the contributors show that a global civil society is still far from emerging and its promotion may even harm the realization of grassroots democracy The Internet is an exciting new means for activists to communicate internationally and citizens movements increasingly co ordinate campaigns through transnational advocacy networks but most effective civic action still takes place at national and local levels **Zionist Israel and Apartheid South Africa** Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa Collective Unravelings of the Hegemonic Web Becky L. Noël Smith, Katherine Becker, Libbi R. Miller, Natasha S. Reid, Michele D. Sorensen, 2014-08-01 *Collective Unravelings of the Hegemonic Web* represents the culmination of work that emerged from 2013 Curriculum Pedagogy annual conference The notion of the hegemonic web is the defining theme of the volume In this collection authors struggle to unravel and take apart pieces of the complex web that are so deeply embedded into normative ways of thinking being and making meaning They also grapple with understanding the role that hegemony plays and the influence that it has on identity curriculum teaching and learning Finally scholars included in this volume

describe their efforts to engage and undergo counter hegemonic movements by sharing their stories and struggles

Intelligence on the Frontier Between State and Civil Society Karen Lund Petersen, Kira Rønn, 2020-06-29

Intelligence on the Frontier Between State and Civil Society shows how today's intelligence practices constantly contest the frontiers between normal politics and security politics and between civil society and the state. Today's intelligence services face the difficult task of having to manage the uncertainties associated with new threats by inviting civil actors in to help while also upholding their own institutional authority and responsibility to act in the interest of the nation. This volume examines three different perspectives: Managerial practices of intelligence collection and communication, the increased use of new forms of data, i.e. of social media information, and the expansion of intelligence practices into new areas of concern, for example cybersecurity and the policing of misinformation. This book accurately addresses these three topics and all chapters shine more light on the inclusion and exclusion of civil society in the secret world of intelligence. By scrutinizing how intelligence services balance the inclusion of civil society in security tasks with the need to uphold their institutional authority, *Intelligence on the Frontier Between State and Civil Society* will be of great interest to scholars of Security Studies and Intelligence Studies. The chapters were originally published as a special issue of *Intelligence and National Security*.
