Harmonic Analysis

Harmonic analysis reveals the relationship between the chords in a piece of music, their relationship to the key that the piece is written in and helps us understand **harmonic progressions**—the structural foundation of the Western tonal system. Knowledge of scales, chords, keys, and Roman numerals are the prerequisites to perform simple harmonic analysis.

As an introduction to harmonic analysis, let's go over the steps to analyze the opening phrase from the hymn tune known as "Old Hundredth" from the *Genevan Psalter* (1551), written by the French composer Louis Bourgeois:

Old Hundredth - First Phrase

Step 1. Determine the key

We will use Roman numerals to analyze the harmonies in this piece, so the first step is to determine what key it is in.

- Look at the key signature.

There is one sharp in the key signature. But the key signature alone does not tell us the key of the piece because every key signature can represent either a major or a minor key. In this case, the two possibilities are G major or E minor—its relative minor key. How can we determine which of these two keys is used here?
