**Global Business Today Global Edition 8e** Charles Hill, 2014-09-16 Global Business Today has been developed specifically to meet the needs of international students of business. Written in a refreshing, informative and accessible style, it has become the most widely used text in the International Business market with its comprehensive and up-to-date contents, focus on managerial implications and application of international business concepts, and incorporation of ancillary resources that enliven the text and make it easier to teach. In addition to boxed material which provides insightful illustrations in every chapter, interesting anecdotes have been carefully weaved into the narrative of the text to engage the reader. Enhancements to the Global Edition include New Country Focus boxes that provide background on the political, economic, social or cultural aspects of countries grappling with an international business issue to help raise students' awareness of how national and geographic differences affect the conduct of international business, such as Corruption in the Philippines and the Export Processing Zone Authority of Pakistan. New Management Focus boxes that provide lively illustrations of the relevance of chapter material for the practice of international business, including Patenting Basmati Rice and Expatriate Managers. New Perspective boxes that provide additional context for chapter topics, such as Market Economy in China, Australian SMEs Embrace the Chinese Currency, and Global Variations in Ownership Structure. *Emergency Medicine MCQs - E-Book* Waruna De Alwis, Yolande Weiner, 2012-09-20 An invaluable self-assessment tool for emergency medicine trainees in Australasia. *Emergency Medicine MCQs* is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in *Emergency Medicine MCQs* cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert-level knowledge, high-level knowledge, and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice, from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management, and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs on call. Plus, this emergency medicine text is accompanied by an app, a separate product containing 180 randomised multiple-choice questions on all the topics within the book. Test bank. Evidence-based, clinically oriented material. Question format coherent with updated ACEM guidelines, updated in August 2011. References and further reading. **Writing and Developing College Textbook Supplements** Mary Ellen Lepionka, 2005 *Online Education Policy and Practice* Anthony G. **Addictive Disorders in Medical Populations** Norman S. Miller, Mark S. Gold, 2011-07-26 This book has a much wider focus than traditional books written about drug and alcohol addictions. This unique book is written by medical specialists who diagnose, treat, and research addictive disorders in their specialties. Thus it meets the needs of the typical medical practitioner who wants to learn about and treat patients with addictive disorders in their practices. Because alcohol and drug problems are so prevalent and affect medical conditions profoundly, the medical specialist will improve their knowledge and skill to diagnose and treat addictive disorders in their specialties. Drug and alcohol addictions occur commonly in medical populations. 25-50% of patients seen by primary care physicians have alcohol and drug disorders, with even higher prevalence in certain medical specialty populations. Drug use, including illicit drug use and actual or perceived misuse of prescribed medications, alcohol use, and what has been called unhealthy drinking, are even more common in trauma centers and our society. Currently, there are no authoritative addiction texts that focus on the identification, intervention, and management of either addictive disorders in medical populations or medical complications in addiction populations. Neurobiological progress in the field of addiction has been amazing, and evidence-based treatments have developed at a phenomenal pace, with bench-to-office applications for tobacco, alcohol, and drugs. Pharmacological and psychosocial treatments are described here in detail and in practical terms. The medical and mental complications of addiction are explained comprehensively throughout the text. Clinical considerations are the predominant theme, with the standards of clinical practice grounded in the most current research. The chapters include practical presentations of both clinical and research materials, with instruments for screening and assessment and treatment. It will be useful for all those seeking information to help a patient or family with a tobacco, alcohol, or drug problem. We hope this book can give answers and direction to the identification and management of addictions and their medical complications in patient populations.

Chapter 14: The Oceans Michael Pidwirny, 2023-08-02 Chapter 14: The Oceans of the eBook Understanding Physical Geography. This eBook was written for students taking introductory Physical Geography taught at a college or university. For the chapters currently available on Google Play presentation slides, Powerpoint, and Keynote format, and multiple choice test banks are available for Professors using my eBook in the classroom. Please contact me via email at Michael.Pidwirny@ubc.ca if you would like to have access to these resources. The various chapters of the Google Play version of Understanding Physical Geography are FREE for individual use in a non-classroom environment. This has been done to support life-long learning. However, the content of Understanding Physical Geography is NOT FREE for use in college and university courses in countries that have a per capita GDP over 25,000 US dollars per year, where more than three chapters are being used in the teaching of a course. More specifically for university and college instructors using this work in such wealthier countries in a credit-based course where a tuition fee is assessed, students should be instructed to purchase the paid version of this content on Google Play, which is organized as one of six Parts, organized chapters. One

exception to this request is a situation where a student is experiencing financial hardship In this case the student should use the individual chapters which are available from Google Play for free The cost of these Parts works out to only 0 99 per chapter in USA dollars a very small fee for my work When the entire textbook 30 chapters is finished its cost will be only 29 70 in USA dollars This is far less expensive than similar textbooks from major academic publishing companies whose eBook are around 50 00 to 90 00 Further revenue generated from the sale of this academic textbook will provide the carrot to entice me to continue working hard creating new and updated content Thanks in advance to instructors and students who abide by these conditions **IMPORTANT** This Google Play version is best viewed with a computer using Google Chrome Firefox or Apple Safari browsers **History Can Bite** Denise Bontrovato, Karina V. Korostelina, Martina Schulze, 2016-10-10 The volume provides critical insights into approaches adopted by curricula textbooks and teachers around the world when teaching about the past in the wake of civil war and mass violence discerning some of the key challenges and opportunities involved in such endeavors The contributors discuss ways in which history teaching has acted as a political tool that has at times been guilty of exacerbating inter group conflicts It also highlights history teaching as an important component of reconciliation attempts showcasing examples of curricular reform and textbook revision after conflict and discussing how the contestations and difficulties surrounding such processes were addressed in different post conflict societies

**Macroeconomics** J. Bradford De Long, Arman Mansoorian, Leo Michelis, 2003-08 Macroeconomics First Canadian Edition offers a new approach to this subject Drawing upon their vast experience in teaching and research the authors have written an intermediate macroeconomics book that sets the standard for books in this third millennium DeLong provides a streamlined presentation of material traditional and modern resulting in a more understandable and comprehensive book This edition features five changes to the standard presentation of modern macroeconomics Provide a more student friendly way of learning growth theory Provide sufficient coverage of growth facts so that students learn the how and why of both growth over time and growth across countries Treat the economy as open from the beginning of the book Deal with interest rates not money stocks Increased focus on the Phillips curve These changes while not radical are shifts in emphasis and changes of focus They do not require recasting of courses but they are very important in bringing the organization of the book into line with what students learning macroeconomics today need to know
