Online Capitalist Unconscious Marx Lacan:

The Capitalist Unconscious Samo Tomšič, 2016-02-16 A major systematic study of the connection between Marx and Lacan's work. Finalist for the American Board and Academy of Psychoanalysis Book Prize. Despite a resurgence of interest in Lacanian psychoanalysis particularly in terms of the light it casts on capitalist ideology as witnessed by the work of Slavoj Žižek there remain remarkably few systematic accounts of the role of Marx in Lacan's work. A major comprehensive study of the connection between their work *The Capitalist Unconscious* resituates Marx in the broader context of Lacan's teaching and insists on the capacity of psychoanalysis to reaffirm dialectical and materialist thought. Lacan's unorthodox reading of Marx refigured such crucial concepts as alienation, *jouissance* and the Freudian labour theory of the unconscious. Tracing these developments Tomšič maintains that psychoanalysis, structuralism and the critique of political economy participate in the same movement of thought; his book shows how to follow this movement through to some of its most important conclusions.

Epistemontology in Spinoza-Marx-Freud-Lacan A. Kiarina Kordela, 2017-10-06 A. Kiarina Kordela steps beyond extant commentaries on Marx's theory of commodity fetishism from A. Sohn-Rethel to L. Althusser, Balibar, Slavoj Žižek and others to show that in capitalism value is the manifestation of the homology between thought and being while their other aspect, power, is foreclosed and becomes the object of biopower. Using monistic Marxian Lacanian structuralism as an alternative to dominant models from Plato and Kant to phenomenological accounts, deconstruction and other contemporary approaches, Kordela expertly argues that Marx's theory of commodity fetishism is a reformulation of the Spinozian thesis that thought, mind and things, bodies or extension are manifestations of one and the same being or substance. Kordela's link between Spinoza and Marx shows that being consists of two aspects: value and power, the former leading to structuralist thought, the latter becoming the object of contemporary biopower. *Epistemontology in Spinoza: Marx, Freud, Lacan* intervenes between two dominant lines of thought in the reception of Marx today: on the one hand, an approach that relates Marxian thought to psychoanalysis from a Hegelian dialectical perspective and on the other hand, an approach that links Marxism to Spinozian monism at the total exclusion of psychoanalysis. This book will interest scholars and researchers who study Marxism, post-structuralism, psychoanalysis, critical theory, ontology, epistemology and theories of representation, theoreticians of cultural studies and comparative literature, aesthetic theory including the relation of art to economy and politics and biopolitics.

Lacan the Charlatan Peter D. Mathews, 2020-06-01 This book sets out to determine the validity of an accusation made against Jacques Lacan by Noam Chomsky in an interview in 1989. He stated that Lacan was a charlatan, not that his ideas were flawed or wrong, but that his entire discourse was fraudulent, an accusation that has since been repeated by many other critics. Examining the arguments of key anti-Lacanian critics, Mathews weighs and contextualizes the legitimacy of Lacan's engagements with structural linguistics, mathematical formalization, science, ethics, Hegelian dialectics and psychoanalysis. The guiding thread is Lacan's own recurrent interrogation of authority which inhabits an ambiguous zone between mastery

and charlatanry This book offers a novel contribution to the field for students and scholars of psychoanalysis philosophy sociology critical and literary theory Lacan and the Environment Clint Burnham,Paul Kingsbury,2021-07-15 In this exciting new collection leading and emerging Lacanian scholars seek to understand what psychoanalysis brings to debates about the environment and the climate crisis They argue that we cannot understand climate change and all of its multifarious ramifications without first understanding how our terrifying proximity to the real undergirds our relation to the environment how we mistake lack for loss and mourning for melancholy and how we seek to destroy the same world we seek to protect The book traces Lacan s contribution through a consideration of topics including doomsday preppers forest suicides Indigenous resistance post apocalyptic films the mathematics of climate science and the relevance of Kant They ask What can you do if your neighbour is a climate change denier What would Bartleby do Does the animal desire Who is cleaning up all the garbage on the internet Why is the sudden greening of the planet under COVID 19 no help whatsoever It offers a timely intervention into Lacanian theory environmental studies geography philosophy and literary studies that illustrates the relevance of psychoanalysis to current social and environmental concerns Lacan and Deleuze Bostjan Nedoh,2016-10-26 It is often said that Lacan is the most radical representative of structuralism a thinker of negativity and alienation whereas Deleuze is pictured as a great opponent of the structuralist project a vitalist and a thinker of creative potentialities of desire It seems the two cannot be further apart This volume of 12 new essays breaks the myth of their foreignness if not hostility and places the two in a productive conversation By taking on topics such as baroque perversion death drive ontology topology face linguistics and formalism the essays highlight key entry points for a discussion between Lacan s and Deleuze s respective thoughts The proposed lines of investigation do not argue for a simple equation of their thoughts but for a disjunctive synthesis which acknowledges their differences while insisting on their positive and mutually informed reading

Postcolonial Lack Gautam Basu Thakur,2020-03-16 Postcolonial Lack reconvenes dialogue between Lacanian psychoanalysis and postcolonial theory in order to expand the range of cultural analyses of the former and make the latter theoretically relevant to the demands of contemporary narratives of othering exclusion and cultural appropriation Seeking to resolve the mutual suspicion between the disciplines Gautam Basu Thakur draws out the connections existing between Lacan s teachings on subjectivity and otherness and writings of postcolonial and decolonial theorists such as Gayatri Spivak Frantz Fanon and Homi Bhabha By developing new readings of the marginalized other as radical impasse and pushing the envelope on neoliberal identity politics the book moves postcolonial studies away from the perennial topic of identity and difference and into examining the form and function of the other as excess surplus and or lack in colonial and postcolonial literature film and social discourse Looking at writings by Mahasweta Devi Amitav Ghosh Leila Aboulela Narayan Gangopadhyay Katherine Boo and films by Gillo Pontecorvo Clint Eastwood Ryan Coogler Black Panther and Tony Gatlif Basu Thakur highlights a new set of ethical and political considerations emerging as a direct result of this shift and stakes a fundamental

rethinking of postcoloniality through what he calls the politics of ontological discordance **The Anthropocene**

Unconscious Mark Bould, 2021-11-02 From Ducks Newburyport to zombie movies and the Fast and Furious franchise how climate anxiety permeates our culture The art and literature of our time is pregnant with catastrophe with weather and water wildness and weirdness The Anthropocene the term given to this geological epoch in which humans anthropos are wreaking havoc on the earth is to be found bubbling away everywhere in contemporary cultural production Typically discussions of how culture registers figures and mediates climate change focus on climate fiction or cli fi but The Anthropocene Unconscious is more interested in how the Anthropocene and especially anthropogenic climate destabilisation manifests in texts that are not overtly about climate change that is unconsciously The Anthropocene Mark Bould argues constitutes the unconscious of the art and literature of our time Tracing the outlines of the Anthropocene unconscious in a range of film television and literature across a range of genres and with utter disregard for high low culture distinctions this playful and riveting book draws out some of the things that are repressed and obscured by the term the Anthropocene including capital class imperialism inequality alienation violence commodification patriarchy and racial formations The Anthropocene Unconscious is about a kind of rewriting It asks what happens when we stop assuming that the text is not about the anthropogenic biosphere crises engulfing us What if all the stories we tell are stories about the Anthropocene About climate change *Incontinence of the Void* Slavoj Žižek, 2019-02-26 The formidably brilliant Žižek considers sexuality ontology subjectivity and Marxian critiques of political economy by way of Lacanian psychoanalysis If the most interesting theoretical interventions emerge today from the interspaces between fields then the foremost interspaceman is Slavoj Žižek In *Incontinence of the Void* the title is inspired by a sentence in Samuel Beckett's late masterpiece *Ill Seen Ill Said* Žižek explores the empty spaces between philosophy psychoanalysis and the critique of political economy He proceeds from the universal dimension of philosophy to the particular dimension of sexuality to the singular dimension of the critique of political economy The passage from one dimension to another is immanent the ontological void is accessible only through the impasses of sexualisation and the ongoing prospect of the abolition of sexuality which is itself opened up by the technoscientific progress of global capitalism in turn leading to the critique of political economy Responding to his colleague and fellow *Short Circuits* author Alenka Župan's *What Is Sex* Žižek examines the notion of an excessive element in ontology that gives body to radical negativity which becomes the antagonism of sexual difference From the economico philosophical perspective Žižek extrapolates from ontological excess to Marxian surplus value to Lacan's surplus enjoyment In true Žižekian fashion *Incontinence of the Void* focuses on eternal topics while detouring freely into contemporary issues from the Internet of Things to Danish TV series *Borders, Bodies and Narratives of Crisis in Europe* Thanasis Lagios, Vasilia Lekka, Grigoris Panoutsopoulos, 2018-04-25 This book addresses two interrelated discourses of crisis in contemporary Europe the migrant crisis vs the economic crisis The chapters shed light on the thread that links these two issues by first examining immigration

and the transformations regarding its control and administration via border technologies as well as on the centrality of the body as a means and carrier of border within contemporary biopolitical societies In a second step the authors proceed to a genealogy of the current discourses regarding the financial and political crisis through a Foucauldian and Lacanian perspective focusing on the co articulation of scientific knowledge and biopolitical power in Western societies *Contested Knowledges* Esha Shah,Rutgerd Boelens,Bert Bruins,2019-05-20 Water acquisition storage allocation and distribution are intensely contested in our society whether for instance such issues pertain to a conflict between upstream and downstream farmers located on a small stream or to a large dam located on the border of two nations Water conflicts are mostly studied as disputes around access to water resources or the formulation of water laws and governance rules However explicitly or not water conflicts nearly always also involve disputes among different philosophical views The contributions to this edited volume have looked at the politics of contested knowledge as manifested in the conceptualisation design development implementation and governance of large dams and mega hydraulic infrastructure projects in various parts of the world The special issue has explored the following core questions Which philosophies and claims on mega hydraulic projects are encountered and how are they shaped validated negotiated and contested in concrete contexts Whose knowledge counts and whose knowledge is downplayed in water development conflict situations and how have different epistemic communities and cultural political identities shaped practices of design planning and construction of dams and mega hydraulic projects The contributions have also scrutinised how these epistemic communities interactively shape norms rules beliefs and values about water problems and solutions including notions of justice citizenship and progress that are subsequently to become embedded in material artefacts *Unworkable* Fabio Vighi,2022-03-01 Unworkable discusses the ongoing implosion of our globalized world from three distinct angles the capitalist elimination of labor through technological automation the dissolution of our shared social narratives and the subtle imposition of an increasingly pervasive ideological order Aiming to root out the lost cause of this implosion Fabio Vighi returns to Marx by way of Hegel Lacan Gorz Baudrillard and other thinkers who in different ways have reflected on the complex dialectical structure of modernity and its hidden conditions of possibility Capitalism Vighi argues fundamentally redefined the meaning of work and prevented the emergence of alternative forms of life In our own time the delusions of work and the values that propel life under capitalism have become in Vighi s analysis unworkable And yet even as we become an increasingly workless society we continue to abide by the same laws of productivity and profit **Universal Prostitution and Modernist Abstraction** Jaleh Mansoor,2025-04-18 In *Universal Prostitution and Modernist Abstraction* Jaleh Mansoor provides a counternarrative of modernism and abstraction and a reexamination of Marxist aesthetics Mansoor draws on Marx s concept of prostitution a conceptual device through which Marx allegorized modern labor to think about the confluences of generalized and gendered labor in modern art Analyzing works ranging from douard Manet s Olympia and Georges Seurat s The Models to contemporary work by Hito Steyerl and

Hannah Black she shows how avant garde artists can detect changing modes of production and capitalist and biopolitical processes of abstraction that assign identities to subjects in the interest of value s impersonal circulation She demonstrates that art and abstraction resist modes of production and subjugation at the level of process and form rather than through referential representation By studying gendered and generalized labor abstraction automation and the worker Mansoor shifts focus away from ideology superstructure and culture toward the ways art indexes crisis and transformation in the political economic base Ultimately she traces the outlines of a counterpraxis to capital while demonstrating how artworks give us a way to see through the abstractions of everyday life

Capitalism and the Equity Fetish Robert Herian,2021-01-21 This book is a provocative interdisciplinary and critical appraisal of civil justice property and the laws that shape and command them within capitalism Dr Herian s book is both a complementary and countervailing narrative to many mainstream legal accounts one that critiques core and influential areas of legal knowledge and practice Central to the book s thesis is a rich collaboration of ideas and perspectives that consider what is at stake from institutions concepts and practices of equity and civil justice tied to the subjective psychic life and the unconscious desires of capitalist stakeholders The book aims to address several questions including how capitalism has imagined and shaped equity and civil justice since the nineteenth century how capitalism acts as a well spring of desire for forms of justice that wrap around and sustain complex frameworks of private property power and ownership and how equity supports agile neoliberal strategies of justice and reason in the twenty first century
